MAYBANK ASSET MANAGEMENT SDN BHD (MAM Malaysia) today launched MAMG All-China Focus Equity Fund, a wholesale feeder fund that allows investors to tap the growth opportunities of China by investing in Wellington All-China Focus Equity Fund.

Chief executive officer Ahmad Najib Nazlan said MAM Malaysia would focus on high-quality companies with strong governance records and 'handpick' the best high-performance stocks for its investors.

"The uniqueness of the fund is its unconstrained all-China investment strategy approach.

"That means we have access across local onshore and offshore global listings of China equities and across all industry sectors and market capitalisations to discover the most valuable stocks, which are available in several share classes," he said in a statement.
