3.4 Investment Objective of MGCIF

* Income will be paid out via cash payment mode.

Any material changes to the investment objective of the Fund would require the Unit Holders’ approval.

The offer price is set at RM1.00 per Unit. The offer price will be the Selling Price and the Redemption Price throughout the Offer Period.

A period of not more than 45 calendar days from the date of the Prospectus or such shorter period as determined by us.

The Offer Period may be shortened by us in the event the Fund is fully subscribed or where we determine that it is in the best interest of the Unit Holders, subject to the Trustee’s approval. Units of the Fund are only available for purchase during the Offer Period.

3.7 Tenure and Maturity of the Fund

The tenure of the Fund is three (3) years. The Fund will mature on the third (3rd) anniversary of the Commencement Date. If that date is not a Business Day, the Maturity Date shall be the first Business Day following the date that is the third (3rd) anniversary of the Commencement Date.

3.8 Performance Benchmark

The performance of the Fund is benchmarked against the prevailing 3-year Maybank fixed deposit rate as at the Commencement Date.
Note: The risk profile of the Fund is different from the risk profile of the performance benchmark.

3.9 Investment Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 80% of the Fund’s NAV in RM denominated Fixed Income Securities and/or foreign currency denominated Fixed Income Securities (foreign currency denominated Fixed Income Securities are Fixed Income Securities denominated in currencies other than RM). However as the Fund approaches the Maturity Date, we may choose to invest in Liquid Assets and/or collective investment schemes to facilitate the payout of the proceeds to Unit Holders after the Maturity Date.

**RM denominated Fixed Income Securities**

The Fund will invest in RM denominated Fixed Income Securities with a minimum rating of “A-” by MARC or its equivalent rating by RAM. If any of the RM denominated Fixed Income Securities have been downgraded to a rating lower than “BBB” by MARC or its equivalent rating by RAM, we shall dispose of the downgraded Fixed Income Security as soon as practicable. However, if such prompt action may be detrimental to the Fund, we may continue to hold the downgraded Fixed Income Security for up to ninety (90) days.

This treatment will be the same for issuer rating when there is no Fixed Income Security rating.

The Fund’s investment in RM denominated Fixed Income Securities which are issued by government and/or government linked agencies need not be rated.

**Foreign currency denominated Fixed Income Securities**

The Fund will invest in foreign currency denominated Fixed Income Securities with a minimum rating of “BB-” by S&P or its equivalent rating by Moody’s and/or Fitch. Should the ratings be different amongst S&P, Moody’s and Fitch, the second highest rating shall be applicable. When there are only two (2) ratings available, the higher rating shall be applicable. However, the External Investment Manager will not invest in any securities with a rating below BB- by any single rating agency.

Below is the illustration on the treatment of different ratings for foreign currency denominated Fixed Income Securities:

**Example 1 - Where three ratings are available based on Fixed Income Securities or issuer rating**

When the ratings amongst S&P, Moody’s or Fitch are different, the second highest rating shall be applicable.

Applicable Rating

| Not allowed as one rating agency has rated the security as B- | Not allowed as one rating agency has rated the security as B- |

If any of the foreign currency denominated Fixed Income Securities have been downgraded to a rating lower than “BB-” by any single rating agency, the External Investment Manager shall dispose of the downgraded Fixed Income Security as soon as practicable. However, if such prompt action may be detrimental to the Fund, or if we remain comfortable with the default risk, we may continue to hold the downgraded Fixed Income Securities up to the maturity date of the Fixed Income Securities or the Maturity Date of the Fund, whichever is earlier.
This treatment will be the same for issuer rating when there is no Fixed Income Security rating.

In determining the applicable rating for the respective RM denominated and foreign currency denominated Fixed Income Securities, the issuer rating assigned by a relevant rating agency may be used instead of the Fixed Income Security rating only when there is no Fixed Income Security or issuer rating assigned by the same rating agency and we are of the opinion that the issuer’s rating is a representation of the Fixed Income Security rating i.e. in the event of any insolvency of the issuer, the Fixed Income Securities of that issuer shall rank in equal seniority in rights of payment or claim with all other non-secured and non-guaranteed obligations of that issuer.

Fixed Income Securities are deemed unrated if there are no issue or issuer rating from any rating agencies. The Fund may invest in unrated Fixed Income Securities but limited to no more than 15% of the Fund’s NAV. In such instances, the External Investment Manager will conduct its own internal credit assessment to assess the eligibility of the Fixed Income Security.

The Fund may employ currency hedging strategies to fully or partially hedge the foreign currency exposure to manage the currency risk. Furthermore, the Fund may also fully or partially hedge the interest rate risk inherent in the investment of Fixed Income Securities.

The Fund may invest in Fixed Income Securities issued by issuers domiciled or have an operating presence in developed markets where the regulatory authority is a member of the International Organization of Securities Commissions (IOSCO). The foreign markets that the Fund seeks to invest in include, but are not limited to the following:

- Australia
- Bermuda
- Canada (under Ontario and Quebec)
- Cayman Islands
- France
- Luxembourg
- Netherlands
- United Kingdom
- United States of America

When investing in foreign markets which require prior permission or approval such as in the form of an investment license or investor code or investor registration, the Fund should obtain such necessary permission or approval in order to invest in such markets.

A maximum of 20% of the Fund’s NAV will be invested in Liquid Assets and/or collective investment schemes.

Trading Policy

The External Investment Manager will actively monitor and trade individual Fixed Income Securities within the portfolio in order to safeguard the assets and total returns for the Fund and to manage liquidity needs.

Temporary Defensive Positions

We may take temporary defensive positions that may be inconsistent with the Fund’s investment strategy in attempting to respond to adverse market, political or economic conditions. Under such situations, the Fund may hold up to all of the Fund’s NAV in Liquid Assets and/or collective investment schemes. The defensive positions may be adopted for a time period as we consider appropriate in consultation with the Trustee.
When the Fund matures

On the Maturity Date, we shall redeem or sell the Fixed Income Securities and money market instruments and return all the proceeds to you (based on the number of Units you hold) within thirty (30) calendar days, after deducting the Fund’s expenses.

3.10 Risk Factors

All investments carry some degree of risk. In relation to this, returns are not guaranteed to Unit Holders. If an investor expects a high return on investment, usually, the risk that the investor would have to bear would also be high, and vice versa. The choice of investing in the Fund is made at the discretion of the investors. There is a chance whereby the Fund chosen by you may not suit your needs and circumstances. You should rely on your own evaluation to assess the merits and risks when investing in the Fund.

Our role as the Manager of the Fund is to invest in a portfolio of assets which is adequately suited to potentially achieve the objective of the Fund, while at the same time working towards mitigating the risk of the portfolio of assets as much as possible, through careful asset allocation and security selection, as well as through diversification, i.e. spreading risk across a basket of multiple assets or securities which have low or negative correlations with one another.

Before making an investment in the Fund, you should consider the various risks that may affect the Fund and your investment.

General Risks of Investing in the Fund

<table>
<thead>
<tr>
<th>GENERAL RISKS</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Market Risk</td>
<td>Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund’s NAV. The Manager will monitor the financial markets closely and act on any adverse news accordingly.</td>
</tr>
<tr>
<td>Inflation Risk</td>
<td>This is the risk that investors’ investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors’ purchasing power even though the value of the investment in monetary terms has increased.</td>
</tr>
<tr>
<td>Liquidity Risk</td>
<td>Liquidity risk refers to the ease of liquidating a Fixed Income Security depending on the Fixed Income Security’s volume traded in the market. If the Fund holds Fixed Income Securities that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such Fixed Income Securities at unfavourable prices. This risk is mitigated by diversifying the investment in a wide range of Fixed Income Securities and avoiding Fixed Income Securities with poor liquidity.</td>
</tr>
<tr>
<td>Manager’s Risk</td>
<td>This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk,</td>

</tr>
<tr>
<td>Non-compliance Risk</td>
<td>This risk refers to the possibility that the Manager may not follow the provisions set out in this Prospectus or the Deed or the laws, rules, guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. The Manager aims to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines.</td>
</tr>
<tr>
<td>Loan Financing Risk</td>
<td>This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event Units are used as collateral, an investor may be required to top-up the investors’ existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.</td>
</tr>
<tr>
<td>Capital and Returns Are Not Guaranteed</td>
<td>Investors should be aware that there is no guarantee of any returns i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institutions which carry a specific rate of return, the Fund does not provide a fixed rate return.</td>

Specific Risks of the Fund

SPECIFIC RISKS

<table>
<thead>
<tr>
<th>Description</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Company Specific Risk</td>
<td>This risk arises when a company is exposed to adverse conditions or negative sentiments such as management issues, deteriorating business fundamentals or loss of competitiveness which is specific to a single company. As a consequence, the price of Fixed Income Securities issued by such company might fall and subsequently affects the Fund’s performance. The impact of a specific company may be reduced as the Fund invests in a wide portfolio of investments consisting of Fixed Income Securities issued by different companies thereby spreading the element of this risk through diversification.</td>
</tr>
<tr>
<td>Default Risk</td>
<td>This risk refers to the possibility that the issuer of the Fixed Income Security or money market instrument is unable to make timely or full payments of principal and/or interest when due. In the event of a default in payment of principal and/or interest, this may cause a reduction in the value of the Fund. The Manager will endeavour to take the necessary steps to deal with the investments in the best interest of the Unit Holders including to dispose the defaulted investments within a time frame deemed reasonable by the Manager.</td>
</tr>
<tr>
<td>SPECIFIC RISKS</td>
<td></td>
</tr>
<tr>
<td>---------------------------------------------------</td>
<td></td>
</tr>
<tr>
<td>Current deposits and/or fixed deposits that the Fund has placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and interest foregone, causing the performance of the Fund to be adversely affected. Placement with financial institutions will also be made based on prudent selection.</td>
<td></td>
</tr>
<tr>
<td><strong>Counterparty Risk</strong></td>
<td></td>
</tr>
<tr>
<td>Counterparty risk refers to a risk that relates to the credit standing of counterparties when over-the-counter transactions (such as that of Fixed Income Securities) are carried out and is generally not applicable to transactions performed through exchanges. In the event where counterparties of a contract fail to live up to its contractual obligations, the Fund will suffer from financial losses. The Fund seeks to reduce this risk by performing fundamental credit research and analysis to determine the creditworthiness of counterparties, prior to commencement of the investment.</td>
<td></td>
</tr>
<tr>
<td><strong>Country Risk</strong></td>
<td></td>
</tr>
<tr>
<td>Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall. The Manager attempts to mitigate this risk by diversifying its country exposures. In respect of this Fund, should a country’s conditions be unfavourable to the Fund, the Manager may change Fixed Income Securities allocations in a country accordingly for the best interest of the Fund.</td>
<td></td>
</tr>
<tr>
<td><strong>Currency Risk</strong></td>
<td></td>
</tr>
<tr>
<td>As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment. In order to reduce this risk, the Manager intends to use derivatives to hedge the foreign currency exposure. However, investors should be aware that the Fund may not enjoy the upside of the exchange rate movement once it is hedged.</td>
<td></td>
</tr>
<tr>
<td><strong>Interest Rate Risk</strong></td>
<td></td>
</tr>
</tbody>
</table>
| Interest rate risk refers to the impact of interest rate changes on the valuation of the Fixed Income Securities. When interest rates rise, Fixed Income Securities prices generally decline and this may lower the market value of the Fund’s investment in Fixed Income Securities. The reverse may apply when interest rates fall. In the event that the Fixed Income Securities are held until maturity, the concern regarding price fluctuations arising from interest rate changes may be minimal due to the lock in of price

<td>and yields. The impact of this risk is mitigated as the Fund will attempt to invest in Fixed Income Securities with maturities close to 3 years to match the maturity of the Fund.</td>
<td></td>
</tr>
<tr>
<td>Mismatch Risk</td>
<td>Mismatch risk arises when the Fund buys a Fixed Income Security with tenure longer than 3 years. Given that the Fund is to liquidate all its Fixed Income Security holdings on its third (3rd) anniversary of the Commencement Date, there is a risk whereby the Fixed Income Security holdings with a maturity of more than 3 years may be sold at an unfavourable price depending on the market condition at the point of time. In such a case, the mismatch of maturities may potentially result in a loss to the Fund due to the selling of its Fixed Income Securities at a market price which is lower than the par value of the Fixed Income Security had the bond be held until maturity. The Fund seeks to mitigate this risk by investing in Fixed Income Securities which closely match the Fund’s maturity of 3 years.</td>

<tr>
<td>Derivatives Risk</td>
<td>Derivatives, if any, will only be used for the purpose of hedging the Fund’s portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate and interest rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate and interest rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against loses money, the act of hedging would have reduced the loss, if successfully hedged.</td>
</tr>
<tr>
<td>Non-Commencement Risk</td>
<td>This is the risk that the Fund does not commence as expected. Hence, at any time before or on the Commencement Date of the Fund, the Manager reserves the right not to commence the Fund in the event the capital raised by the Fund is below RM30 million or such other amount as the Manager and Trustee may jointly deem to be uneconomical to proceed with the Fund. In such instances, the Manager shall return the amount subscribed to investors together with the sales charge, and investors may have to reinvest the monies returned to them into other investments.</td>
</tr>
<tr>
<td>Redemption Risk</td>
<td>Investors are reminded to stay committed to their investment until the Maturity Date which falls on the third (3rd) anniversary of the Commencement Date. Exiting the Fund prior to the Maturity Date will incur exit fee.</td>
</tr>
<tr>
<td>Reinvestment Risk</td>
<td>Reinvestment risk may occur when there is divestment of a Fixed Income Security due to the issue rating being downgraded or to fulfil redemption request. Reinvestment risk also arises when an issuer of Fixed Income Security exercises its right to pay the principal on an obligation earlier than the expected maturity date. The Fund may not be able to reinvest in a suitable replacement Fixed Income Security and consequently the Fund may experience lower returns due to reinvesting in lower yielding Fixed Income Securities especially during times of declining interest rates.</td>

SPECIFIC RISKS

Grade Risk: with a minimum rating of BB- by S&P or its equivalent rating by Moody’s or Fitch. Investors should be aware that bonds rated below BBB- are considered below investment-grade Fixed Income Securities (also known as “junk Fixed Income Securities” or “high yield Fixed Income Securities”) and are generally considered to be speculative and more sensitive to adverse changes in market condition. Below investment-grade Fixed Income Securities are generally being subject to greater levels of interest rate risk and default risks as compared to investment-grade Fixed Income Securities. Such Fixed Income Securities generally experience greater price volatility in comparison to those of higher credit quality and usually lacks liquidity in secondary market, which in turn may adversely affect the value of these Fixed Income Securities and that of the Fund.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.

3.13 Risk Management Strategies

Risk management is an integral part of our investment management process. As the Fund invests a minimum of 80% of the Fund’s NAV in Fixed Income Securities, default risk is an important consideration for us. Periodic credit review on the Fixed Income Securities holdings shall be conducted by us. The Fund’s exposure will also be spread across various sectors, counterparties and companies as a diversification strategy.

In order to mitigate instances of a mismatch between the Maturity Date of the Fund and that of the Fixed Income Securities it holds, we will also strive to invest in Fixed Income Securities that matches the Maturity Date of the Fund.

We may also employ hedging strategies to reduce currency risks via the engagement in certain transactions involving the use of derivatives.
In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by us to ensure that the Fund’s investment objective is met.

Once the relevant limit is breached, no further acquisitions of the particular securities involved shall be made and we should, within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach.

3.16 Bases of Valuation of Investments

Fixed Income Securities

Investments in listed Fixed Income Securities are valued daily based on the market price quoted on the exchange at the close of the exchange. However, if:-

(a) valuation based on the market price does not represent the fair value of the listed Fixed Income Securities, for example during abnormal market conditions; or

(b) no market price is available, including in the event of a suspension in the quotation of listed Fixed Income Securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee;

the listed Fixed Income Securities would be valued at fair value, as determined in good faith by us based on methods or bases approved by the Trustee after appropriate technical consultation.

Investments in local unlisted Fixed Income Securities denominated in RM are valued daily at the price quoted by a bond pricing agency (BPA) registered with the SC. Where we are of the view that the price quoted by BPA for a specific unlisted Fixed Income Securities differs from the market price by more than 20 basis points, we may use the market price, provided that we:

(a) records its basis for using a non-BPA price;
(b) obtain necessary internal approvals to use the non-BPA price; and
(c) keep an audit trail of all decisions and basis for adopting the market yield.

Investments in foreign unlisted Fixed Income Securities are valued daily at fair value by reference to the average indicative yield quoted by three (3) independent and reputable institutions.

**Placement in Deposits**

Placements in deposits with financial institutions are valued daily by reference to the principal value of such investments and the interest accrued thereon for the relevant period.

**Unlisted Collective Investment Schemes**

Investments in unlisted collective investment schemes will be valued based on its last published repurchase price.

**Money Market Instruments**

Investments in money market instruments are valued daily at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

**Derivatives**

Derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

**Foreign Exchange Translation**

Foreign exchange translation of foreign investments for a particular Business Day is determined based on the bid exchange rate quoted by Bloomberg or Reuters at UK time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 a.m. midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.
(4) FEES, CHARGES AND EXPENSES

Fees/Charges

The following describes the fees/charges that you may directly incur:

4.1 Sales Charge

A sales charge may be imposed by us on the purchase of Units of the Fund during the Offer Period.

The sales charge shall be a percentage of the offer price of the Fund and is disclosed as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>MGCIF</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sales Charge*</td>
<td>Up to 3.00% of the offer price of the Fund</td>
</tr>
</tbody>
</table>

*We reserve the right to waive or reduce the sales charge at its absolute discretion. You may also negotiate for a lower sales charge. All sales charges will be rounded up to two (2) decimal places and will be retained by us.

Note: Sales charge stated above is exclusive of GST.

Illustration - Computation of sales charge

Example:

If you wish to invest RM10,000.00 in the Fund which imposes a sales charge of 3.00% of the offer price of the Fund, the total amount of sales charge will be:

3.00% x RM10,000.00 = RM300.00

A GST of 6% will be applicable to the sales charge as follows:

6.00% x RM300 = RM18.00

The total amount to be paid by you for your investment will therefore be:

RM10,000.00 + RM300.00 + RM18.00 = RM10,318.00 (inclusive of sales charge and GST).
4.2 Exit Fee

</tbody>
</table>

*The exit fee is non-negotiable and will be retained by the Fund for the benefit of the remaining Unit Holders. The exit fee will not be applicable for Unit Holders exercising their cooling-off right or who redeem their Units prior to the Commencement Date. All exit fee will be rounded up to two (2) decimal places.

Illustration - Computation of exit fee

Example:

If you wish to redeem RM10,000.00 from the Fund within the first anniversary from the Commencement Date, the exit fee will be:

\[ 3.50\% \times RM10,000.00 = RM350.00 \]

You will therefore receive the redemption proceeds of:

\[ RM10,000.00 - RM350.00 = RM9,650.00 \]

4.3 Transfer Fee

A transfer fee of RM10 per transfer will be imposed on you.

A GST of 6% will be applicable to the transfer fee.

We reserve the right to waive or reduce the transfer fee at its absolute discretion.

An illustration of the applicable GST:

\[ RM10.00 \times 6\% = RM0.60 \]
Total amount payable by you (inclusive of GST) will be **RM10.60**.

### 4.4 Switching Fee

Not applicable (Switching is not allowed).

#### Fees And Expenses

The fees and expenses **indirectly** incurred by you when investing in the Fund are as follows:

### 4.5 Management Fee

Nil.

### 4.6 Trustee Fee

The Trustee is entitled to a trustee fee of 0.03% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), accrued daily and payable monthly to the Trustee.

**Illustration - Computation of trustee fee**

**Example:**

Assuming that the NAV of the Fund is RM100 million for that day, the accrued trustee fee (exclusive of GST) for the Fund for that day would be:

\[
\frac{RM100,000,000 \times 0.03\%}{365 \text{ days}} = RM82.19 \text{ per day}
\]

A GST of 6% will be applicable to the trustee fee.

GST applicable to the trustee fee for that day

\[
\text{trustee fee for that day} \times \text{GST} = RM82.19 \times 6% = RM4.93 \text{ (rounded to 2 decimal points)}
\]

Trustee fee for that day charged by the Fund inclusive of GST

\[
RM82.19 + RM4.93 = RM87.12
\]

### 4.7 Fund Expenses

(5) TRANSACTION INFORMATION

5.1 Valuation Point

The Fund must be valued at least once every Business Day.

However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia. Accordingly, the valuation of the Fund will be conducted by 4.00 p.m. on the next Business Day, when the closing prices of the foreign markets would be available. As such, the daily price of the Fund for a particular Business Day will be published two (2) Business Days later.

For currency translation of foreign securities to the Fund’s base currency (RM) shall be based on the bid exchange rate quoted by Bloomberg or Reuters at UK time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 a.m. midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.

5.2 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund’s liabilities from the value of the Fund’s assets, at a valuation point. For the purpose of computing the management fee and trustee fee, the NAV of the Fund should be inclusive of the management fee and the trustee fee for the relevant day.

Please note that the example below is for illustration only:

</tbody>
</table>

The NAV per Unit of the Fund is calculated by dividing the total NAV of the Fund by the number of Units in circulation at the end of each Business Day.
Assuming there are 100,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of the Fund shall therefore be calculated as follows:

\[
\begin{array}{l|c}
\text{NAV} & 101,199,911.83 \\
\text{Divide:} & \text{Units in circulation} \\
\text{NAV per Unit of the Fund} & 100,000,000 \\
\end{array}
\]

\[
\text{NAV per Unit} = \frac{101,199,911.83}{100,000,000} = 1.0120^* \\
\]

* NAV per Unit will be rounded up to four (4) decimal places for the purposes of publication of the NAV per Unit.

5.3 Pricing of Units

Single Pricing Regime

We adopt a single pricing regime in calculating a Unit Holder’s purchase and redemption of Units. This means that all purchases and redemptions are transacted on a single price. During the Offer Period, the Selling Price of a Unit and the Redemption Price of a Unit is equivalent to the offer price. After the Offer Period, Forward Pricing will be used to determine the Redemption Price of a Unit, which is the NAV per Unit for the Fund as at the next valuation point after the redemption request is received by us.

Selling Price of Units

Units will only be sold at the offer price during the Offer Period. We may impose a sales charge of up to 3.00% of the offer price of the Fund.

Calculation of Selling Price

Illustration - Sale of Units with sales charge

Example:

If you wish to invest RM10,000.00 in the Fund before 4.00 p.m. on 31 January 2017, and if the sales charge is 3.00% of the offer price of the Fund, the total amount to be paid by you and the number of Units issued to you will be as follows:

Sales charge payable by you = 3.00% x 10,000.00 = **RM300.00**

A GST of 6% will be applicable to the sales charge.

6.00% x RM300 = **RM18.00**

The total amount to be paid by you for your investment will therefore be:

RM10,000.00 + RM300.00 + RM18.00

= **RM10,318.00** (inclusive of sales charge and GST)

In the event that the offer price for the Fund at the end of the Business Day on 31 January 2017 = RM1.0000

The number of Units that will be issued to you will be:

RM10,000.00 divided by RM1.0000 = **10,000.00 Units**

Investors are advised not to make payment in cash to any individual agent when purchasing Units of the Fund.
Redemption Price of Units

The Redemption Price of a Unit of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

Calculation of Redemption Price
Illustration - Redemption of Units with exit fee

Example:

If you wish to redeem 10,000.00 Units from the Fund before 4.00 p.m. within the first anniversary from the Commencement Date and the exit fee is 3.50% of the NAV per Unit, the total amount to be paid to you will be as follows:

In the event that the NAV per Unit for the Fund at the end of the Business Day on 31 January 2017 = RM1.0000

Amount redeemed would be: 10,000 Units x RM1.000 = **RM10,000**

Exit fee would be: 3.50% x RM10,000 = **RM350**

The total amount to be paid to you will be: RM10,000 - RM350 = **RM9,650.00**

Therefore you will receive **RM9,650.00** as redemption proceeds.

5.4 Incorrect Pricing

We shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation of the Fund, any incorrect pricing of Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(a) if there is an over valuation and pricing in relation to the redemption of Units, the Manager shall reimburse the Fund; and

(b) if there is an under valuation and pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

**There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund.**

The Manager has appointed Mellon Capital Management Corporation (“MCM”) as the external investment manager for the Fund. The role and responsibilities of MCM is to manage the investment portfolio in accordance with the investment objective of the Fund and subject to the Act, the Guidelines and the terms and conditions of the investment management agreement between MCM and the Manager. MCM is an investment advisor registered with the United States and Exchange Commission.

Experience of MCM

MCM was established in 1983 as an indirect wholly owned subsidiary of Mellon Financial Corporation. On July 1, 2007, The Bank of New York Company, Inc. and Mellon Financial Corporation merged, creating a global leader in asset management and securities servicing – The Bank of New York Mellon Corporation (“BNY Mellon”). As a result, MCM became an indirect wholly owned subsidiary of BNY Mellon. As of December 31, 2016, MCM’s parent company ranks as one of the largest global asset managers with $1.6 trillion in assets under management and is the world’s leading asset servicer with $29.9 trillion in assets under custody and/or administration.

MCM has a support and leadership structure through its partnership with BNY Mellon and its large asset management organization. As of December 31, 2016, MCM is one of the largest investment subsidiaries of BNY Mellon with assets under management of approximately $341.1 billion, including overlay, for 335 clients across 1,747 accounts.

MCM is headquartered in San Francisco, and houses a fully integrated investment platform of portfolio management, research, trading, operations, client service and marketing. MCM takes a disciplined and analytical approach to global investment strategies. MCM’s clients include corporate plans, public and labour union retirement plans, endowments, foundations, and the sub-advisory marketplace.

MCM specializes in providing domestic and global asset allocation strategies, traditional and enhanced indexing, active equity and fixed income strategies, alternative investments, currency strategies, active commodities, and overlay strategies.

Mr Paul Benson is the Managing Director, Head of Fixed Income Portfolio Management at MCM and is responsible for overseeing all beta and passive fixed income portfolios. He has 21 years of investment experience, 11 years of which is at MCM.

Previously, at MCM, Paul served as the Senior Portfolio Manager, responsible for the Yield Curve Arbitrage strategy within global asset allocation portfolios. He has engineered and built the process to automate fixed income portfolio rebalancing and improve operational risk control.

Prior to joining MCM, Paul was a Senior Fixed Income Portfolio Associate at PIMCO in Newport Beach where he analyzed portfolios and implemented/managed U.S. and global fixed income active portfolios. His previous experiences include being a Trader at Westdeutsche Landesbank Tokyo where he built out the Interest Rate Swaps trading desk. He also served as a Trader at Bankers Trust Tokyo where he ran the JPN Government Bond book. Paul covered the market-making and proprietary trading at both Westdeutsche Landesbank and Bankers Trust.

Material Litigation and Arbitration of the External Investment Manager

There is no pending litigation brought by a current or former client against MCM relating to investment advisory services provided by MCM or regulatory enforcement action against MCM.

Except as stated below, in the past five years, neither MCM nor, to its knowledge, any of its officers or principals have been named as a defendant in a litigation proceeding that relates to MCM providing investment management services.

On December 1, 2011, MCM and various WisdomTree entities were named as defendants in a complaint filed by Research Affiliates, LLC in the United States District Court for the Central District of California, Southern Division. The complaint claims patent infringement in the management of certain WisdomTree Exchange Traded Funds for which MCM serves as subadviser. The parties entered into a settlement agreement in November 2012 and all claims and counterclaims were dismissed with prejudice.

In June 2011, MCM and multiple other entities have been named as defendants in the Tribune cases: Deutsche Bank Trust Company Americas, et al. v. Alliance Capital Management, LLC, et al. (“DBTCA Action”) and Marc S. Kirshner, as Litigation Trustee for the Tribune Litigation Trust v. FitzSimons, et al. (“FitzSimons Action” and collectively with the DBTCA Action, the “Tribune Actions”). There are other related actions involving the same claims, however, MCM has not been named in those actions.

The plaintiffs in the Tribune Actions brought these actions, and the related actions, against alleged shareholders of the Tribune Company who received payment for their shares in June or December 2007, as part of a leveraged buyout of the company (the “LBO”). Approximately one year after the LBO was concluded, the Tribune Company filed for bankruptcy. Thereafter, in approximately June 2011, certain Tribune Company creditors filed dozens of complaints in various courts throughout the country, including the complaint in the DBTCA Action, alleging that the payments made to shareholders in the LBO were “fraudulent conveyances,” and the shareholders must return the payments they received for their shares to satisfy the unpaid claims. The complaint in the FitzSimons Action was originally filed in November 2010 and contained a similar claim against shareholders.

The Tribune Actions have been consolidated with other cases for coordinated pre-trial proceedings in a multi-district litigation in the United States District Court for the Southern District of New York titled in re Tribune Company Fraudulent Conveyance Litigation (S.D.N.Y. Nos. 11-md-2296 and 12-md-2296 (RJS) (“Tribune MDL”)).
On November 6, 2012, a motion to dismiss was filed in the DBTCA Action and all the other cases in the Tribune MDL whose claims against former shareholders were based on state fraudulent conveyance laws (The “DBTCA Motion”). The DBTCA Motion had no effect on the FitzSimons Action, whose claims against former shareholders are based on federal law. Oral argument on the DBTCA Motion took place in May 2013. On September 2013, the court granted the DBTCA Motion on standing grounds. This decision dismissed the DBTCA Action and all other Tribune MDL cases asserting only state law fraudulent conveyance claims. The plaintiffs appealed the decision on the DBTCA Motion to U.S. Court of Appeals for the Second Circuit. Defendants cross-appealed to ensure that the Second Circuit reviewed alternative grounds for dismissal that the district court rejected. Oral argument on the appeal took place on November 5, 2014. As of January 19, 2016, no decision on the appeal has been issued.

In the FitzSimons Action, an “omnibus” motion to dismiss the fraudulent transfer claims against all former shareholders was fully briefed in July 2014. As of January 20, 2016, no oral argument on this motion has been scheduled. In April 2014, the Court approved the Conduit Protocol, through which those defendants who acted solely as conduits for the alleged payments can request dismissal of the claims against them. Currently, the BNY Mellon defendants that qualify as conduits are preparing their submissions.

As noted above, the foregoing only addresses litigation naming MCM as a defendant related to investment advisory services provided by MCM. MCM is a wholly owned, indirect subsidiary of BNY Mellon. BNY Mellon is a publicly held financial holding company organized under the laws of the State of Delaware and supervised by the Board of Governors of the Federal Reserve System. Like all major institutions, BNY Mellon and its subsidiaries are subject to various litigations, proceedings and investigations. As a public company, BNY Mellon files certain publicly available reports with the United States Securities and Exchange Commission pursuant to the Securities and Exchange Act of 1934. These reports describe, in general, any material pending legal or regulatory proceedings to which BNY Mellon or its subsidiaries are a party as required by such laws. BNY Mellon’s filings are available on its website at www.bnymellon.com.

Further information on the Manager, investment committee and the External Investment Manager is provided in the Manager’s website.

(d) Duties for making investment decisions, raising accounting entries and ensuring that payments are properly segregated and carried out by different departments which are headed by separate persons;

(e) Investment procedures, authorised signatories and authorised limits are properly documented in the Manager’s standard operating procedures;

(f) Holding meetings with the Trustee on a case to case basis to discuss issues related to the management of the unit trust fund, including conflict of interest situations; and

(g) A proper segregation of duties to prevent conflict of interest situations.

In addition, a quarterly declaration of securities trading is required from all employees and the executive director of the Manager, to ensure that there is no potential conflict of interest between the employees’ securities trading and the execution of the employees’ duties to the Manager and customers of the Manager. The Manager has also appointed a senior compliance officer whose duties include monitoring and resolving conflict of interest situations in relation to unit trust funds managed and administered by the Manager.

As at the LPD, the Manager is not aware of any existing or potential conflict of interest situations which may arise.

Details Of The Management Company’s Directors’ and Substantial Shareholders’ Direct And Indirect Interest In Other Corporations Carrying On A Similar Business

As at LPD, the directors of the Manager do not have any direct and indirect interest in other corporations carrying on a similar business.

As at LPD, Maybank Asset Management Group, which is a substantial shareholder of the Manager, has direct or indirect interests in the following corporations which are carrying on a similar business as the Manager:

(i) Maybank Islamic Asset Management Sdn Bhd;
(ii) Maybank Asset Management Singapore Pte Ltd; and
(iii) PT Maybank Asset Management.

SCBMB Trustee Berhad

The Trustee may have related party transactions involving or in connection with the Fund in the following events:

While the Trustee has internal policies intended to prevent or manage conflicts of interests, no assurance is given that their application will necessarily prevent or mitigate conflicts of interests. The Trustee's commitment to act in the best interests of the Unit Holders of the Fund does not preclude the possibility of related party transactions or conflicts.

Dear Sirs,

Taxation of the unit trust and unit holders

This letter has been prepared for inclusion in the First Prospectus in connection with the offer of units in the unit trust known as MAMG Global Constant Income Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising interest and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.
The Board of Directors
Maybank Asset Management Sdn Bhd
21 March 2017

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager’s remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

\[
\frac{A \times B}{4C}
\]

where

- A is the total of the permitted expenses incurred for that basis period;
- B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
- C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.
Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
  
  All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest**

  (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;

  (ii) interest from debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;

  (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;

  (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013;

  (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002;

  (vi) interest from sukuk originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA); and

  (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

---

2 Effective from the year of assessment 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria set out in the relevant guidelines of the Securities Commission Malaysia.

3 Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.
Discount

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1)(b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RP GT) under the Real Property Gains Tax Act 1976 (RP GT Act), if the gains are derived from the sale of chargeable assets, as defined in the RP GT Act.

Goods and Services Tax (GST)

On 1 April 2015, GST was implemented at the standard rate of 6% to replace the previous sales tax and service tax systems. Based on the Goods and Services Tax Act 2014 which was gazetted on 19 June 2014, the Fund, being a collective investment vehicle, will be making exempt supplies. Hence, the Fund is not required to be registered for GST purposes. The Fund will incur expenses such as management fees, trustee fees and other administrative charges which will be subject to 6% GST. The 6% input tax which may be incurred on such expenses will generally not be claimable by the Fund.
Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.
Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

<table>
<thead>
<tr>
<th>Unit holders</th>
<th>Malaysian income tax rates</th>
</tr>

<tbody>
<tr>
<td>Malaysian tax resident:</td>
<td>Progressive tax rates ranging from 0% to 28%</td>
</tr>
<tr>

<td>Progressive tax rates ranging from 0% to 24%</td>
</tr>
<tr>
<td>Co-operatives*</td>
<td>24% (Note 1)</td>
</tr>
<tr>
<td>Trust bodies</td>
<td></td>
</tr>
</tbody>
</table>

* Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society—
  (a) in respect of a period of five years commencing from the date of registration of such co-operative society; and
  (b) thereafter where the members’ funds (as defined in Paragraph 12(2)) of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit is exempt from tax.
### Unit holders

- Corporate unit holders
  - (i) A company with paid up capital in respect of ordinary shares of not more than RM2.5 million at the beginning of the basis period for the year of assessment\(^\text{5}\)
  - (ii) Companies other than (i) above

- Non-Malaysian tax resident (Note 2):
  - Individual and non-corporate unit holders
  - Corporate unit holders and trust bodies

</tr>
<tr>
<td>24% (Note 1)</td>
</tr>
<tr>
<td>28%</td>
</tr>
<tr>
<td>24% (Note 1)</td>
</tr>
</tbody>
</table>

**Note 1:**
It has been proposed in the Budget 2017 speech that the 24\% corporate tax rate be reduced by between one to four percentage points for the years of assessment 2017 and 2018, based on an increase in chargeable income (as compared to the immediate preceding year of assessment).

Details of the above proposal have not yet been released. It is expected that there may be further qualifications and conditions imposed. This reduced rate (where relevant) will only apply on the increased chargeable income.

\(^{5}\) A company would not be eligible for the 19\% tax rate on the first RM500,000 of chargeable income if:
- more than 50\% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- the company owns directly or indirectly more than 50\% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- more than 50\% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

\(^{6}\) Effective from the year of assessment 2017, the tax rate is reduced from 19\% to 19\%.
Note 2:
Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

Gains from sale of units
Gains arising from the realisation of investments will not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/dealers in securities.

Unit splits and reinvestment of distributions
Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are generally as follows:

- Unit splits - new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.

- Reinvestment of distributions - unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

(a) The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.

(b) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.

(c) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.

(d) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

ACKNOWLEDGEMENT OF RECEIPT OF RISK DISCLOSURE STATEMENT

I acknowledge that I have received a copy of this Unit Trust Loan Financing Risk Disclosure Statement and understand its contents.
