4. Basis of calculation made in calculating the returns:

The performance figures are a comparison of the growth/decline in NAV after taking into account all the distributions payable (if any) during the stipulated period.

An illustration of the above would be as follows:

Capital return (%)	=	(NAV per unit end / NAV per unit begin) - 1
Income return (%)	=	Gross income distribution per unit / NAV per unit begin
Total return (%)	=	Capital return (%) + Income return (%)

Manager's report

For the financial period from 1 June 2021 to 30 November 2021 (cont'd)

B. Performance Review (cont'd)

C. Market Review

At the start of the period under review, the Malaysian bond market was supported by risk-off sentiment amidst soaring Corona virus disease 2019 ("COVID-19") cases due to the highly infectious delta variant. In response, the government took the initiative to vaccinate its population as fast as it could by establishing mega vaccine centres around the country. The elevated COVID-19 cases also prompted a full national lockdown at end-May 2021, which provided support to the bond market due to lowered growth domestic product ("GDP") growth expectation.

3Q2021 saw sentiment turned cautious due to heightened domestic political uncertainty in July 2021. The risk, however, eased as Former Deputy Prime Minister, Dato Seri Ismail Sabri Yaakob was subsequently appointed the 9th Prime Minister of Malaysia in August after garnering sufficient support from Members of Parliament ("MPs"). The bond market sold off again in September 2021 amidst rising global yields as global central banks turned hawkish on monetary policy outlook, with United States ("US") Federal Reserve ("Fed") signaled quantitative easing ("QE") tapering could begin as early as November 2021 and conclude by mid-2022. Locally, relaxed lockdown measures and proposal to raise debt-to-GDP ceiling by 5% to 65% which caused supply concerns; were also factors contributing to the sell-off in September 2021. The sell-off continued in October 2021 amidst sustained increase in global bond yields as major central banks signal monetary policy normalization, as well as high inflation outlook on pent-up demand. 10-year MGS yield increased to a high of 3.67% in mid-October 2021, before closing at 3.58% at end-October 2021 and 3.51% as at end-November 2021. It started the period under review at 3.23% at end-May 2021. Corporate bonds also saw yields increasing as it laggardly adjusts to govies' yields.

Bond market recovered in November 2021 as yields were down between 2.3 basis points ("bps") to 19.6 bps month-on-month in a flattening manner as market players reacted to the weaker than expected 3Q 2021 GDP numbers (-4.5% against consensus' -2.6%). The accompanying Bank Negara Malaysia ("BNM") statement on being mindful of any premature withdrawal of support to the market was seen as dovish, and bets for any Overnight Policy Rate ("OPR") hikes during 1H2022 were pared. Demand for govies continued to be supported as risk-off mode took place due to concerns on the new COVID-19 variant, named Omicron, which was feared could impact the pace of economic recovery globally. Meanwhile, corporate bonds also traded firmer with yields down by between 1.0 to 15 basis points month-on-month. Year-to-date ("YTD") as at 30 November 2021, the Bond Pricing Agency Malaysia ("BPAM") All Sukuk Index fell by -1.07%, which is the first time the index is posting negative returns in almost 15 years.

MAYBANK MALAYSIA INCOME-I FUND

Manager's report

For the financial period from 1 June 2021 to 30 November 2021 (cont'd)

D. Market Outlook & Investment Strategy

After a weaker than expected 3Q 2021 GDP growth (-4.5% against consensus' -2.60%), GDP growth is expected to rebound in 4Q 2021 onwards, as lockdown measures are relaxed and economy sectors reopens. We expect bond yield curve to move higher on continued economic recovery. Central banks globally have also turned more hawkish on monetary policy outlook. Despite this, the Malaysian market remains flush with liquidity and this will provide support to the local bond market as yield pickup remain decent as compared to the low yielding fixed deposits and money market funds.

We expect a normalization year for fixed income returns in 2022, coming out of negative return in 2021. Absolute yields have now become more attractive after the sell-off, providing a good entry level for yield accretion for the fund. Hence, strategy wise, we believe our preference for corporate bonds (which they are less volatile and provide higher yields compared to govies) and strong credit selection will continue to protect our portfolio. We prefer strong AA-rated and A-rated papers for yield pickup and potential long term upgrade. We will continue to trade opportunistically and will also look into new primary issuances that offer higher yields, as well as bonds in the secondary market that has oversold.

E. Significant financial risk of the Fund

The Manager did not enter into any hedging instruments (e.g. forward currency contracts) to hedge the foreign currency exposure of the Fund as disclosed in the Fund's Prospectus dated 1 November 2018.

If the currencies in which the unitholders' contribution are denominated appreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa.

The impact of the exchange rate movement between the MYR and the currency of Class C-USD may result in appreciation/depreciation of the unitholders' investment in the Fund as expressed in MYR.

F. Soft Commissions and Rebates

The Manager and its delegates will not retain any form of soft commissions and rebates from or otherwise share in any commission with any broker in consideration for directing dealings in the investments of the Fund unless the commission received is retained in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Fund. All dealings with brokers are executed on best available terms.

During the financial period from 1 June 2021 to 30 November 2021, the Manager and its delegates did not receive any rebates from the brokers or dealers but have retained soft commissions in the form of goods and services such as research materials and advisory services that assist in decision making process relating to the investment of the Fund (i.e. research materials, data and quotation services, computer hardware and software incidental to the investment management of the Fund and investment advisory services) which were demonstrable benefits to the unitholders.

MAYBANK MALAYSIA INCOME-I FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JUNE 2021 TO 30 NOVEMBER 2021

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Maybank Malaysia Income-I Fund (the "Fund") was constituted pursuant to the executed Deed dated 29 March 2004 between Amanah Mutual Berhad ("AMB") as the Manager and AmanahRaya Trustee Berhad as the Trustee and the Registered Holders of the Fund. The following Supplemental deeds have been issued between AMB and the Trustee:

- First supplemental deed dated 26 May 2005
- Second supplemental deed dated 13 August 2008
- Third supplemental deed dated 14 March 2013
- Fourth supplemental deed dated 27 January 2016
- Fifth supplemental deed dated 12 December 2017

Following the acquisition of AMB by Maybank Asset Management Sdn Bhd ("MAM"), the immediate and ultimate holding company of AMB has been changed to MAM and Malayan Banking Berhad ("MBB") respectively, effective 17 May 2018.

Subsequently, MAM and the Trustee has entered into the Sixth supplemental deed dated 4 September 2018 and Seventh supplemental deed dated 20 August 2019. The Deed and Supplemental Deeds are subsequently referred to as 'Deeds'.

Prior to 30 September 2019, the Fund had 4 Classes of Units namely A-MYR, C-MYR, A-SGD and C-USD. As disclosed in the First Supplementary Master Prospectus dated 18 October 2019, Class A-SGD was terminated on 30 September 2019 as the last redemption was performed on 21 August 2019.

The principal activity of the Fund is to invest in a portfolio of investments that are permissible under Shariah principles with the objective of providing a steady appreciation of the NAV of the Fund with a regular flow of income to investors. The investments include Sukuk and short term Islamic money market instruments.

MAM has appointed Maybank Islamic Asset Management Sdn Bhd ("MIAM") as the External Investment Manager for the Fund. MIAM is a subsidiary of Maybank Asset Management Group Berhad and is a holder of Capital Markets Services Licence ("CMSL") to carry out Islamic fund management business pursuant to Section 61 of the Capital Markets and Services Act 2007 ("CMSA").

The roles and responsibilities of MIAM include management of the investment portfolio in accordance with the investment objective, subject to the CMSA and the Guidelines on Unit Trust Funds issued by the Securities Commission of Malaysia ("SC") and any other relevant guidelines issued by the SC as well as the terms and conditions of the investment management agreement between MIAM and MAM.

The Manager of the Fund is MAM, a company incorporated in Malaysia. It is a holder of the Capital Markets Services License with fund management as its regulated activity under the Capital Markets and Services Act 2007 ("CMSA"). The principal place of business of MAM is at Level 12, Tower C Dataran Maybank, No. 1 Jalan Maarof, 59000 Kuala Lumpur, Malaysia. MAM is a subsidiary of Maybank Asset Management Group Berhad ("MAMG"), which in turn is a subsidiary of MBB.

MAYBANK MALAYSIA INCOME-I FUND

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") as issued by the Malaysian Accounting Standards Board ("MASB") and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), the Deeds and any regulatory requirements.

The Fund has adopted the MFRS, Amendments to Standards and Interpretations Committee ("IC") which have become effective during the financial period from 1 June 2020 to 30 November 2020. The adoption of the above did not result in material impact to the financial statements.

The financial statements have been prepared on a historical cost basis except as disclosed in the accounting policies in Note 2.3 to Note 2.15 to the financial statements.

All amounts are stated in Ringgit Malaysia ("RM") except for the NAV per unit for non-MYR classes which are stated in US Dollar ("USD").

2.2 Standards and amendments to standards issued but not yet effective

The following are Standards and Amendments to Standards and Interpretations issued by the MASB, but not yet effective, up to the date of issuance of the Fund's financial statements. The Fund intends to adopt the relevant standards, if applicable, when they become effective.

Description	Effective for annual periods beginning on or after
Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16: <i>Interest Rate Benchmark Reform Phase 2</i>	1 January 2021
Amendments to MFRS 3: <i>Reference to the Conceptual Framework</i>	1 January 2022
Amendments to MFRS 116: <i>Proceeds before Intended Use</i>	1 January 2022
<i>Amendments to MFRS 137: Onerous Contracts - Cost of Fulfilling a Contract</i>	1 January 2022
Annual Improvements to MFRS Standards 2018-2020 Cycle	1 January 2022
MFRS 17: <i>Insurance Contracts</i>	1 January 2023
Amendments to MFRS 101: <i>Classification of Liabilities as Current or Non-current</i>	1 January 2023
Amendments to MFRS 10 and MFRS 128: <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	Deferred

The Fund expects that the adoption of the above standards and amendments to standards will not have any material impact on the financial statements in the period of initial application.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.3 Financial instruments

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provision of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.4 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at amortised cost or fair value, depending on the classification of the assets.

(i) Financial assets at amortised cost

The Fund classifies cash and cash equivalents, amount due from Manager and profit income receivables as financial assets at amortised cost.

Unless designated as at fair value through profit or loss ("FVTPL") on initial recognition, debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss:

- the assets are held within a business model whose objectives is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding.

Debt instruments that do not meet the criteria above are classified as either fair value through other comprehensive income ("FVTOCI") or FVTPL.

(ii) Financial assets at FVTPL

Investments in unquoted sukuk are classified as FVTPL, unless the Fund designates an investment that is not held for trading as FVTOCI on initial recognition.

A financial asset is recognised at FVTPL if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of the portfolio of identified financial instruments that the Fund manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instruments or a financial guarantee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.4 Financial assets (cont'd)

(ii) Financial assets at FVTPL (cont'd)

Debt instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria but are designated as at FVTPL are measured at FVTPL. A debt instrument may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Debt instruments are reclassified from amortised cost to FVTPL when the business model is changed such that the amortised cost criteria are no longer met. Reclassification of debt instruments that are designated as at FVTPL on initial recognition is not allowed.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Profit income on debt instruments as at FVTPL is disclosed separately in the profit or loss.

Changes in fair value of FVTPL investments are recognised in 'unrealised gain on FVTPL investments' in profit and loss. Accumulated unrealised gains or losses are reclassified to 'realised gain on FVTPL investments' in profit and loss when the associated assets are sold.

(iii) Impairment

Credit losses are recognised based on the 'Expected Credit Loss' ("ECL") model. The Fund recognises loss allowances for ECL on financial instruments that are not measured at FVTPL. The impairment model does not apply to equity investments.

ECL are a probability-weighted estimate of credit losses. It is measured as follows:

- Financial assets that are not credit-impaired at the reporting date:
As the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Fund expects to receive);
- Financial assets that are credit-impaired at the reporting date:
As the difference between the gross carrying amount and the present value of estimated future cash flows.

At each reporting date, the Fund assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the issuer or counterparty;
- Significant downgrade in credit rating of the instrument by a rating agency;
- A breach of contract such as a default or past due event; or
- The disappearance of an active market for a security because of financial difficulties.

For balances with short-term nature, full impairment will be recognised on uncollected balances after the grace period.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.4 Financial assets (cont'd)

(iv) Derecognition

The Fund derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Fund neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Fund recognises its retained profit in the asset and an associated liability for amounts it may have to pay. If the Fund retains substantially all the risks and rewards of ownership of a transferred financial asset, the Fund continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of financial asset classified as FVTPL, the cumulative unrealised gain or loss previously recognised is transferred to realised gain or loss on disposal in profit or loss.

On derecognition of financial asset at amortised cost, the cumulative unrealised gain or loss previously recognised is transferred to realised gain or loss on disposal in profit or loss.

2.5 Financial liabilities

(i) Classification

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability. The Fund classifies amount due to Manager, amount due to brokers, amount due to Trustee, distribution payable, and other payables and accruals as other financial liabilities.

(ii) Recognition and measurement

The Fund's financial liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the EIR method.

The EIR is a method of calculating the amortised cost of the financial liability and of allocating and recognising the interest expense in profit or loss over the relevant period.

(iii) Derecognition

The Fund derecognises financial liabilities when, and only when, the Fund's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

2.6 Unitholders' contribution

The unitholders' contributions to the Fund are classified as liabilities under the requirements of MFRS 132 *Financial Instruments: Presentation* as they are puttable instruments whereby the unitholders have the right to redeem their units in the Fund at their option.

MAYBANK MALAYSIA INCOME-I FUND

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.6 Unitholders' contribution (cont'd)

The outstanding units are carried at the redemption amount that is payable at each financial period if unitholder exercises the right to put the unit back to the Fund. Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

Distribution equalisation represents the average distributable amount included in the creation and cancellation prices of units. This amount is either refunded to unitholders by way of distribution and/or adjusted accordingly when units are cancelled.

2.7 Revenue / Income

Revenue is measured at the fair value of consideration received or receivable.

Profit income from sukuk and Shariah-compliant deposits with licensed Islamic financial institutions are recognised on the accruals basis using the EPR method.

Realised gain or loss on disposal of sukuk is measured as the difference between the net proceeds and its carrying amount of the investments, determined on cost adjusted for accretion of discount or amortisation of premium.

Other income such as consent fee payment from sukuk issuer are recognised on an accrual basis when the right to receive has been established.

2.8 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and Shariah-compliant deposits with licensed Islamic financial institutions with original maturity of three months or less which have an insignificant risk of changes in value.

2.9 Taxation

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in unitholders

Current tax expense is determined according to Malaysian tax laws at the current tax rate based upon the taxable profit earned during the financial period.

No deferred tax is recognised as there are no material temporary differences.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.10 Cleansing/purification of income

The Fund is required to cleanse or purify any income or gains generated by Shariah non-compliant activities or sources, based on the method of purification which has been approved by the Shariah Adviser.

The purification exercise is done by channelling the purification amount to charitable bodies as advised by the Shariah Adviser and this exercise is performed by the Manager when relevant information has been obtained. The calculation of the purification amount must further be endorsed by the Shariah Adviser for verification before the purification is done.

2.11 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets that are recognised in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting date.

For the purpose of fair value disclosures, the Fund has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

MAYBANK MALAYSIA INCOME-I FUND

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.12 Distributions

Any distribution to the Fund's unitholders is accounted for as a deduction from realised reserves and recognised in statement of comprehensive income except where distribution is sourced out of distribution equalisation which is accounted for as an adjustment to the unitholders' contribution. A proposed distribution is recognised as a liability in the period in which it is approved.

2.13 Functional and presentation currency

The financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is also the Fund's functional currency.

2.14 Segment information

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for the allocating resources and assessing performance of the operating segments.

2.15 Critical accounting estimates and judgments

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

No major judgement have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

4. MANAGER'S FEE

The Manager's fee is computed on a daily basis at 0.35% per annum ("p.a.") of the NAV of the respective class for the financial period.

ThIn the previous financial period, the Manager's fee is charged at 1.00% per annum ("p.a.") of the NAV of the respective class effective 18 January 2020. The Manager's fee is revised again, effective 1 March 2020, to 0.35% p.a. of the NAV of the respective class.

5. TRUSTEE'S FEE

The Trustee fee is computed based on 0.07% (2020: 0.07%) per annum ("p.a.") of the NAV of the Fund, before deducting Manager's fee and Trustee's fee for the day, subject to a minimum of RM18,000 p.a., accrued daily in the Fund's base currency, RM. The fee is apportioned to each share class based on the multi class ratio ("MCR"), and paid monthly to the Trustee.

6. TAXATION

Income tax is calculated at the Malaysian statutory tax rate of 24% (01.06.2020 to 30.11.2020: 24%) of the estimated assessable income for the financial period.

The tax charge for the financial period is in relation to the taxable income earned by the Fund after deducting tax allowable expenses. In accordance with Schedule 6 of the Income Tax Act 1967, profit income earned by the Fund is exempted from tax.

(d) Classes of shares

(i) Types of classes of units

The Fund issues cancellable units, in four classes of units as detailed below:

Classes of units	Currency	Categories of	Distribution Policy
A-MYR	RM	Retail	Distribution of income
C-MYR	RM	Institutional	Distribution of income
C-USD	USD	Institutional	Accumulation of units

There are different charges and features for each class as follows:

- (a) Initial investments for each class
- (b) Additional minimum investment
- (c) Transfer, switching and conversion charges for each class

(ii) NAV computation

The computation of NAV of the Fund is based on the Fund's functional currency, RM, irrespective of the multiple classes of units (denominated in other currencies). Due to multiple classes in this Fund, the expenses of the Fund are apportioned based on the MCR, which is the size of the respective class relative to the whole Fund. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

(iii) Redemption/cancellation of units by unitholders

These units are cancellable at the unitholder's option. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if the unitholder exercises the right to put back the unit to the Fund.

There is no restriction on the putting of the units back to the Fund (i.e. redemption), subject to the minimum redemption amount of units of each class and the minimum unit holding for each class. If the unit holdings of a unitholder are, after a redemption request, falls below the minimum unit holdings for the Fund, a request for full redemption is deemed to have been made.

15. MANAGEMENT EXPENSE RATIO ("MER")

The MER of the Fund is the ratio of the sum of fees and expenses incurred by the Fund, and recovered expenses to the average NAV of the Fund calculated on a daily basis. The fees and expenses include Manager's fee, Trustee's fee and other administrative expenses. For the financial period from 1 June 2021 to 30 November 2021, the MER of the Fund stood at 0.22% (31.05.2021: 0.45%).

16. PORTFOLIO TURNOVER RATIO ("PTR")

The PTR of the Fund is the ratio of average acquisitions and disposals of the Fund for the financial year to the average NAV of the Fund calculated on a daily basis. For the financial period from 1 June 2021 to 30 November 2021, the PTR of the Fund stood at 0.16 times (31.05.2021: 0.50 times).

17. SEGMENT INFORMATION

The Portfolio Management Committee (the "PMC") of the Manager, being the chief operating decision-maker of the Manager makes the strategic decisions on the resources allocation of the Fund. The decisions are based on an integrated investment strategy to ensure the Fund achieve its targeted return with an acceptable level of risk within the portfolio. The chief operating decision-maker is responsible for the performance of the Fund by investing a minimum of 70% of the Fund's NAV in Sukuk and Shariah-compliant money market instruments, and a minimum of 2% in Shariah-compliant liquid assets.

The remaining balance of the Fund's NAV will be invested in liquid assets. On this basis, the PMC considers the business of the Fund to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investments strategy and the Fund's performance is evaluated on an overall basis. The internal reporting for the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS.

MAYBANK MALAYSIA INCOME-I FUND

18. FAIR VALUE HIERARCHY

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table analyses within the fair value hierarchy the Fund's financial assets and liabilities measured at fair value:

	Level 1	Level 2	Level 3	Total
	RM	RM	RM	RM
30.11.2021				
Financial assets at FVTPL	-	94,977,768	-	94,977,768
31.05.2021				
Financial assets at FVTPL	-	106,060,580	-	106,060,580

19. UNITHOLDERS' CONTRIBUTION MANAGEMENT

The unitholders' contribution can vary depending on the demand for redemptions and subscriptions to the Fund.

The Fund's objectives for managing the unitholders' contribution are:

- To invest in investments meeting the description, risk exposure and generate higher returns than the prescribed benchmark as indicated in its prospectus;
- To achieve consistent returns while safeguarding capital by using various investment strategies;
- To maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise; and
- To maintain sufficient fund size to ensure that the operations of the Fund are cost-efficient.

No changes were made to the unitholders' contribution management objectives, policies or processes during the current financial period.
