(3) RISK FACTORS

This section of the Info Memo provides you with information on the general risks involved when investing in the Funds and the specific risks associated with the securities/instruments that the Funds will be investing in.

3.1 General Risks of Investing in the Funds

An investor should consider the following general risks when investing in the Funds:

- **Management Risk**
  Poor management of a Fund might jeopardize the investment of Unit Holders. This risk arises as performance of the Fund is dependent on investment decisions of the Manager that may adversely affect the Fund’s performance. The quality of management is also dependent on the internal circumstances within the Manager and other factors that may be beyond the control of the Manager. This risk is reduced through the implementation of a structured operational process and internal controls.

- **Market Risk**
  The value of an investment will decrease due to changes in market factors i.e. economic, political, or other events that impact large portions of the market. Market risk cannot be eliminated, hence the Manager will monitor the financial markets closely and act on any adverse news accordingly.

- **Liquidity risk**
  The ability of a Fund to honour requests for redemption or to pay back Investors’ investments is subject to the Fund’s holding of adequate liquid assets. This liquidity risk is mitigated by investing in a wide range of securities with satisfactory trading volumes and avoiding securities with poor liquidity.

- **Inflation risk**
  Inflation is one of the long term risks as it creates uncertainty over the future value of the investments. In an inflationary environment, a return on investment which is lower than the inflation rate will lead to a loss of purchasing power per RM to the Unit Holder.

- **Loan financing risk**
  The price of Units in a Fund fluctuates with the value of the underlying portfolios. Investors are discouraged from financing the purchased Units via borrowings and should assess the inherent risk of investing with borrowed money as returns are not guaranteed. Investors may either be forced to provide additional collateral to top up on loan margin should price of Units fall beyond a certain level or Investors could be burdened with a higher cost of financing when interest rate increases.

- **Non-compliance risk**
  It is the risk that the Manager might not follow the provisions set out in the Info Memo or the Deed or the law that governs the Funds or its own internal procedures, or will act fraudulently or dishonestly which may result in the Funds being mismanaged and may affect the Unit Holders’ investments.

- **Returns are not Guaranteed**
  Investors should be aware that by investing in a Fund, there is no guarantee of any income distribution, returns or capital appreciation. Unlike fixed deposits placed directly by the Investors into any financial institutions which carry a specific rate of return, a Fund does not provide a fixed rate of return.
3.2 Specific Risks of the Funds

An investor should consider the following risks when investing in the Funds:

<table>

<th>Specific Risks</th>

</table>
| Maybank Enhanced Cash XI Fund | • Interest Rate Risk  
Interest rate fluctuations do affect the deposit returns of the Fund. Interest rates offered by the financial institutions will fluctuate according to the overnight policy rate determined by Bank Negara Malaysia and this has direct correlation with the Fund’s investment in Fixed Deposit. The Fund’s investment in Fixed Deposits will benefit from higher interest rate and in the event that the interest rate is low the Fund’s returns will also be low. Changes in the level of interest will cause prices of money market instruments to change inversely. This risk can largely be eliminated by holding the instruments until maturity, thereby locking in price and yields. |
|                          | • Credit / Default Risk  
This risk occurs when the issuer of the investments of the Fund, for example, when a financial institution defaults on its agreement, i.e. unable to service any deposit interest/coupon payments or pay the principal amount upon maturity. In such cases, Investors may suffer significant capital losses with regards to their capital invested and interest foregone. |
|                          | • Deposit Account Risk  
When the Fund invests into Fixed Deposits account, the interest/profits are safeguarded by the bank. However, the investments are not without risk. In the event that the bank becomes insolvent, the Fund might have difficulty in getting back the money. |
|                          | • Liquidity Risk  
It is the risk on the ability of the Fund to honour requests for redemption or to pay back Unit Holders’ investments whereby it is subject to the Fund’s holding of adequate liquid assets. This liquidity risk is alleviated by the Fund’s primary investments in the Fixed Deposits. |

profit rate is low the Fund’s returns will also be low. Changes in the level of profit will cause prices of money market instruments to change inversely. This risk can largely be eliminated by holding the instruments until maturity, thereby locking in price and yields.

- **Credit / Default Risk**
  This risk occurs when the issuer of the investments of the Fund, for example, when a Shariah-compliant financial institution defaults on its agreement, i.e. unable to service any profit arise from deposit/coupon payments or pay the principal amount upon maturity. In such cases, investors may suffer significant capital losses with regards to their capital invested and profit foregone.

- **Deposit Account Risk**
  When the Fund invests into Islamic Fixed Deposit account, the profits are safeguarded by the Shariah-compliant financial institutions. However, the investments are not without risk. In the event that the Shariah-compliant financial institutions become insolvent, the Fund might have difficulty in getting back the money.

- **Liquidity Risk**
  It is the risk on the ability of the Fund to honour requests for redemption or to pay back Unit Holders’ investments whereby it is subject to the Fund’s holding of adequate liquid assets.

- **Risk of Non-Compliance with Shariah requirements**
  This risk occurs when the investment involves instrument(s) that does not comply with Shariah principles. However, it can be minimized through careful selection of Shariah-compliant placements and money market instruments.

*Note: Management fee stated above is exclusive of GST.*

Please note that the example below is for illustration only:
Assuming the NAV of the Fund (before deducting the management fee and trustee fee) for a particular day is RM30,000,000 with a management fee of 0.45% (exclusive of GST), then the accrued management fee (exclusive of GST) for that day would be:

\[
\text{RM}30,000,000 \times 0.45\% \times \frac{1}{365} = \text{RM}369.86 \text{ per day}
\]

Assuming GST of 6% is applicable to the management fee, the GST applicable to the management fee for that day would be:

\[
\text{management fee for that day} \times \text{GST} = \text{RM}369.86 \times 6\% = \text{RM}22.19 \text{ (rounded to 2 decimal points)}
\]

Management fee for that day charged by the Fund inclusive of GST:

\[
\text{RM}369.86 + \text{RM}22.19 = \text{RM}392.05
\]

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is RM 30,000,000 for the day with a trustee fee of 0.05% (exclusive of GST), the accrued trustee fee (exclusive of GST) for that day would be:

\[
\text{RM}30,000,000 \times 0.05\% \times \frac{1}{365} = \text{RM}41.10 \text{ per day}
\]

Assuming GST of 6% is applicable to the trustee fee, the GST applicable to the trustee fee for that day would be:

\[
\text{trustee fee for that day} \times \text{GST} = \text{RM}41.10 \times 6\% = \text{RM}2.47 \text{ (rounded to 2 decimal points)}
\]

Trustee fee for that day charged by the Fund inclusive of GST:

\[
\text{RM}41.10 + \text{RM}2.47 = \text{RM}43.57
\]

5.7 Fund Expenses

Only expenses directly related and necessary in operating and administering the Funds as provided in the Deed may be paid out of the Funds. These include the following:

a) Tax and other duties charged on the Fund by the government and other authorities;

b) The fees and other expenses properly incurred by the auditor appointed for the Fund;

c) Fees for the valuation of any investments of the Fund by independent valuers;
d) Cost incurred for the modification of the Deed of the Fund other than those for the benefit of the Manager or Trustee;

e) Cost incurred for any meeting of the Unit Holders other than those convened by, or for the benefit of, the Manager or Trustee; and

f) Any other fees/expenses permitted in the Deed.

These costs shall be factored into the computation of the NAV.

There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund.
6.1 Valuation Point

The Funds must be valued at least once every Business Day. The valuation of the Funds will be carried out in a fair and accurate manner. The Funds will be valued at 11.30 a.m. every Business Day.

6.2 Computation of NAV

NAV of the Fund is determined by deducting the value of the Fund’s liabilities from the value of the Fund’s assets, as at the valuation point. The liabilities are inclusive of the management fee and trustee fee for the day.

An illustration on how NAV per Unit is calculated (on a Business Day) is as follows:

<tr>

</tr>
</tbody>
</table>

Note: RM 1.000948 (rounded to nearest 6 decimal places for publication purposes)

6.3 Pricing of Units

Forward Pricing

The selling and redemption transactions are executed at Forward Pricing.

Selling Price

Based on the single pricing regime, the Selling Price per Unit is the NAV per Unit of the Fund. Any sales charge payable by the Unit Holder would be calculated as a percentage of the Selling Price per Unit of the Fund.

The Selling Price per Unit shall be the NAV of a Unit as at the next valuation point after an application of Unit is received by the Manager. A sales charge (if any) will be computed separately based on the net investment amount / purchase amount.

Illustration:

If a Unit Holder makes an investment of RM5,000,000.00 at the Selling Price per Unit of RM1.022900 (which is the Fund’s NAV of a Unit as at the next valuation point) with no sales charge, a sum of RM5,000,000.00 would be payable as follows:

| Investment amount = RM 5,000,000.00 |
| Add: sales charge @ Nil = - |
| Add: GST @ Nil = - |
| Total amount paid by the Unit Holder = RM 5,000,000.00 |

The Unit Holder will be allotted with Units calculated as follows:

| Units computed is calculated as |
| RM 5,000,000.00 = 4,888,063.3493 Units |

Redemption Price
The Redemption Price of a Unit of the Fund is the NAV per Unit of the Fund as at the next valuation point after the redemption request is received by the Manager. Any redemption charge payable by the Unit Holder would be calculated as a percentage of the Redemption Price per Unit of the Fund.

The Redemption Price shall be the NAV per Unit as at the next valuation point after the redemption request is received by the Manager.

Illustration:
If a Unit Holder redeems 100,000 Units, assuming the NAV per Unit as at the next valuation point is RM1.022900, the Unit Holder would receive net proceeds of redemption of RM102,290.00 as follows:

Redemption proceeds: \[100,000 \text{ Units} \times 1.022900 = 102,290.00\]

6.4 Error in Pricing
Subject to any relevant law, if there is an error in the valuation and/or pricing of the Fund and/or NAV per Unit of the Fund, the Manager will take immediate remedial action to correct the error. (c) if there is an under pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and
(d) if there is an under pricing in relation to the repurchase of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

The Manager retains the discretion whether or not to reimburse if the error is below 0.5% of the NAV per Unit or where the total impact on an individual account is less than RM10.00 in absolute amount as the reprocessing costs might be greater than the adjustment amount.

Dear Sirs

Taxation of the unit trust and unit holders

This letter has been prepared for inclusion in the Master Information Memorandum to be dated 9 August 2017 in connection with the offer of units in the unit trust known as Maybank Enhanced Cash XI Fund, Maybank Enhanced Cash XII Fund, Maybank Enhanced Cash XIII Fund and Maybank Shariah Enhanced Cash Fund (hereinafter referred to as “the Funds”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Funds and the unit holders.

Taxation of the Funds

The taxation of the Funds is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Funds comprising interest and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from year of assessment 2016.
The Board of Directors
Maybank Asset Management Sdn Bhd
26 July 2017

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah.

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Funds which are not deductible under Section 33(1) of the MITA:

• the manager’s remuneration,
• maintenance of the register of unit holders,
• share registration expenses,
• secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

\[
\frac{A \times B}{4C}
\]

where

\(A\) is the total of the permitted expenses incurred for that basis period;

\(B\) is gross income consisting of dividend\(^1\), interest and rent chargeable to tax for that basis period; and

\(C\) is the aggregate of the gross income consisting of dividend\(^1\) and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period.

\(^1\) Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.
provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Funds is exempt from income tax:

- **Malaysian sourced dividends**
  
  All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest (profits)**
  
  (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;

  (ii) interest from debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;

  (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;

  (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013;

  (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002;

  (vi) interest from sukuk originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSAs); and

---

2 Effective from the year of assessment 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission Malaysia.

3 Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.
The Board of Directors
Maybank Asset Management Sdn Bhd

(vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

- Discount

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, interest (profits) and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1)(b) of the MITA, gains from the realisation of investments will not be treated as income of the Funds and hence, are not subject to income tax. Such gains may be subject to real property gains tax ("RPGT") under the Real Property Gains Tax Act 1976 ("RPGT Act"). If the gains are derived from the sale of chargeable assets, as defined in the RPGT Act.

Goods and Services Tax ("GST")

On 1 April 2015, GST was implemented at the standard rate of 6% to replace the previous sales tax and service tax systems. Based on the Goods and Services Tax Act 2014 which was gazetted on 19 June 2014, the Funds, being a collective investment vehicle, will be making exempt supplies. Hence, the Funds is not required to be registered for GST purposes. The Funds will incur expenses such as management fees, trustee fees and other administrative charges which will be subject to 6% GST. The 6% input tax which may be incurred on such expenses will generally not be claimable by the Funds.
Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Funds.

The income of unit holders from their investment in the Funds broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. **Taxable distributions**

   Distributions received from the Funds will have to be grossed up to take into account the underlying tax paid by the Funds and the unit holder will be taxed on the grossed up amount.

   Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

   Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. **Non-taxable and exempt distributions**

   Tax exempt distributions made out of gains from the realisation of investments and other exempt income earned by the Funds will not be subject to Malaysian income tax in the hands of the unit holders.
