### FUND INFORMATION

| Benchmark | 12-months Maybank fixed deposit rate  

*The risk profile of the Fund is not the same as the risk profile of the performance benchmark*

| Investment Strategy | The Fund’s investment universe will be in foreign and/or local fixed income instruments in countries of Eligible Markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions (IOSCO). The Fund will invest in bonds which carry a minimum rating of BBB- by Standard & Poor’s Financial Services LLC (S&P) or equivalent by Moody’s Investors Service (Moody’s), Fitch Ratings Inc. (Fitch) or any other rating agencies. Local bonds rated by RAM Rating Services Berhad (RAM) will carry a minimum rating of BBB or equivalent by Malaysian Rating Corporation Berhad (MARC) or any other rating agencies. If the rating of a bond held by the Fund falls below the minimum rating stated above, the EIM will discuss with the Manager on a mutually agreeable approach in the best interests of the Fund and will dispose of the bond as soon as practicable. Nevertheless, we may continue to hold the downgraded bond if the immediate disposal of the bond would not be in the best interest of Unit Holders. Proceeds from fixed income instruments that mature within the 3 months period to the Maturity Date will be reinvested in other fixed income instruments for the remaining period to the Maturity Date. In the event there are no suitable replacement fixed income instruments, the proceeds will be reinvested in money market instruments and deposits with financial institutions. During this period, the Fund’s investment may therefore be inconsistent with the Fund’s investment strategy. The Fund may employ currency hedging strategy through foreign exchange contracts, including spot, forward and swaps, to hedge the foreign currency exposure to manage the currency risk. The hedging strategy will assist in reducing the Fund’s exposure to foreign exchange fluctuations. |

| Distribution Policy | Income distribution is declared at the end of the financial year of the Fund or for any specified period at the Manager’s discretion. |

| Investment Committee | • Tan Sri Abdul Wahid bin Omar (Chairman, Non-Independent)  

• Dato' Abdul Rahman bin Ahmad (Non-Independent)  

• Dato' Noorizah binti Hj Abd Hamid (Independent)  

• Puan Norlin binti Abdul Samad (Independent) |

| Trustee | SCBMB Trustee Berhad |

| External Investment Manager (EIM) | Amundi Malaysia Sdn Bhd |

### Possible outcomes of investment

The Fund will invest in fixed income instruments to provide returns to Unit Holders. From the returns, income distribution is expected to be declared annually and paid by cash at the Manager’s discretion. During adverse market, economic, political and other conditions, the Fund may take temporary defensive positions and hold Liquid Assets as the Fund’s only assets.
Conflict of interest
AMB and its holding company, ASNB are both unit trust management companies managing unit trust funds. In relation to the above:

(i) The following directors of AMB are also directors of ASNB:
   • Tan Sri Abdul Wahid bin Omar
   • Dato’ Abdul Rahman bin Ahmad
   • Encik Mohammad bin Hussin

(ii) The following investment committee member of all the unit trust funds managed by AMB is also investment committee member for the unit trust fund managed by ASNB:
   • Tan Sri Abdul Wahid bin Omar for all unit trust funds managed by ASNB; and
   • Dato’ Abdul Rahman bin Ahmad for all unit trust funds managed by ASNB except for Amanah Saham Wawasan 2020.

Refer to section on “Risk Factors” in the Fund’s prospectus for details.

Credit risk relates to the creditworthiness of the issuers of the debt instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the fixed income instrument. In the case of rated fixed income instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a fixed income instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income instruments. This could adversely affect the value of the Fund.

Interest rate risk refers to the impact of interest rate changes on the valuation of debt instruments. When interest rates rise, debt instrument prices generally decline and this may lower the market value of the Fund’s investment in debt instruments. The reverse may apply when interest rates fall.

As the investments in the Fund may be denominated in currencies other than the Base Currency of the Fund i.e. RM, any fluctuations in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment. The Manager may mitigate this risk by hedging the foreign currency exposure. However, hedging may limit any potential gain that might result from favourable currency fluctuations.
4. **Duration risk**

Duration mismatch risk arises when there is a mismatch between the tenure of the Fund and tenures of the bonds held by the Fund. A mismatch of maturity may potentially result in a loss to the Fund if the bond matures later than the Fund’s maturity and the Fund is forced to sell at the current market price which may be lower than the purchase or issue price of the bond at the point it was acquired by the Fund, particularly in a rising interest rate environment. This would negatively affect the value of Unit Holders’ investments.

5. **Reinvestment risk**

Reinvestment risk occurs when the Fund is required to divest from its investment in a fixed income instrument due to a rating downgrade or to fulfill redemption requests, and is unable to invest in another fixed income instrument that provides the same returns with similar tenure as the fixed income instrument that was disposed off.

6. **Country risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or price of Units to fall.

Additionally, disclosure and regulatory standards may be less stringent in certain securities markets than they are in developed countries and there may be less publicly available information on the issuers than is published by or about issuers in such developed countries. Consequently some of the publicly available information may be incomplete and/or inaccurate.

VALUATIONS AND EXITING FROM INVESTMENT

Frequency of valuations
The Fund will be valued every Friday of the week which is a Business Day. If that Friday is not a Business Day, then the next Business Day will be the next Valuation Point.

Due to the different time zones of the countries the Fund invests in, the valuation of the Fund is calculated on the following Business Day, at the close of the respective exchanges. Accordingly, the NAV per Unit of the Fund for a particular Business Day will be published on the website after two days from the Valuation Point. The NAV per Unit computed will remain the same on the Valuation Point until the next Valuation Point.

You may refer to our website (www.ambmutual.com.my) or you can contact AMB for the NAV per Unit.

Exiting from investment
To exit from this investment, you may redeem or transfer your Units to other investors. Please refer to “Fees & Charges” and “Transaction Information” for details.

APPENDIX : GLOSSARY

“AMB” or “Manager” Amanah Mutual Berhad (195414-U).

“AMBGITF” or “Fund” AMB Global Income Trust Fund.

“Business Day(s)” A day on which the Bursa Malaysia is open for trading in securities. The Manager may declare certain Business Days to be a non-Business Day if at least 50% of the Fund’s investments in foreign markets are closed for business. This is to ensure Unit Holders are given a fair valuation of the Fund when making investment transactions.

“GST” Goods and Services Tax.

“IUTA” An institutional unit trust adviser that is registered with FiMM and authorized for distribution of unit trust funds.

“Liquid Assets” Deposits and money market instruments which can be converted into cash within seven (7) Business Days.

“NAV” or “Net Asset Value” The NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at the Valuation Point. For the purpose of computing the annual management fee and annual trustee fee, the NAV should be inclusive of the management fee and trustee fee for the relevant day.

“NAV per Unit” The NAV of the Fund divided by the number of Units in circulation, at the Valuation Point.

“RM” The lawful currency of Malaysia i.e. Ringgit Malaysia.

“SC” Securities Commission Malaysia.

“Unit Holder(s)” A person or persons registered as holder(s) of Units of the Fund and whose name(s) appear(s) in the register of Unit Holders.

“Units” Units of the Fund.

“Valuation Point” Every Friday of the week which is a Business Day. If a Friday is a non-Business Day, then the next Business Day will be the Valuation Point.
