## 6. Key Risks

### Specific Risks of the Fund

#### Equity Specific Risk

Prices of a particular equity may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such equity will adversely affect the Fund's NAV. However, this impact is mitigated through portfolio diversification and careful selection of equities through fundamental analysis, portfolio diversification across a number of sectors and industries, and site visits.

#### Credit and Default Risk

Credit risk relates to the creditworthiness of the issuers of the debt instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the debt instrument. In the case of rated debt instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a debt instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the debt instruments. This could adversely affect the value of the Fund.

#### Interest Rate Risk

Interest rate risk refers to the impact of interest rate changes on the valuation of debt instruments. When interest rates rise, debt instrument prices generally decline and this may lower the market value of the Fund's investment in debt instruments. The reverse may apply when interest rates fall.

#### Currency Risk

As the investments in the Fund may be denominated in currencies other than the base currency i.e. MYR, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

#### Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or price of Units to fall.

*Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.*

*For more details, please refer to section 3.8 in the master prospectus (conventional funds) for the general risks of investing in the Fund.*

*Note: If your investments are made through an institutional unit trust adviser ("Distributor") which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognize the Distributor as a unit holder of the fund and the Distributor shall be entitled to all the rights conferred to it under the deed.*

## 7. Valuation of Investment

The Fund is valued once every business day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than 5.00 p.m. on the next business day. The daily price of the Fund for a particular business day will not be published on the next day but will instead be published the next following day (i.e. the price will be two (2) days old).

Investors will be able to obtain the unit price of the Fund from [www.maybank-am.com.my](http://www.maybank-am.com.my). Alternatively, the Manager's client servicing personnel can be contacted at 03-2297 7888.

## 8. Exiting from Investment

Submission of Repurchase Request	The cut-off time for repurchase of units shall be at <b>4.00 p.m.</b> on a business day.
Payment of Repurchase Proceeds	Repurchase proceeds will be paid out within ten (10) calendar days from the date the repurchase request is received by the Manager.
Remittance of Repurchase Proceeds	The Manager shall remit the repurchase proceeds to the account held in the name of the unit holder(s).

### 1-Year Fund performance review

The Fund registered a total return of 1.33% against its benchmark's return of (0.68%), thus outperformed the benchmark by 2.01%.

The benchmark was changed on 17 September 2017 from 90% of the performance of the FBM KLCI and 10% of the 1-month fixed deposit rate of commercial banks to the current benchmark to better reflect the Fund's asset allocation and investment strategy. Prior to 17 November 2008, the benchmark was the Kuala Lumpur Composite Index.

### Portfolio Turnover Ratio (PTR) as at 30 June

	2019	2018	2017	2016
PTR (times)	0.52*	0.55	0.77	1.02

\*The PTR is lower than the previous financial year due to the decrease in trading activities during the period under review.

### Distribution as at 30 June
