##### 4. Basis of calculation made in calculating the returns:

The performance figures are a comparison of the growth/decline in NAV after taking into account all the distributions payable (if any) during the stipulated period.

An illustration of the above would be as follows:

Capital return	=	(NAV per unit end / NAV per unit begin) - 1
Income return	=	Income distribution per unit / NAV per unit ex-date
Total return	=	(1+Capital return) x (1+Income return) - 1

## **MAYBANK MONEY MARKET FUND**

### **Manager's report**

**For financial period from 1 June 2020 to 30 November 2020 (cont'd)**

#### **C. Market Review**

Year-to-date ("YTD"), Bank Negara Malaysia ("BNM") had cut the overnight policy rates ("OPR") four times, 25 basis points ("bps") in January 2020, 25bps in March 2020, 50bps in May 2020, and another 25bps in July 2020, resulting in the rate to be 1.75% with the ceiling and floor OPR rates reduced to 2.00% and 1.50% respectively. The cuts were aimed to provide additional policy stimulus to speed up the pace of economic recovery from the coronavirus-induced crisis. Currently, the OPR rate stands at 1.75% with BNM having stayed on hold in the last two Monetary Policy Committee ("MPC") meetings for the year, as they consider the current monetary policy stance as 'appropriate and accommodative'.

#### **D. Market Outlook & Strategies**

As we move in to 2021 and with vaccines made increasingly available, we view economic activities to pick up with fewer disruptions next year. Following 125bps of cumulative OPR cuts YTD and having stayed on hold at the last two MPC meetings for the year, we view BNM will likely stand on hold with OPR at 1.75% through 2021. We think BNM will not look to hike until growth is further entrenched and this will likely be a consideration only after mass delivery of Coronavirus Disease 2019 ("COVID-19") vaccinations, which we expect to happen only in 2H2021 at the earliest.

The Manager monitors the liquidity requirements closely in order to place money market deposits in appropriate tenures which will satisfy the liquidity requirements and also position of the Fund to capitalise on any profit rate movement. The Manager also actively looks for products from licensed financial institutions that provide better yields. Hence, the Manager has resorted to maintain the deposit placement on short tenure basis to cater possibility of redemption from investor in the nearest future.

#### **E. Soft Commissions and Rebates**

The Manager and its delegates will not retain any form of soft commissions and rebates from or otherwise share in any commission with any broker in consideration for directing dealings in the investments of the Fund unless the soft commissions received are retained in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Fund. All dealings with brokers are executed on best available terms.

During the financial period from 1 June 2020 to 30 November 2020, the Manager and its delegates did not receive any soft commissions and rebates from brokers or dealers.

## **TRUSTEE'S REPORT**

### **TO THE UNITHOLDERS OF MAYBANK MONEY MARKET FUND FOR THE FINANCIAL PERIOD FROM 1 JUNE 2020 TO 30 NOVEMBER 2020**

We have acted as Trustee of Maybank Money Market Fund (the "Fund") for the financial period from 1 June 2020 to 30 November 2020. In our opinion and to the best of our knowledge, Maybank Asset Management Sdn Bhd, the Manager (the "Manager"), has operated and managed the Fund in accordance with the following:

- (a) Limitations imposed on the investment powers of the Manager and the Trustee under the Deed, the Securities Commission's Guidelines on Unit Trust Funds, the Capital Markets and Services Act 2007 and other applicable laws;
- (b) Valuation and pricing is carried out in accordance with the Deed and any regulatory requirements;
- (c) Creation and cancellation of units of the Fund have been carried out in accordance with the Deed and relevant regulatory requirements; and
- (d) The distributions to the unitholders during the financial period from 1 June 2020 to 30 November 2020 are consistent with the objectives of the Fund.

The remaining NAV of the Fund will be invested in fixed income securities, money market instruments and deposits which have a remaining maturity period of more than 365 days but fewer than 732 days.

As at 1 March 2019, the Fund launched three (3) Classes of units- Class A, Class B and Class C. Class represents a represent the Classes denominated in RM with different rate of management fee for each Class.

The Manager of the Fund is MAM, a company incorporated in Malaysia. It is a holder of the Capital Markets Services License with fund management as its regulated activity under the Capital Markets and Services Act 2007 ("CMSA"). The principal place of business of MAM is at Level 12, Tower C, Dataran Maybank, No. 1 Jalan Maarof, 59000 Kuala Lumpur, Malaysia. MAM is a subsidiary of Maybank Asset Management Group Berhad ("MAMG"), which in turn is a subsidiary of Malayan Banking Berhad ("MBB").

#### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **2.1 Basis of preparation**

The financial statements of the Fund have been prepared in accordance to Malaysian Financial Reporting Standards 134 Interim Financial Reporting ("MFRS 134") as issued by the Malaysian Accounting Standards Board ("MASB"), International Financial Reporting Standards 34 Interim Financial Reporting ("IFRS 34") as issued by the International Accounting Standards Board ("IASB"), the Deed and any regulatory requirements.

The Fund had adopted the MFRS, Amendments to Standards and Interpretations Committee ("IC") which have become effective during the financial period from 1 June 2020 to 30 November 2020. The adoption of the new pronouncements did not result in any material impact to the financial statements.

The financial statements are prepared on a historical cost basis except as disclosed in the accounting policies in Note 2.3 to Note 2.14 to the financial statements.

The financial statements are presented in Ringgit Malaysia ("RM").

#### 2.2 Standards and amendments issued but not yet effective

The following are Standards and Amendments to Standards and Interpretations issued by the MASB, but not yet effective, up to the date of issuance of the Fund's financial statements. The Fund intends to adopt the relevant standards, if applicable, when they become effective.

Description	Effective for annual periods beginning on or after
Revised Conceptual Framework for Financial Reporting	1 January 2020
Amendments to MFRS 3: <i>Definition of a Business</i>	1 January 2020
Amendments to MFRS 7, MFRS 9 and MFRS 139: <i>Interest Rate Benchmark Reform</i>	1 January 2020
Amendments to MFRS 101 and MFRS 108: <i>Definition of Material</i>	1 January 2020
Amendment to MFRS 16: <i>Covid-19-Related Rent Concessions</i>	1 June 2020
Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16: <i>Interest Rate Benchmark Reform Phase 2</i>	1 January 2021
Amendments to MFRS 3: <i>Reference to the Conceptual Framework</i>	1 January 2022
Amendments to MFRS 116: <i>Proceeds before Intended Use</i>	1 January 2022
Amendments to MFRS 137: <i>Onerous Contracts – Cost of Fulfilling a Contract</i>	1 January 2022
Annual Improvements to MFRS Standards 2018-2020 Cycle	1 January 2022
MFRS 17: <i>Insurance Contracts</i>	1 January 2023
Amendments to MFRS 101: <i>Classification of Liabilities as as Current or Non-current</i>	1 January 2023
Amendments to MFRS 10 and MFRS 128: <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	Deferred

The Fund expects that the adoption of the above standards and amendments to standards will not have any material impact on the financial statements in the period of initial application.

## **MAYBANK MONEY MARKET FUND**

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **2.3 Financial instruments**

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provision of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at FVTPL are recognised immediately in profit or loss.

#### **2.4 Financial assets**

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at amortised cost or fair value, depending on the classification of the assets.

##### **(i) Financial assets at amortised cost**

The Fund classifies cash and cash equivalents, interest receivables and amount due from Manager as financial assets at amortised cost. These assets are subsequently measured using effective interest rate ("EIR") method and are subject to impairment. The EIR is a method of calculating the amortised cost of the financial asset and of allocating and recognising the profit income in profit or loss over the relevant period.

Unless designated at FVTPL on initial recognition, debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss:

- the assets are held within a business model whose objectives is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that do not meet the criteria above are classified as either fair value through other comprehensive income ("FVTOCI") or FVTPL.

##### **(ii) Impairment**

Credit losses are recognised based on the 'Expected Credit Loss' ("ECL") model. The Fund recognises loss allowances for ECL on financial instruments that are not measured at FVTPL. The impairment model does not apply to equity investments.

## **MAYBANK MONEY MARKET FUND**

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **2.4 Financial assets (cont'd)**

##### **(ii) Impairment (cont'd)**

ECL are a probability-weighted estimate of credit losses. It is measured as follows:

- Financial assets that are not credit-impaired at the reporting date:  
As the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Fund expects to receive);
- Financial assets that are credit-impaired at the reporting date:  
As the difference between the gross carrying amount and the present value of estimated future cash flows.

At each reporting date, the Fund assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the issuer or counterparty;
- Significant downgrade in credit rating of the instrument by a rating agency;
- A breach of contract such as a default or past due event; or
- The disappearance of an active market for a security because of financial difficulties.

For balances with short-term nature (e.g. interest receivable), full impairment will be recognised on uncollected balances after the grace period.

##### **(iii) Derecognition**

The Fund derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Fund neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Fund recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Fund retains substantially all the risks and rewards of ownership of a transferred financial asset, the Fund continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of financial asset at amortised cost, gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

## **MAYBANK MONEY MARKET FUND**

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **2.5 Financial liabilities**

##### **(i) Classification**

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability. The Fund classifies amount due to Trustee, amount due to Manager, and other payables and accruals as other financial liabilities.

##### **(ii) Recognition and measurement**

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument. The Fund's financial liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest rate method.

##### **(iii) Derecognition**

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

#### **2.6 Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Fund.

The fair value of an asset or a liability is measured using the assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

## **MAYBANK MONEY MARKET FUND**

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **2.6 Fair value measurement (cont'd)**

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- (ii) Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- (iii) Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting date.

For the purpose of fair value disclosures, the Fund has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

#### **2.7 Unitholders' contribution**

The unitholders' contributions to the Fund are classified as liabilities under the requirements of MFRS 132 Financial Instruments: Presentation as they are puttable instruments whereby the unitholders have the right to redeem their units in the Fund at their option.

The outstanding units are carried at the redemption amount that is payable at each financial period if unitholder exercises the right to put the unit back to the Fund. Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

Distribution equalisation represents the average distributable amount included in the creation and cancellation prices of units. This amount is either refunded to unitholders by way of distribution and/or adjusted accordingly when units are cancelled.

## **MAYBANK MONEY MARKET FUND**

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **2.8 Distributions**

Any distribution to the Fund's unitholders is accounted for as a deduction from realised reserves and recognised in the statement of comprehensive income except where dividend is sourced out of distribution equalisation which is accounted for as a deduction from unitholders' contribution. A proposed dividend is recognised as a liability in the period in which it is approved. Distribution is declared at the discretion of the Fund Manager based on the availability of distributable income.

Distribution is either reinvested or paid in cash to the unitholders on the income payment date. Reinvestment of units is based on the NAV per unit on the income payment date which is also the time of creation.

#### **2.9 Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and deposits with a licensed financial institutions with original maturity of three months or less, which have an insignificant risk of changes in value.

#### **2.10 Revenue / Income**

Revenue is measured at fair value of consideration received or receivable.

Interest income from deposits with a licensed financial institution are recognised on the accruals basis using the effective interest rate ("EIR") method.

Other revenue/income is generally recognised when the Fund satisfies a performance obligation by transferring a promised good or service or an asset to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

#### **2.11 Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

#### **2.12 Taxation**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

## MAYBANK MONEY MARKET FUND

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.12 Taxation (cont'd)

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial period.

No deferred tax is recognised as no temporary differences have been identified.

#### 2.13 Functional and presentation currency

The financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM") which is also the Funds functional currency.

#### 2.14 Critical accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability in the future.

No major judgements have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

### 3. MANAGER'S FEE

The Manager's fee is computed on a daily basis at the following rate per annum ("p.a") of the NAV of the Fund before deducting the Manager's fee and Trustee's fee for the particular day.

Classes of units	01.06.2020 to 30.11.2020	01.03.2019 (date of launch) to 30.11.2019

The Manager is of the opinion that the transactions with the related parties have been entered into in the normal course of business and have been established on terms and conditions that are not materially different from that obtainable in transactions with unrelated parties.

### 14. MANAGEMENT EXPENSE RATIO ("MER")

The MER of the Fund is the ratio of total expenses expressed as an annual percentage of the Fund's daily average NAV. For the financial period from 1 June 2020 to 30 November 2020, the MER of the Fund stood at 0.18% (01.03.2019 (date of launch) to 30.11.2019: 0.44%).

### 15. PORTFOLIO TURNOVER RATIO ("PTR")

The PTR of the Fund is the ratio of average placements and withdrawals of the Fund for the financial period to the daily average NAV of the Fund. For the financial period from 1 June 2020 to 30 November 2020, the PTR of the Fund stood at 40.49 times (01.03.2019 (date of launch) to 30.11.2019: 78.18 times).

### 16. SEGMENT INFORMATION

The Portfolio Management Committee (the "PMC") of the Manager, being the chief operating decision-maker, makes the strategic decisions on resources allocation of the Fund. The decisions are based on an integrated investment strategy to ensure the Fund achieves its targeted return with an acceptable level of risk within the portfolio.

The PMC is responsible for the performance of the Fund by investing 100% of its net asset value ("NAV") in short-term money market instruments including fixed Shariah-compliant deposits.

On this basis, the PMC considers the business of the Fund to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investments strategy and the Fund's performance is evaluated on an overall basis.

The internal reporting of the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS.

There were no changes in the reportable operating segments during the financial period.

### 17. FINANCIAL INSTRUMENTS

#### (a) Classification of financial instruments

The Fund's financial assets and financial liabilities are measured on an ongoing basis at either fair value or at amortised cost based on their respective classification. The significant accounting policies in Note 2.3 to Note 2.14 describe how the classes of financial instruments are measured and how income and expenses are recognised.

The following table analyses the financial assets and liabilities (excluding tax-related matters) of the Fund in the statement of financial position as at the reporting date by the classes of financial instrument to which they are assigned and therefore by the measurement basis.

<b>01.06.2020 to 30.11.2020</b>	<b>Financial assets at amortised cost RM</b>	<b>Financial liabilities at amortised cost RM</b>	<b>Total RM</b>

## **MAYBANK MONEY MARKET FUND**

### **17. FINANCIAL INSTRUMENTS (CONT'D)**

#### **(b) Financial instruments that are carried at fair value**

There were no financial assets of the Fund that are carried at fair value as at 30 November 2020 (31.05.2020: Nil).

#### **(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximations of fair value**

The Fund's financial instruments are not carried at fair value but their carrying amounts are reasonable approximations of fair value due to their short-term maturity. Accordingly there are no fair value hierarchy disclosures presented.

### **18. UNITHOLDERS' CONTRIBUTION MANAGEMENT**

The unitholders' contribution can vary depending on the demand for redemptions and subscriptions to the Fund.

The Fund's objectives for managing the unitholders' contribution are:

- (a) To invest in investments meeting the description, risk exposure and expected returns indicated in its prospectus;
- (b) To achieve consistent returns while safeguarding the unitholders' contribution by using various investment strategies;
- (c) To maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise; and
- (d) To maintain sufficient fund size to ensure that the operations of the Fund are cost-efficient.

No changes were made to the capital management objectives, policies or processes during the current financial period.
