1. What is Maybank Bluewaterz Total Return Fund?
   The Fund is Maybank Asset Management Sdn Bhd’s feeder fund (fixed income). The Fund aims to achieve long-term consistent positive returns by investing in the Maybank BlueWaterz Total Return Bond Fund (“Target Fund”).

2. Fund Suitability
   The Fund is suitable for Sophisticated Investors*:
   - who seek consistent positive returns in the long-term;
   - who are willing to tolerate the risk associated with investing in fixed income securities via a collective investment scheme, i.e. the Target Fund; and
   - with a long-term investment horizon.

   * Please refer to the definition of “Sophisticated Investors” in the information memorandum for more details.

3. Investment Objective
   The Fund aims to achieve long-term consistent positive returns* by investing in the Target Fund.

   Note: Long-term consistent positive returns means positive returns for a period of three (3) years and above from the launch of the Fund.

6. Specific Risks

(1) **Credit/default risk**

This risk will arise when the issuer of a fixed or floating rate fixed income security fails to make timely payments of interest and/or principal repayments. This may cause the value of the Fund to be adversely affected.

Furthermore, current deposits and/or fixed deposits that the Fund has placed with financial institutions are also exposed to credit/default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and interest foregone, causing the performance of the Fund to be adversely affected.

(2) **Country risk**

As the Fund invests in the Target Fund which is domiciled in the Cayman Islands, the Fund’s investments in the Target Fund may be affected by risks specific to the Cayman Islands. Such risks include adverse changes in the Cayman Islands’ economic fundamentals, social and political stability, laws, regulatory systems and foreign investment policies which may be detrimental to the management of the Target Fund.

(3) **Currency risk**

As the Fund is a multi-class fund, investors should also be aware of the following currency risk:

(a) Currency risk at the Fund’s portfolio level

Since the Fund is denominated in RM and the Fund invests in Class B Participating Shares of the Target Fund which is denominated in USD, investors should be aware that if the RM appreciates against the USD, this will have an adverse effect on the NAV of the Fund and vice versa. Investors should note that any gains or losses arising from the movement of the USD against the RM may therefore increase or decrease the capital gains of the investment. Nevertheless, investors should realise that currency risk is considered as one of the major risks to foreign currency denominated investments due to the volatile nature of the foreign exchange market. In order to manage currency risk, the Manager may employ currency hedging strategies** in attempt to fully or partially hedge the foreign currency exposure into RM.

(b) Currency risk at the Class level

The impact of the exchange rate movement between the base currency of the Fund in RM and the currency denomination of the Class (other than in RM) may result in a depreciation of the investor’s holdings as expressed in the base currency of the Fund.

Note:
- * Please refer to item (9) of Section 5.3 Risks of the Target Fund for more information pertaining to the risk of foreign currency markets.
- ** “hedging strategies” will expose the Fund to hedging risk as set out in item (6) of Section 5.2 Specific Risks of the Fund.

(4) **Concentration risk**

The Fund is a feeder fund which invests in a single collective investment scheme. As such, the performance of the Target Fund will have a mirror effect on the performance of the Fund as any adverse effect on the Target Fund will inevitably affect the Fund as well. As the Fund invests between 80% - 98% of its NAV in the Target Fund, it is subject to concentration risk as the performance of the Target Fund would have a significant impact on the performance of the Fund.
(5) **Investment Manager risk**

The Fund invests into a collective investment scheme managed by Maybank Asset Management Singapore Pte. Ltd (“the Investment Manager”), i.e. the Target Fund. Therefore, the Investment Manager has absolute discretion over the Target Fund’s investment technique, operational controls and management. In the event of mismanagement of the Target Fund, the NAV of the Fund, which invest into the Target Fund would be affected negatively. Although the probability of such occurrence is minimal, should the situation arise, the Manager reserves the right to seek an alternative collective investment scheme that is consistent with the objective of this Fund to replace the Target Fund, subject to the approval of the unit holders.

Note: * Please refer to item (20) of Section 5.3 Risks of the Target Fund for more information pertaining to the risk of relying on the Investment Manager.

(6) **Hedging risk**

The Manager will use derivatives to hedge the Fund’s portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate and interest rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty of exchange rate and interest rate movements, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate and interest rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against loses money, the act of hedging would have reduced the loss, if successfully hedged.

(7) **Risk relating to payment of redemption proceeds**

This risk will arise if the Target Fund is suspended or the Target Fund receives redemption requests aggregating to more than 20% (or such other percentage as the directors may determine) of the Class B participating shares of the Target Fund in issue or of all the participating shares in issue*. Should any of the above events occur, the Manager may not be able to pay the redemption proceeds to the unit holders within the specified time period, i.e. 15 calendar days, from the Manager’s receipt of the redemption request before the cut-off time of 12.00 p.m. on a business day. However, the Manager will pay the redemption proceeds to the unit holders within 15 calendar days after the receipt of the redemption proceeds by the Manager from the Target Fund. The Target Fund will strive to pay the Manager within the shortest possible time frame. However, there is no specific time frame which has been set currently.

Note: * Please refer to Section 4.11(a) Redemption of Shares of the Target Fund for details relating to the limitations on redemptions imposed at the Target Fund level.

(8) **Termination Risk**

In the event the NAV of the Fund falls below USD100,000 (or its equivalent in RM) or where the Manager determines that it is in the best interests of the unit holders, the Manager may, in its sole opinion and without first obtaining the consent of the unit holders, terminate the trust and wind up the Fund. The termination of the Fund by the Manager shall be in accordance with the provisions of the deed.

Upon the termination of the Fund by the Manager, the Manager shall as soon as practicable, notify the existing unit holders in writing of the following options:

(a) to receive the net cash proceeds derived from the sale of all the investment and assets of the Fund less any payment for liabilities of the Fund and any cash produce available
for distribution (if any), in proportion to the number of units held by the unit holders respectively; or
(b) to switch to any other funds managed by the Manager upon such terms and conditions as shall be set out in the written notification; or
(c) to choose any other alternative as may be proposed by the Manager.

(9) Risk of suspension relating to Target Fund*

During the period when the Target Fund is suspended, the Investment Manager will not accept any subscriptions and/or redemptions and the calculation of the Target Fund’s net asset value will be suspended. Due to the above reason, the Manager and Trustee may also suspend the sale and/or redemption of units of the Fund without the consent of the unit holders for the same period the Target Fund is suspended or such other period as may be prescribed by any relevant law. The Manager will inform the unit holders of such suspension in the event it occurs and the Trustee shall notify Securities Commission Malaysia of the suspension immediately in writing in accordance with the provisions in the deed.

All suspended applications for units and requests for redemption shall be deemed to have been received on the first business day after the lifting of the suspension provided always that the Manager may permit a withdrawal of such applications or requests at any time after the commencement of the suspension and before the lifting of the suspension.

Note:
* Please refer to Section 4.11(b) Redemption of Shares of the Target Fund for details relating to the suspension of the issue and redemption of the Class B participating shares of the Target Fund.

(10) Risk of changes relating to Target Fund

The Target Fund’s investment objective, style and strategy may be developed and changed over time, potentially exposing the Target Fund to additional and different risk factors. This poses a risk whereby the investment objective, style and strategy of the Target Fund may no longer be suitable or fit for those of the Fund. To mitigate the risk, the Manager may choose to replace the Target Fund with another collective investment scheme that is consistent with the investment objective, style and strategy of the Fund.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers, Shariah advisers, stockbrokers or independent professional advisers for a better understanding of the risks.

For more details, please refer to section 5.1 and section 5.3 in the information memorandum for the general risks of investing in the Fund and the risks of the Target Fund.

7. Valuation of Investment

The Fund is valued once every business day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than 5.00 p.m. on the next business day. The daily price of the Fund for a particular business day will not be published on the next day but will instead be published the next following day (i.e. the price will be two (2) days old).

Investors will be able to obtain the unit price of the Fund from www.maybank-am.com.my. Alternatively, the Manager’s client servicing personnel can be contacted at 03-2297 7888.

8. Exiting from Investment

| Submission of Redemption Request | The cut-off time for redemption of units shall be at 12.00 p.m. on a business day. |
Payment of Redemption Proceeds

Redemption proceeds will be paid within fifteen (15) calendar days from the Manager’s receipt of a redemption request to the unit holder’s segregated personal or corporate banking account.

Unit holders should note that the time taken to pay the redemption proceeds to the unit holders (i.e. 15 calendar days) may be extended or delayed if:

(i) the Target Fund is suspended; or
(ii) the Target Fund receives redemption requests aggregating to more than 20% (or such other percentage as the directors may determine) of the Class B participating shares of the Target Fund in issue or of all the participating shares in issue.

Should any of the above events occur, the Manager may not be able to pay the redemption proceeds to the unit holders within 15 calendar days. However, the Manager will pay the redemption proceeds to the unit holders within 15 calendar days after the receipt of the redemption proceeds by the Manager from the Target Fund.

Remittance of Redemption Proceeds

The Manager shall remit the redemption proceeds to the account held in the name of the unit holder(s).
