| Investment Objective | The Fund aims to provide Unit Holders with income* through investments in a portfolio of Fixed Income Securities.  
* Income will be paid out via cash payment mode. | 17 |
| Investment Strategy | The Fund seeks to achieve its investment objective by investing a minimum of 80% of the Fund’s NAV in RM denominated Fixed Income Securities and/or foreign currency Fixed Income Securities (foreign currency Fixed Income Securities are Fixed Income Securities denominated in currencies other than RM). However as the Fund approaches the Maturity Date, the Manager may choose to invest in Liquid Assets to facilitate the payout of the proceeds to Unit Holders after the Maturity Date.  
**RM denominated Fixed Income Securities**  
The Fund will invest in RM denominated Fixed Income Securities with a minimum rating of “A-” by MARC or its equivalent rating by RAM at the point of purchase. If any of the RM denominated Fixed Income Securities have been downgraded to a rating lower than “BBB” by MARC or its equivalent rating by RAM, the Manager shall dispose the downgraded Fixed Income Security as soon as practicable. However, if such prompt action may be detrimental to the Fund, the Manager may continue to hold the downgraded Fixed Income Security for up to ninety (90) days.  
This treatment will be the same for issuer rating when there is no Fixed Income Security rating.  
The Fund’s investment in RM denominated Fixed Income Securities which are issued by government and/or government linked agencies need not be rated.  
**Foreign currency Fixed Income Securities**  
The Fund will invest in foreign currency Fixed Income Securities with a minimum rating of “BB-” by S&P or its equivalent rating by Moody’s and/or Fitch. Should the ratings be different amongst S&P, Moody’s and Fitch, the second highest rating shall be applicable. When there are only two (2) ratings available, the lower rating shall | 17 |
be applicable.

If any of the foreign currency Fixed Income Securities have been downgraded to a rating lower than “BB-” by S&P or its equivalent rating by Moody’s and/or Fitch as determined using the second highest or lower rating methodology, the Manager shall dispose the downgraded Fixed Income Security as soon as practicable. However, if such prompt action may be detrimental to the Fund, or if the Manager remains comfortable with the default risk after conducting credit assessment by taking into consideration of both quantitative and qualitative factors and concluded that the probability of default is low, the Manager may continue to hold the downgraded Fixed Income Securities up to the maturity date of the Fixed Income Securities or the Maturity Date of the Fund, whichever is earlier.

This treatment will be the same for issuer rating when there is no Fixed Income Security rating.

In determining the applicable rating for the respective RM denominated and foreign currency Fixed Income Securities, the issuer rating assigned by a relevant rating agency may be used instead of the Fixed Income Security rating only when there is no Fixed Income Security or issuer rating assigned by the same rating agency and the Manager is of the opinion that the issuer’s rating is a representation of the Fixed Income Security rating i.e. in the event of any insolvency of the issuer, the Fixed Income Securities of that issuer shall rank in equal seniority in rights of payment or claim with all other non-secured and non-guaranteed obligations of that issuer.

Fixed Income Securities are deemed unrated if there are no issue or issuer rating from any rating agencies. The Fund may invest in unrated Fixed Income Securities but limited to no more than 15% of the Fund’s NAV. In such instances, the Manager will conduct its own internal credit assessment to assess the eligibility of the Fixed Income Security.

The Fund may employ currency hedging strategies to fully or partially hedge the foreign currency exposure to manage the currency risk. Furthermore, the Fund may also fully or partially hedge the interest rate risk inherent in the investment of Fixed Income Securities.

*The investment strategy is further elaborated in Section 5.6 below.*

(4) RISK FACTORS

All investments carry some degree of risk. In relation to this, returns are not guaranteed to Unit Holders. If an investor expects a high return on investment, usually, the risk that the investor would have to bear would also be high, and vice versa. The choice of investing in the Fund is made at the discretion of the investors. There is a chance whereby the Fund chosen by the investor may not suit the investor’s needs and circumstances. Investors should rely on their own evaluation to assess the merits and risks when investing in the Fund.

The role of the Manager in the Fund is to invest in a portfolio of assets which is adequately suited to potentially achieve the objective of the Fund, while at the same time working towards mitigating the risk of the portfolio of assets as much as possible, through careful asset allocation and Fixed Income Security selection, as well as through diversification, i.e. spreading risk across a basket of multiple assets or Fixed Income Securities which have low or negative correlations with one another.

Before making an investment in the Fund, an investor should consider the various risks that may affect the Fund and the investor.

4.1 General Risks of Investing in the Fund

Market risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund’s NAV. The Manager will monitor the financial markets closely and act on any adverse news accordingly.

Inflation risk

This is the risk that investors’ investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors’ purchasing power even though the value of the investment in monetary terms has increased.

Liquidity risk

Liquidity risk refers to the ease of liquidating a Fixed Income Security depending on the Fixed Income Security’s volume traded in the market. If the Fund holds Fixed Income Securities that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such Fixed Income Securities at unfavourable prices. This risk is mitigated by diversifying the investment in a wide range of Fixed Income Securities and avoiding Fixed Income Securities with poor liquidity.

Manager's risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to reduce this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by the Manager.
Non-compliance risk

This risk refers to the possibility that the Manager may not follow the provisions set out in this Prospectus or the Deed or the laws, rules, guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. The Manager aims to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines.

Loan financing risk

This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event Units are used as collateral, an investor may be required to top-up the investors’ existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

Capital and returns are not guaranteed

Investors should be aware that there is no guarantee of any returns i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institutions which carry a specific rate of return, the Fund does not provide a fixed rate return.

4.2 Specific Risks of the Fund

Company specific risk

This risk arises when a company is exposed to adverse conditions or negative sentiments such as management issues, deteriorating business fundamentals or loss of competitiveness which is specific to a single company. As a consequence, the price of Fixed Income Securities issued by such company might fall and subsequently affects the Fund’s performance. The impact of a specific company may be reduced as the Fund invests in a wide portfolio of investments consisting of Fixed Income Securities issued by different companies thereby spreading the element of this risk through diversification.

Default risk

This risk refers to the possibility that the issuer of the Fixed Income Security or money market instrument is unable to make timely or full payments of principal and/or interest when due. In the event of a default in payment of principal and/or interest, this may cause a reduction in the value of the Fund. The Manager will endeavour to take the necessary steps to deal with the investments in the best interest of the Unit Holders including to dispose the defaulted investments within a time frame deemed reasonable by the Manager.

Current deposits and/or fixed deposits that the Fund has placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and interest foregone, causing the performance of the Fund to be adversely affected. Placement with financial institutions will also be made based on prudent selection.

Counterparty risk

Counterparty risk refers to a risk that relates to the credit standing of counterparties when over-the-counter transactions (such as that of derivatives or Fixed Income Securities) are
carried out and is generally not applicable to transactions performed through exchanges. In the event where counterparties of a contract fail to live up to its contractual obligations, the Fund will suffer from financial losses. The Fund seeks to reduce this risk by performing fundamental credit research and analysis to determine the creditworthiness of counterparties, prior to commencement of the investment.

**Country risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall. The Manager attempts to mitigate this risk by diversifying its country exposures. In respect of this Fund, should a country’s conditions be unfavourable to the Fund, the Manager may change Fixed Income Securities allocations in a country accordingly for the best interest of the Fund.

**Currency risk**

As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment. In order to reduce this risk, the Manager intends to use derivatives to hedge the foreign currency exposure. However, investors should be aware that the Fund may not enjoy the upside of the exchange rate movement once it is hedged.

**Interest rate risk**

Interest rate risk refers to the impact of interest rate changes on the valuation of the Fixed Income Securities. When interest rates rise, Fixed Income Securities prices generally decline and this may lower the market value of the Fund’s investment in Fixed Income Securities. The reverse may apply when interest rates fall. In the event that the Fixed Income Securities are held until maturity, the concern regarding price fluctuations arising from interest rate changes may be minimal due to the lock in of price and yields. The impact of this risk is mitigated as the Fund will attempt to invest in Fixed Income Securities with maturities close to 3 years to match the maturity of the Fund.

**Mismatch risk**

Mismatch risk arises when the Fund buys a Fixed Income Security with tenure longer than 3 years. Given that the Fund is to liquidate all its Fixed Income Security holdings on its third (3rd) anniversary of the Commencement Date, there is a risk whereby the Fixed Income Security holdings with a maturity of more than 3 years may be sold at an unfavourable price depending on the market condition at the point of time. In such a case, the mismatch of maturities may potentially result in a loss to the Fund due to the selling of its Fixed Income Securities at a market price which is lower than the par value of the Fixed Income Security had the bond be held until maturity. The Fund seeks to mitigate this risk by investing in Fixed Income Securities which closely match the Fund’s maturity of 3 years.
Derivatives risk

Derivatives, if any, will only be used for the purpose of hedging the Fund’s portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate and interest rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate and interest rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against losses money, the act of hedging would have reduced the loss, if successfully hedged.

Non-commencement risk

This is the risk that the Fund does not commence as expected. Hence, at any time before or on the Commencement Date of the Fund, the Manager reserves the right not to commence the Fund in the event the capital raised by the Fund is below RM30 million or such other amount as the Manager and Trustee may jointly deem to be uneconomical to proceed with the Fund. In such instances, the Manager shall return the amount subscribed to investors together with the sales charge, and investors may have to reinvest the monies returned to them into other investments.

Redemption risk

Investors are reminded to stay committed to their investment until the Maturity Date which falls on the third (3rd) anniversary of the Commencement Date. Exiting the Fund prior to the Maturity Date will incur exit fee.

Reinvestment risk

Reinvestment risk may occur when there is divestment of a Fixed Income Security due to the issue rating being downgraded or to fulfill redemption request. Reinvestment risk also arises when an issuer of Fixed Income Security exercises its right to pay the principal on an obligation earlier than the expected maturity date. The Fund may not be able to reinvest in a suitable replacement Fixed Income Security and consequently the Fund may experience lower returns due to reinvesting in lower yielding Fixed Income Securities especially during times of declining interest rates.

Below investment-grade risk

The Fund may invest up to 100% in foreign Fixed Income Securities with a minimum rating of BB- by S&P or its equivalent rating by Moody’s or Fitch. Investors should be aware that bonds rated below BBB- are considered below investment-grade Fixed Income Securities (also known as “junk Fixed Income Securities” or “high yield Fixed Income Securities”) and are generally considered to be speculative and more sensitive to adverse changes in market condition. Below investment-grade Fixed Income Securities are generally being subject to greater levels of interest rate risk and default risks as compared to investment-grade Fixed Income Securities. Such Fixed Income Securities generally experience greater price volatility in comparison to those of higher credit quality and usually lacks liquidity in secondary market, which in turn may adversely affect the value of these Fixed Income Securities and that of the Fund.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.
5.1 Investment Objective of MCIF4

The Fund aims to provide Unit Holders with income* through investments in a portfolio of
Fixed Income Securities.

* Income will be paid out via cash payment mode.

Any material changes to the investment objective of the Fund would require the Unit Holders’
approval.

5.2 Offer Price

The offer price is set at RM1.00 per Unit. The offer price will be the Selling Price and the
Redemption Price throughout the Offer Period.

5.3 Offer Period

A period of not more than 45 calendar days from the date of the Prospectus or such shorter
period as determined by the Manager.

The Offer Period may be shortened by the Manager in the event the Fund is fully subscribed or
where the Manager determines that it is in the best interest of the Unit Holders, subject to the
Trustee’s approval. Units of the Fund are only available for purchase during the Offer Period.

5.4 Maturity of the Fund

The Fund will mature on the third (3rd) anniversary of the Commencement Date. If that date is
not a Business Day, the Maturity Date shall be the first Business Day following the date that is
the third (3rd) anniversary of the Commencement Date.

5.5 Performance Benchmark

The performance of the Fund is benchmarked against the prevailing 3-year Maybank fixed
deposit rate as at the Commencement Date (Source: www.maybank2u.com).

Note: The risk profile of the Fund is different from the risk profile of the performance
benchmark.

The Manager will inform the Unit Holders of the prevailing 3-year Maybank fixed deposit
rate as at the Commencement Date via a communique after the Fund commence. Alternatively, Unit Holders may also contact the Manager directly to enquire of it.

5.6 Investment Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 80% of the
Fund’s NAV in RM denominated Fixed Income Securities and/or foreign currency Fixed
Income Securities (foreign currency Fixed Income Securities are Fixed Income Securities
denominated in currencies other than RM). However as the Fund approaches the Maturity
Date, the Manager may choose to invest in Liquid Assets to facilitate the payout of the
proceeds to Unit Holders after the Maturity Date.
RM denominated Fixed Income Securities
The Fund will invest in RM denominated Fixed Income Securities with a minimum rating of “A-” by MARC or its equivalent rating by RAM at the point of purchase. If any of the RM denominated Fixed Income Securities have been downgraded to a rating lower than “BBB” by MARC or its equivalent rating by RAM, the Manager shall dispose the downgraded Fixed Income Security as soon as practicable. However, if such prompt action may be detrimental to the Fund, the Manager may continue to hold the downgraded Fixed Income Security for up to ninety (90) days.

This treatment will be the same for issuer rating when there is no Fixed Income Security rating.

The Fund’s investment in RM denominated Fixed Income Securities which are issued by government and/or government linked agencies need not be rated.

Foreign currency Fixed Income Securities
The Fund will invest in foreign currency Fixed Income Securities with a minimum rating of “BB-” by S&P or its equivalent rating by Moody’s and/or Fitch. Should the ratings be different amongst S&P, Moody’s and Fitch, the second highest rating shall be applicable. When there are only two (2) ratings available, the lower rating shall be applicable.

Below is the illustration on the treatment of different ratings for foreign currency Fixed Income Securities:

Example 1 - Where three ratings are available based on Fixed Income Securities or issuer rating
When the ratings amongst S&P, Moody’s or Fitch are different, the second highest rating shall be applicable.

* subject to the Manager’s opinion that the issuer rating is a representation of the Fixed Income Security rating i.e. the Fixed Income Security is of equal seniority in rights of payment as non-secured non-guaranteed obligations of the issuer.

If any of the foreign currency Fixed Income Securities have been downgraded to a rating lower than “BB-” by S&P or its equivalent rating by Moody’s and/or Fitch as determined using the second highest or lower rating methodology, the Manager shall dispose the downgraded Fixed Income Security as soon as practicable. However, if such prompt action may be detrimental to the Fund, or if the Manager remains comfortable with the default risk after conducting credit assessment by taking into consideration of both quantitative and qualitative factors and concluded that the probability of the default is low, the Manager may at its discretion based on its understanding of the credit fundamentals of the issuer, continue to hold the downgraded Fixed Income Securities up to the maturity date of the Fixed Income Securities or the Maturity Date of the Fund, whichever is earlier.

This treatment will be the same for issuer rating when there is no Fixed Income Security rating.

In determining the applicable rating for the respective RM denominated and foreign currency Fixed Income Securities, the issuer rating assigned by a relevant rating agency may be used instead of the Fixed Income Security rating only when there is no Fixed Income Security or issuer rating assigned by the same rating agency and the Manager is of the opinion that the issuer’s rating is a representation of the Fixed Income Security rating i.e. in the event of any insolvency of the issuer, the Fixed Income Securities of that issuer shall rank in equal seniority in rights of payment or claim with all other non-secured and non-guaranteed obligations of that issuer.

Fixed Income Securities are deemed unrated if there are no issue or issuer rating from any rating agencies. The Fund may invest in unrated Fixed Income Securities but limited to no more than 15% of the Fund’s NAV. In such instances, the Manager will conduct its own internal credit assessment to assess the eligibility of the Fixed Income Security.

The Fund may employ currency hedging strategies to fully or partially hedge the foreign currency exposure to manage the currency risk. Furthermore, the Fund may also fully or partially hedge the interest rate risk inherent in the investment of Fixed Income Securities.

The Fund may invest in Fixed Income Securities issued by issuers of a country where the regulatory authority is a member of the International Organization of Securities Commissions (IOSCO). The markets that the Fund seeks to invest in include, but are not limited to, the following:

- Hong Kong
- Singapore
- Thailand
- Korea
- China
- Indonesia
- India
- Malaysia
- Philippines
- Taiwan
When investing in foreign markets which require prior permission or approval such as in the form of an investment license or investor code or investor registration, the Fund should obtain such necessary permission or approval in order to invest in such markets.

The remaining balance of the Fund’s NAV will be invested in Liquid Assets.

Trading Policy

The Manager will actively monitor and trade individual Fixed Income Securities within the portfolio in the best interest of the Unit Holders and in order to safeguard the assets and total returns for the Fund and to manage liquidity needs.

Temporary Defensive Positions

The Manager may take temporary defensive positions that may be inconsistent with the Fund’s investment strategy in attempting to respond to adverse market, political or economic conditions. Under such situations, the Fund may hold up to all of the Fund’s NAV in Liquid Assets. The defensive positions may be adopted for a time period as the Manager considers appropriate in consultation with the Trustee.

When the Fund’s matures

The Manager shall redeem or sell the Fixed Income Securities and money market instruments and return all the proceeds to the Unit Holders (based on the number of Units the Unit Holder holds) within thirty (30) calendar days from the Maturity Date, after deducting the applicable Fund’s expenses and fees.

5.8 Investor Profile

This Fund is suitable for investors:
- with a moderate to high risk appetite;
- who have an investment horizon of 3 years; and
- who seek income distribution on an annual basis.

5.9 Risk Management Strategies

Risk management is an integral part of the Manager’s investment management process. As the Fund invests a minimum of 80% of the Fund’s NAV in Fixed Income Securities, default risk is an important consideration for the Manager. Periodic credit review on the Fixed Income Securities holdings shall be conducted by the Manager. The Fund’s exposure will also be spread across various sectors, counterparties and companies as a diversification strategy.
In order to minimise instances of a mismatch between the Maturity Date of the Fund and that of the Fixed Income Securities it holds, the Manager will also strive to invest in Fixed Income Securities that matches the Maturity Date of the Fund.

The Manager may also employ hedging strategies to reduce currency risks via the engagement in certain transactions involving the use of derivatives.

In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by the Manager to ensure that the Fund’s investment objective is met.

5.10 Borrowings and Securities Lending

The Fund may not borrow cash or other assets in connection with its activities. However, the Fund may borrow cash on a temporary basis for the purpose of meeting redemption requests for Units and for short term bridging requirements subject to the following:

(a) the Fund’s cash borrowing is only on a temporary basis and that borrowings are not persistent;
(b) the borrowing period shall not exceed one month;
(c) the aggregate borrowings of the Fund shall not exceed 10% of the Fund’s NAV at the time the borrowing is incurred; and
(d) the Fund may only borrow from financial institutions.

The Fund may participate in the lending of securities within the meaning of the Securities Borrowing and Lending Guidelines issued by the SC.

5.11 Permitted Investments

The Fund is permitted to invest in the following:

(a) Fixed Income Securities;
(b) Money market instruments;
(c) Placement in local and foreign currency deposits with financial institutions;
(d) Derivatives such as foreign currency swap or forward contracts for hedging purposes only; and
(e) Any other investment which is in line with the objective of the Fund.

5.12 Investment Restrictions

Investment Spread Limits

(a) The value of the Fund’s placement in deposits with any single institution must not exceed 20% of the Fund’s NAV.
(b) The Fund’s exposure to the derivatives position shall not exceed the Fund’s NAV at all times.
(c) The value of the Fund’s over-the-counter (OTC) derivative transaction with any
single counter-party shall not exceed 10% of the Fund’s NAV.

(d) The aggregate value of the Fund’s investments in transferable securities, money market instruments, deposits and OTC derivatives issued by or placed with (as the case may be) any single issuer/institution must not exceed 25% of the Fund’s NAV.

(e) The value of the Fund’s investment in debentures issued by any single issuer must not exceed 20% of the Fund’s NAV.

(f) The single issuer limit in item (e) may be increased to 30% if the debentures are rated by any domestic or global rating agency to be of the best quality and offer highest safety for timely payment of interest and principal.

(g) For the purpose of item (d), where the single issuer limit is increased to 30% pursuant to item (f), the aggregate value of the Fund’s investment must not exceed 30%.

(h) The value of the Fund’s investments in debentures issued by any group of companies must not exceed 30% of the Fund’s NAV.

(i) The limits and restrictions on the investments of the Fund do not apply to securities or instruments issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

Investment Concentration Limits

- The Fund’s investments in debentures must not exceed 20% of the debentures issued by any single issuer.

- The Fund’s investments in money market instruments must not exceed 10% of the instruments issued by any single issuer. The limit does not apply to money market instruments that do not have a pre-determined issue size.

Investment Restrictions

- The Fund will invest in Fixed Income Securities issued and/or offered in Malaysia with a minimum rating of “A-” by MARC or its equivalent rating by RAM at the point of investment.

- The Fund will invest in foreign currency Fixed Income Securities with a minimum rating of “BB-” by S&P or its equivalent rating by Moody’s or Fitch at the point of investment.

- The Fund will not invest more than 15% of the Fund’s NAV in unrated Fixed Income Securities.

The above stated limits and restrictions shall be complied with at all times based on the most up-to-date value of the Fund’s investments and instruments. However, a 5% allowance in excess of any limits or restrictions may be permitted where the limit or restriction is breached through the appreciation or depreciation in value of the NAV of the Fund (as a result of an appreciation or depreciation in value of investments or as a result of the redemption of Units or payment made from the Fund). Once the relevant limit is breached, no further acquisitions of the particular securities involved shall be made and the Manager should, within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach.
5.13 **Bases of Valuation of Investments**

**Fixed Income Securities**

Investments in listed Fixed Income Securities are valued daily based on the market price quoted on the exchange at the close of the exchange. However, if:

(a) valuation based on the market price does not represent the fair value of the listed Fixed Income Securities, for example during abnormal market conditions; or

(b) no market price is available, including in the event of a suspension in the quotation of listed Fixed Income Securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee;

the Fixed Income Securities would be valued at fair value, as determined in good faith by the Manager based on methods or bases approved by the Trustee after appropriate technical consultation.

Investments in local unlisted Fixed Income Securities denominated in RM are valued daily at the price quoted by a bond pricing agency (BPA) registered with the SC. Where the Manager is of the view that the price quoted by BPA for a specific unlisted Fixed Income Securities differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

(a) records its basis for using a non-BPA price;

(b) obtains necessary internal approvals to use the non-BPA price; and

(c) keeps an audit trail of all decisions and basis for adopting the market yield.

Investments in foreign unlisted Fixed Income Securities are valued daily at fair value by reference to the average indicative yield quoted by three (3) independent and reputable institutions.

**Placement in Deposits**

Placements in deposits with financial institutions are valued daily by reference to the principal value of such investments and the interest accrued thereon for the relevant period.

**Money Market Instruments**

Investments in money market instruments are valued daily at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

**Derivatives**

Derivative positions will be valued daily at fair value, as determined in good faith by the Manager based on methods or bases which have been verified by the auditor and approved by the Trustee.

**Foreign Exchange Translation**

Foreign exchange translation of foreign investments for a particular Business Day is determined based on the bid exchange rate quoted by Bloomberg or Reuters at UK time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 a.m. midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.
(6) FEES, CHARGES AND EXPENSES

Fees/Charges

The following describes the fees/charges that investors may **directly** incur:

6.1 Sales Charge

A sales charge may be imposed by the Manager on the purchase of Units of the Fund during the Offer Period.

The sales charge shall be a percentage of the offer price of the Fund and is disclosed as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>MCIF4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sales Charge*</td>
<td>Up to 3.00% of the offer price of the Fund</td>
</tr>
</tbody>
</table>

*The Manager reserves the right to waive or reduce the sales charge at its absolute discretion. Investors may also negotiate for a lower sales charge. All sales charges will be rounded up to two (2) decimal places and will be retained by the Manager.

*Note: Sales charge stated above is exclusive of GST.*

Illustration - **Computation of sales charge**

**Example:**

If an investor wishes to invest RM10,000.00 in the Fund which imposes a sales charge of 3.00% of the offer price of the Fund, the total amount of sales charge will be:

3.00% x 10,000.00 = **RM300.00**

A GST of 6% will be applicable to the sales charge as follows:

6.00% x RM300 = **RM18.00**

The total amount to be paid by an investor for his or her investment will therefore be:

RM10,000.00 + RM300.00 + RM18.00 = **RM10,318.00** (inclusive of sales charge and GST).
6.2 Exit Fee

</tr>
<tr>
<td></td>
<td>The next Business Day following the second anniversary up to the third anniversary</td>
</tr>
<tr>
<td></td>
<td>Maturity Date</td>
</tr>
</tbody>
</table>

*The exit fee is non-negotiable and will be retained by the Fund for the benefit of the remaining Unit Holders. The exit fee will not be applicable for Unit Holders exercising their cooling-off right or who redeem their Units prior to the Commencement Date. All exit fee will be rounded up to two (2) decimal places.

Illustration - Computation of exit fee

Example:

If an investor wishes to redeem RM10,000.00 from the Fund within the first anniversary from the Commencement Date, the exit fee will be:

3.50% x RM10,000.00
= **RM350.00**

An investor will therefore receive the redemption proceeds of:

RM10,000.00 - RM350.00 = **RM9,650.00**

6.3 Transfer Fee

A transfer fee of RM10 per transfer will be imposed on Unit Holders.

A GST of 6% will be applicable to the transfer fee.

The Manager reserves the right to waive or reduce the transfer fee at its absolute discretion.

An illustration of the applicable GST:

RM10.00 x 6% = **RM0.60**

Total amount payable by Unit Holder (inclusive of GST) will be **RM10.60**.
6.4 Switching Fee

Not applicable (Switching is not allowed).

Fees And Expenses

The fees and expenses indirectly incurred by an investor when investing in the Fund are as follows:

6.5 Management Fee

Nil.

6.6 Trustee Fee

The Trustee is entitled to a trustee fee of 0.03% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), accrued daily and payable monthly to the Trustee.

Illustration – Computation of trustee fee

Example:

Assuming that the NAV of the Fund is RM100 million for that day, the accrued trustee fee (exclusive of GST) for the Fund for that day would be:

\[
\text{RM}100,000,000 \times 0.03\% \quad = \quad \text{RM}82.19 \text{ per day}
\]

\[
\frac{\text{RM}100,000,000 \times 0.03\%}{365 \text{ days}} = \text{RM}82.19 \text{ per day}
\]

A GST of 6% will be applicable to the trustee fee.

GST applicable to the trustee fee for that day

\[
= \text{trustee fee for that day} \times \text{GST}
\]

\[
= \text{RM82.19} \times 6\%
\]

\[
= \text{RM}4.93 \text{ (rounded to 2 decimal points)}
\]

Trustee fee for that day charged by the Fund inclusive of GST

\[
= \text{RM82.19} + \text{RM}4.93
\]

\[
= \text{RM87.12}
\]

6.7 Fund Expenses

In administering the Fund, only fees and expenses that are directly related and necessary to the operation and administration of the Fund may be charged to the Fund. These include (but not limited to) the following:

(i) commissions or fees paid to dealers or brokers in effecting dealings in the investments of the Fund;

(ii) taxes and other duties charged on the Fund by the government and/or other authorities;

(vi) costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;

(vii) costs, commissions, fees and expenses of the sale, purchase, insurance and any other dealing of any asset of the Fund;

(viii) costs, fees and expenses incurred in engaging any specialist approved by the Trustee for investigating or evaluating any proposed investment of the Fund;

(x) costs, fees and expenses incurred in the preparation and audit of the taxation, returns and accounts of the Fund;

(xi) costs, fees and expenses incurred in the termination of the Fund or the removal of the Trustee or the Manager and the appointment of a new trustee or management company;

(xii) costs, fees and expenses incurred in relation to any arbitration or other proceedings concerning the Fund or any asset of the Fund, including proceedings against the Trustee or the Manager by the other for the benefit of the Fund (save to the extent that legal costs incurred for the defence of either of them are not ordered by the court to be reimbursed by the Fund);

(xiii) remuneration and out of pocket expenses of the independent members of the investment committee of the Fund, unless the Manager decides otherwise;

(xiv) costs, fees and expenses deemed by the Manager to have been incurred in connection with any change or the need to comply with any change or introduction of any law, regulation or requirement (whether or not having the force of law) of any governmental or regulatory authority;

Expenses related to the issuance of this Prospectus will be borne by the Manager.

Note: All fees, charges and expenses stated herein are exclusive of GST. The Unit Holder and/or the Fund (as the case may be) are responsible to pay the applicable amount of GST in addition to the fees, charges and expenses stated herein.
6.8 Policy on Rebates and Soft Commissions

The Manager or any delegate thereof will not retain any form of rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund.

However, soft commissions may be retained by the Manager and its delegate for payment of goods and services such as research material, data and quotation services and investment management tools, which are of demonstrable benefit to Unit Holders.

*There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund.*
(7) TRANSACTION INFORMATION

7.1 Valuation Point

The Fund must be valued at least once every Business Day. The valuation of the Fund will be carried out in a fair and accurate manner.

However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia. Accordingly, the valuation of the Fund will be conducted by 4.00 p.m. on the next Business Day, when the closing prices of the foreign markets would be available. As such, the daily price of the Fund for a particular Business Day will be published two (2) Business Days later.

For currency translation of foreign securities to the Fund’s base currency (RM) shall be based on the bid exchange rate quoted by Bloomberg or Reuters at UK time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 a.m. midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.

7.2 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund’s liabilities from the value of the Fund’s assets, at a valuation point. For the purpose of computing the management fee and trustee fee, the NAV of the Fund should be inclusive of the management fee and the trustee fee for the relevant day.

Please note that the example below is for illustration only:

Total NAV
101,199,911.83

The NAV per Unit of the Fund is calculated by dividing the total NAV of the Fund by the number of Units in circulation at the end of each Business Day.
Assuming there are 100,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of the Fund shall therefore be calculated as follows:

<table>
<thead>
<tr>
<th>RM</th>
<th>101,199,911.83</th>
</tr>
</thead>
<tbody>
<tr>
<td>NAV</td>
<td></td>
</tr>
<tr>
<td>Divide: Units in circulation</td>
<td>100,000,000</td>
</tr>
<tr>
<td>NAV per Unit of the Fund</td>
<td>1.0120*</td>
</tr>
</tbody>
</table>

* NAV per Unit will be rounded up to four (4) decimal places for the purposes of publication of the NAV per Unit.

7.3 Pricing of Units

Single Pricing Regime

The Manager adopts a single pricing regime in calculating a Unit Holder’s purchase and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). During the Offer Period, the Selling Price of a Unit and the Redemption Price of a Unit is equivalent to the offer price. After the Offer Period, Forward Pricing will be used to determine the Redemption Price of a Unit, which is the NAV per Unit for the Fund as at the next valuation point after the redemption request is received by the Manager.

Selling Price of Units

Units will only be sold at the offer price during the Offer Period. The Manager may impose a sales charge of up to 3.00% of the offer price of the Fund.

Calculation of Selling Price

Illustration - Sale of Units with sales charge

Example:

If an investor wishes to invest RM10,000.00 in the Fund before 4.00 p.m. on 31 January 2016, and if the sales charge is 3.00% of the offer price of the Fund, the total amount to be paid by the investor and the number of Units issued to an investor will be as follows:

Sales charge payable by an investor = 3.00% x 10,000.00 = RM300.00

A GST of 6% will be applicable to the sales charge.

6.00% x RM300 = RM18.00

The total amount to be paid by an investor for his or her investment will therefore be:

RM10,000.00 + RM300.00 + RM18.00
= RM10,318.00 (inclusive of sales charge and GST)

In the event that the offer price for the Fund at the end of the Business Day on 31 January 2016 = RM1.0000

The number of Units that will be issued to the investor will be:

RM10,000.00 divided by RM1.0000 = 10,000.00 Units

Investors are advised not to make payment in cash to any individual agent when purchasing Units of the Fund.
Redemption Price of Units

The Redemption Price of a Unit of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by the Manager (Forward Pricing).

Calculation of Redemption Price

Illustration - Redemption of Units with exit fee

Example:

If a Unit Holder wishes to redeem 10,000.00 Units from the Fund before 4.00 p.m. within the first anniversary from the Commencement Date and the exit fee is 3.50% of the NAV per Unit, the total amount to be paid to the Unit Holder will be as follows:

In the event that the NAV per Unit for the Fund at the end of the Business Day on 31 January 2016 = RM1.000

Amount redeemed would be: 10,000 Units x RM1.000 = RM10,000

Exit fee would be: 3.50% x RM10,000 = RM350

The total amount to be paid to the Unit Holder will be RM10,000 - RM350 = RM9,650.00

Therefore the Unit Holder will receive RM9,650.00 as redemption proceeds.

7.4 Incorrect Pricing

The Manager shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation of the Fund, any incorrect pricing of Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(a) if there is an over valuation and pricing in relation to the redemption of Units, the Manager shall reimburse the Fund; and

(b) if there is an under valuation and pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund.
(8) TRANSACTION DETAILS

(b) the sales charge per Unit originally imposed on the day the Units were first purchased.

Unit Holders. The transfer charges will be deducted directly from the transferred amount before being paid to the Unit Holders’ bank account.

8.9 Viable Fund Size

The Fund has a viable fund size of RM30 million or such other amount as the Manager and Trustee may jointly deem to be uneconomical to proceed with the Fund.

The Manager may terminate the Fund after consulting the Trustee and with prior notification to SC, if at any time before or on the Fund’s Commencement Date, the amount of capital raised by the Fund is less than RM30 million or such other amount as the Manager and Trustee may jointly deem to be uneconomical to proceed with the Fund.

Unit Holders will be refunded their amount invested in the Fund including the sales charge paid with eligible profit (if any) less bank and administrative charges (if any). Unit Holders will not be charged any exit fee.

Dear Sirs

Taxation of the unit trust and unit holders

This letter has been prepared for inclusion in this Prospectus in connection with the offer of units in Maybank Constant Income Fund 4 (hereinafter referred to as “the Fund”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising interest and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax, which is currently imposed at the rate of 25%¹.

¹ Pursuant to Section 20 of the Finance (No. 2) Act 2014, with effect from the year of assessment 2016, the income tax rate will be reduced to 24%.
The Board of Directors
Maybank Asset Management Sdn Bhd

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager’s remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$\frac{A \times B}{4C}$$

where

- $A$ is the total of the permitted expenses incurred for that basis period;
- $B$ is gross income consisting of dividend, interest and rent chargeable to tax for that basis period; and
- $C$ is the aggregate of the gross income consisting of dividend and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

---

2 Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.
The Board of Directors
Maybank Asset Management Sdn Bhd

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
  
  Tax exempt dividends received from investments in companies which had previously enjoyed or are currently enjoying certain tax incentives provided under the relevant legislation.

  Any dividends paid, credited or distributed to any person where the company paying such dividends is not entitled to deduct tax under Section 108 of the MITA (commonly referred to as single tier dividends).

- **Malaysian sourced interest**

  (i) Interest from securities or bonds issued or guaranteed by the Government of Malaysia;

  (ii) Interest from debentures or Islamic securities, (other than convertible loan stock) approved by the Securities Commission;

  (iii) Interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;

  (iv) Interest derived from Malaysia and paid or credited by banks or financial institutions licensed under the Banking and Financial Institutions Act 1989 or the Islamic Banking Act 1983[^3];

  (v) Interest derived from Malaysia and paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002[^4];

[^3]: The Banking and Financial Institutions Act 1989 and the Islamic Banking Act 1983 were repealed and replaced with the Financial Services Act 2013 and the Islamic Financial Services Act 2013, respectively, with effect from 30 June 2013. Pursuant to Section 272(h) of the Financial Services Act 2013 and Section 283(h) of the Islamic Financial Services Act 2013, any reference to the Banking and Financial Institutions Act 1989 and the Islamic Banking Act 1983 in any written law shall generally be construed as a reference to the Financial Services Act 2013 or the Islamic Financial Services Act 2013, respectively.

[^4]: Pursuant to Section 22(c) of the Finance (No. 2) Act 2014, with effect from the year of assessment 2015, the interest will be exempted from tax.
The Board of Directors
Maybank Asset Management Sdn Bhd

(vi) interest from Islamic securities originating from Malaysia, other than convertible loan stock issued in any currency other than Ringgit and approved by the Securities Commission or the Labuan Offshore Financial Services Authority (LOFSA)⁵

(vii) interest received from bonds or securities issued by Pengurusan Danaharta Nasional Berhad; and

(viii) interest derived from bonds (other than convertible loan stock) paid or credited by any company listed on the Malaysian Exchange of Securities Dealing and Automated Quotation Berhad (MESDAQ)⁶.

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the sale of chargeable assets, as defined in the RPGT Act.

⁵ Pursuant to Section 4 of the Finance Act 2011, with effect from 11 February 2010, any reference in the MITA to "LOFSA" shall be construed as a reference to Labuan Financial Services Authority (LFSA).
⁶ MESDAQ was replaced by FTSE Bursa Malaysia ACE with effect from 3 August 2009, therefore any interest derived from bonds (other than convertible loan stock) paid or credited by any company listed on the MESDAQ should still qualify for an exemption up to 2 August 2009. However, from 3 August 2009 and up to the date of this letter, there is no new gazette order issued to exempt interest derived from bonds paid or credited by a company listed in the new FTSE Bursa Malaysia ACE.
The Board of Directors
Maybank Asset Management Sdn Bhd

Goods and Services Tax (GST)

On 1 April 2015, GST was implemented at the standard rate of 6% to replace the existing sales tax and service tax systems. Based on the Goods and Services Tax Act 2014 which was gazetted on 19 June 2014, the Fund, being a collective investment vehicle, will be making exempt supplies. Hence, the Fund is not required to be registered for GST purposes. The Fund will incur expenses such as management fees, trustee fees and other administrative charges which will be subject to 6% GST. The 6% input tax which may be incurred on such expenses will generally not be claimable by the Fund.

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

   Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

   Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

   Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.
2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

<table>
<thead>
<tr>

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

(a) The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.

(b) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.

(c) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.

(d) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

ACKNOWLEDGEMENT OF RECEIPT OF RISK DISCLOSURE STATEMENT

I acknowledge that I have received a copy of this Unit Trust Loan Financing Risk Disclosure Statement and understand its contents.
