7. <u>Amendment to Currency Risk in "Chapter 3 – Fund Information" on page 11 of the Prospectus</u>

The information on currency risk under the heading "Specific Risks of the Fund" is hereby deleted in its entirety and replaced with the following:

<u>Currency Risk</u>
As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD (Acc.) Class) will affect the Unit Holders' investments in those Classes (other than USD (Acc.) Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD (Acc.) Class) may result in a depreciation of the Unit Holders' holdings as expressed in the base currency of the Fund.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD (Acc.) Class) but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of the NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD (Acc.) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged Class.

There is no guarantee that the hedging will be successful and mismatches may occur between the currency position of the Fund and the Class being hedged.

This First Supplementary Prospectus is dated 1 June 2022 and must be read together with the Prospectus dated 15 February 2022.

8. Amendment to "Distribution Policy" in "Chapter 3 – Fund Information" on page 14 of the Prospectus

10. Amendment to "Chapter 4 – Fees, Charges and Expenses" on 22 of the Prospectus

A new paragraph is hereby inserted immediately after the heading "(4) FEES, CHARGES AND EXPENSES" as follows:

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that

This First Supplementary Prospectus is dated 1 June 2022 and must be read together with the Prospectus dated 15 February 2022.

the multi class ratio ("MCR") is calculated by taking the "value of a Class" for a particular day and dividing it with the "value of the Fund" for that same day. This apportionment is expressed as a ratio and is calculated as a percentage. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD100 and the size of MYR (Hedged) (Acc.) Class and USD (Acc.) Class over the size of the Fund is 60% and 40% respectively, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by MYR (Hedged) (Acc.) Class and 40% being borne by USD (Acc.) Class.

The information on the switching fee is hereby deleted in its entirety and replaced with the following:

This First Supplementary Prospectus is dated 1 June 2022 and must be read together with the Prospectus dated 15 February 2022.

MYR (Hedged) (Acc.) Class	USD (Acc.) Class
RM10.00 per switch.	USD10.00 per switch.

Up to 1.80% per annum of the NAV of each Class.	

15. <u>Amendment to Section 5.3 – Computation of NAV and NAV per Unit in "Chapter 5 – Transaction Information" on pages 26 - 27 of the Prospectus</u>

The information on the computation of NAV and NAV per Unit is hereby deleted in its entirety and replaced with the following:

The NAV of the Fund is determined by deducting the value of the Fund's liabilities from the value of the Fund's assets at a valuation point.

Please note that the example below is for illustration only:

		Fund (USD)	**MYR (Hedged) (Acc.) Class (USD)**	**USD (Acc.) Class (USD)**
	Value of the Fund/Class	101,500,000.00		
Add:	Other assets (including cash) & income	200,000.00		
Less:	Liabilities	100,000.00		
	NAV of the Fund before deducting management fee and trustee fee for the day	101,600,000.00		
	Multi-class ratio^	**100%**	**60%**	**40%**
	NAV of the Class before deducting management		60,960,000.00	40,640,000.00

This First Supplementary Prospectus is dated 1 June 2022 and must be read together with the Prospectus dated 15 February 2022.

	fee and trustee fee for the day			
Less:	Management fee for the day		(60,960,000 x 1.80% / 365 days)	(40,640,000 x 1.80% / 365 days)
		5,010.41	3,006.25	2,004.16
Less:	Trustee fee for the day		(60,960,000 x 0.04% / 365 days)	(40,640,000 x 0.04% / 365 days)
		111.34	66.81	44.54
TOTAL NAV (USD)		**101,594,878.25**	**60,956,926.95**	**40,637,951.30**

^Multi class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 280,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

		Fund (USD)	**MYR (Hedged) (Acc.) Class (USD)**	**USD (Acc.) Class (USD)**
	NAV	101,594,878.25	60,956,926.95	40,637,951.30
Divide:	Units in circulation		240,000,000	40,000,000
	NAV per Unit of the Class (USD)		0.2540	1.0160*
	Conversion to MYR (at USD1:MYR4.00 exchange rate)		RM1.0160*	

**The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.*

16. <u>Amendment to Section 5.7 – Investment in "Chapter 5 – Transaction Information" on page 28 of the Prospectus</u>

The first paragraph is hereby deleted in its entirety and replaced with the following:

This First Supplementary Prospectus is dated 1 June 2022 and must be read together with the Prospectus dated 15 February 2022.

The minimum initial investment and minimum additional investment for each Class are as set out below:

	MYR (Hedged) (Acc.) Class	USD (Acc.) Class
Minimum Initial Investment^	RM1,000	USD1,000
Minimum Additional Investment^	RM100	USD100

^ or such other lower amount as determined by us from time to time.

A new paragraph is hereby inserted immediately after the note as follows:

Unit holdings for each Class

However, this would not apply in situations where a show of hands is required to pass a resolution at a Unit Holders' meeting of the Fund.

17. Amendment to Section 5.8 – Redemption of Units in "Chapter 5 – Transaction Information" on page 29 of the Prospectus

The second paragraph is hereby deleted in its entirety and replaced with the following:

The minimum Unit holdings for each Class after the redemption must not be less than the Unit holdings set out below:

Minimum Unit holdings^	1,000 Units	1,000 Units

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this First Supplementary Prospectus in connection with the offer of units in the unit trust known as **Maybank Global Wealth Growth-I Fund** (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received, and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as "profits") and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

This First Supplementary Prospectus is dated 1 June 2022 and must be read together with the Prospectus dated 15 February 2022.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where A is the total of the permitted expenses incurred for that basis period;

B is gross income consisting of dividend[1], interest and rent chargeable to tax for that basis period; and

C is the aggregate of the gross income consisting of dividend[1] and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

[1] Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

  All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest**

  (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;

  (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;

  (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;

  (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013[2];

  (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002[2];

  (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)[3]; and

  (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

- **Discount**

  Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

---

[2] Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the MITA shall not apply to a wholesale fund which is a money market fund.

[3] Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign sourced income

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will be subject to tax. Foreign sourced income (FSI) received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross, and from 1 July 2022 onwards at the prevailing tax rate(s) of the taxpayer. Bilateral or unilateral tax credit may be allowed if the same income has suffered foreign tax, and where relevant conditions are met. On 30 December 2021 the Ministry of Finance (MOF) issued a press statement stating that certain types of FSI of resident taxpayers will continue to be exempt from tax, subject to conditions. This exemption will apply to the foreign-sourced dividend income of companies and limited liability partnerships, and all FSI of individuals (except individuals carrying out business in Malaysia through a partnership). The tax exemption will be effective for five years from 1 January 2022 to 31 December 2026 and will be subject to conditions which will be outlined in guidelines issued by the Inland Revenue Board (IRB). Unit trusts were not included in the MOF press statement and the relevant IRB guidelines have yet to be issued.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax (SST) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and

2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. **Taxable distributions**

   Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

   Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

   Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. **Non-taxable and exempt distributions**

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the ITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
Malaysian tax resident:	
• Individual and non-corporate unit holders (such as associations and societies)	• Progressive tax rates ranging from 0% to 30%
• Co-operatives[4]	• Progressive tax rates ranging from 0% to 24%
• Trust bodies	• 24%

[4] Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society–
(a) in respect of a period of five years commencing from the date of registration of such co-operative society; and
(b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit,
is exempt from tax.

Unit holders	Malaysian income tax rates
• Corporate unit holders (i) A company with paid up capital in respect of ordinary shares of not more than RM2.5 million (at the beginning of the basis period for the year of assessment) and gross income from a source or sources consisting of a business not exceeding RM50 million for the basis period for the year of assessment[5] [6]	• First RM600,000 of chargeable income @ 17% • Chargeable income in excess of RM600,000 @ 24%
(ii) Companies other than (i) above	• 24%
Non-Malaysian tax resident (Note 1):	
• Individual and non-corporate unit holders	• 30%
• Corporate unit holders and trust bodies	• 24%

Note 1:
Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

[5] A company would not be eligible for the 17% tax rate on the first RM600,000 of chargeable income if:-
(a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
(b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
(c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

[6] The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders / dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits – new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

Investment Policy and Strategy	The Fund invests, directly and indirectly, in global Shariah-compliant equities, global Shariah-compliant equity-related securities (including Shariah-compliant ADRs, Shariah-compliant GDRs and Shariah-compliant warrants), global fixed and floating rate sukuk issued by governments, government agencies, supranationals and companies, Islamic money market instruments and Islamic deposits. The Fund may also invest in Islamic CIS, including but are not limited to, Islamic REITs and Islamic ETFs which may be based on commodities such as gold. The Fund will invest in markets where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions ("IOSCO"). <u>Equities and/or Islamic REITs</u> The Fund's investment in global Shariah-compliant equities and/or Islamic REITs could incorporate the following considerations:

FUND	Maybank Global Wealth Growth-I Fund
	a. Negative Screening The Fund will not invest in companies undertaking certain business activities or practices in accordance with but not limited to the Fund's Shariah Investment Guidelines. b. Positive Screening The Fund will invest in a high conviction portfolio of global Shariah-compliant equities of companies and/or Islamic REITs that demonstrate positive best in class sustainability characteristics. These include managing their businesses for the long term, recognising its responsibilities towards multiple stakeholders including its clients, employees, suppliers as well as the environment. The External Investment Manager believes such companies and/or Islamic REITs can result in sustainable long-term earnings growth and investment returns that may be underappreciated by the market. c. Thematic Investments The Fund will also seek to capture growth opportunities through Shariah-compliant thematic equities that could be related to sustainability. Such themes may include, but are not limited to, climate change, energy transition, food and water, sustainable cities, urbanisation and changing lifestyles. d. ESG Integration The External Investment Manager and/or the Investment Adviser will assess ESG factors when selecting investments for the Fund. These ESG factors take into consideration risk and opportunities that are relevant for the specific asset class, sector and market. Both qualitative and quantitative assessment will be performed using, but not limited to, proprietary tools, third party research, non-governmental organisation reports and expert networks. <u>Sukuk</u> The minimum credit rating for sukuk to be invested by the Fund will be B3 by Moody's or equivalent ratings by other international rating agencies for sukuk issued by sovereign government, province, supranational or government agency and Baa3 by Moody's or equivalent ratings by other international rating agencies for sukuk issued by companies. If the sukuk is rated by more than 1 rating agency, the lower rating will be used to determine the eligibility of the sukuk. In the event of a credit downgrade of the sukuk to below the stipulated minimum credit rating, we will endeavour to take the necessary steps to dispose of that sukuk. However, in order to best protect the interests of the Unit Holders, we have the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation. The Fund may also invest up to 20% of its NAV in unrated sukuk issued by a government or an entity wholly owned or explicitly guaranteed by a government provided the issuer satisfy the minimum credit rating of B3 by Moody's or equivalent ratings by other international rating agencies, and in unrated sukuk issued by subsidiaries or special purpose vehicles of Malaysian government linked corporations provided the issuer satisfy the minimum credit rating of Baa3 by Moody's or equivalent ratings by other international rating agencies. The Fund's investment in sub-investment grade sukuk (sukuk rated below Baa3 and unrated sukuk issued or guaranteed by governments below Baa3) must not exceed 20% of the Fund's NAV.

RISK FACTORS

FUND	Maybank Global Wealth Growth-I Fund
General Risks of Investing in the Fund	<u>Market Risk</u> Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV. We will monitor the financial markets closely and act on any adverse news accordingly. <u>Inflation Risk</u> This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

FUND	Maybank Global Wealth Growth-I Fund
	Liquidity Risk Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices. Financing Risk This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing repayments. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing. Manager's Risk This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us. Non-compliance Risk This risk refers to the possibility that we may not follow the provisions set out in this Prospectus or the Deed or the law, rules or guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. We aim to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines. Returns Are Not Guaranteed Investors should be aware that there is no guarantee of any returns, i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institution which carry a specific rate of return, the Fund does not provide a fixed rate of return.
Specific Risks of the Fund	Credit and Default Risk Credit risk relates to the creditworthiness of the issuers of the sukuk or Islamic money market instruments, and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk or Islamic money market instruments. In the case of rated sukuk or Islamic money market instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a sukuk or Islamic money market instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the sukuk or Islamic money market instruments. This could adversely affect the value of the Fund.

FUND	Maybank Global Wealth Growth-I Fund
	This risk is mitigated by investing in sukuk with credit rating of at least "B3" by Moody's or an equivalent rating by other international rating agencies for sukuk issued by sovereign government, province, supranational or government agency and Baa3 by Moody's or equivalent ratings by other international rating agencies for sukuk issued by companies and carrying out due diligence in the credit assessments of the investments. In the absence of a credit rating for the sukuk, the credit rating of the issuer issuing the sukuk will be used instead. Islamic deposits that the Fund has placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and profit foregone, causing the performance of the Fund to be adversely affected. Placements of Islamic deposits with financial institution will also be made based on prudent selection. <u>Stock Specific Risk</u> Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV. <u>Shariah-compliant Equity-related Securities Risk</u> The Fund may invest in Shariah-compliant equity-related securities equivalent to shares such as Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Shariah-compliant warrants that are not exercised at maturity will become worthless and will negatively affect the NAV of the Fund. The Fund's investment in Shariah-compliant ADRs and Shariah-compliant GDRs are also subject to the same risks as the equity shares of companies they are issued for and will fluctuate in value due to market, economic, political and other factors. Shariah-compliant ADRs and Shariah-compliant GDRs are exposed to counterparty risks in the handling of the depositary receipts, may have differing accounting regimes from underlying assets, additional regulatory scrutiny, and may face unequal voting rights or economic interests relative to underlying shares. The prices of Shariah-compliant ADRs and Shariah-compliant GDRs may diverge from the price of their underlying shares. Any adverse price movements of such Shariah-compliant ADRs and Shariah-compliant GDRs will adversely affect the Fund's NAV. <u>Profit Rate Risk</u> Profit rate risk refers to the impact of profit rate changes on the valuation of sukuk, Islamic money market instruments and Islamic deposits. When profit rates rise, sukuk' and Islamic money market instruments' prices generally decline and this may lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when profit rates fall. Profit rate fluctuations also affect the Islamic deposits' returns of the Fund. Profit rates offered by the financial institutions will fluctuate according to the overnight rate policy determined by Bank Negara Malaysia and this has direct

FUND	Maybank Global Wealth Growth-I Fund
	correlation with the Fund's investment in Islamic deposits. The Fund's future reinvestment in Islamic deposits will benefit from the higher profit rate and in the event of falling profit rates, the Fund's future investment in Islamic deposits will be reinvested at lower profit rates which in turn will reduce the Fund's potential returns. <u>Currency Risk</u> As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment. As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class will affect the Unit Holders' investments in those Classes. The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class may result in a depreciation of the Unit Holders' holdings as expressed in the base currency of the Fund. In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class. Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of the NAV of the Class. You should note that if the exchange rate moves favourably, the Class will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged Class. There is no guarantee that the hedging will be successful and mismatches may occur between the currency position of the Fund and the Class being hedged. <u>Country Risk</u> Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, if the Fund invests a significant portion of its assets in issuers located in a single country, a limited number of countries, or a particular geographic region, it assumes the risk that economic, political and social conditions in those countries or that region may have a significant impact on the Fund's investment performance. This in turn may cause the NAV of the Fund or prices of Units to fall.

FUND	Maybank Global Wealth Growth-I Fund
	OTC Counterparty Risk OTC counterparty risk is the risk associated with the other party to an OTC Islamic derivative transaction not meeting its obligations. If the counterparty to the OTC Islamic derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the Islamic derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC Islamic derivatives' counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund. Islamic Derivatives Risk Islamic derivatives, if any, will only be used for the purpose of hedging the Fund's portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against losses money, the act of hedging would have reduced the loss, if successfully hedged. Risk Associated with Investment in Islamic CIS Investing in Islamic CIS may be more costly to the Fund than if the Fund had invested in the underlying investments directly as the Fund will indirectly be paying the fees and expenses of the Islamic CIS in addition to the Fund's direct fees and expenses. Investing in other Islamic CIS may subject the Fund to the risk that (i) the valuations of the Fund may not reflect the true value of the underlying Islamic CIS at a specific time which could result in significant losses or inaccurate pricing for the Fund and/or (ii) the valuation of the underlying Islamic CIS may not be available as at the relevant valuation point for the Fund. The Fund's investments in Islamic CIS may also subject the Fund to additional risks (such as risk associated with the investment manager of the Islamic CIS) than if the Fund would have invested directly in the underlying investments of the Islamic CIS. The risk associated with the investment manager of the Islamic CIS includes but are not limited to the risk of non-adherence to the investment objective, strategy and policies of the Islamic CIS, the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems of the investment manager of the Islamic CIS, and the risk that the Islamic CIS may underperform due to poor investment decisions by the investment manager of the Islamic CIS. Investing in Islamic REITs involves many of the same risks associated with direct ownership of real estate, including but not limited to possible declines in real estate's value, increase in interest rates and real estate financing costs, changes in property taxes, higher operating expenses, and damages from natural or man-made disasters and fall in market rental rates. In addition, some real estate companies, including Islamic REITs, may utilise leverage. Financial leverage or debt financing (i.e. the use of financed money to increase exposure to investments without an increase in equity capital) may magnify both gains and losses of the Islamic REITs or profit and loss of companies in real estate sector. Consequently, these Islamic REITs prices may exhibit higher price volatility and thus, increase the volatility of the Fund's NAV.

FUND	Maybank Global Wealth Growth-I Fund
	Islamic ETFs are Islamic CIS designed to track a particular commodity, index or portfolio of Shariah-compliant securities, and are listed on a stock exchange. The following are the key risks of investing in Islamic ETFs: • Tracking Error Islamic ETFs are in general, designed to track or replicate the performance of a particular index. However, exact replication may not be possible owing to factors such as: i) fees and expenses of the Islamic ETF; ii) foreign exchange movements; iii) the Islamic ETF may not have been construed to be exactly the same as the index, thus resulting in differences between the weighting of Shariah-compliant securities in the index and the Islamic ETF. This is due to the fact that certain Shariah-compliant securities in the index may have been omitted from the Islamic ETF's holdings or Shariah-compliant securities not in the index may be included in the Islamic ETF. Consequently, there is some divergence between the return of the Islamic ETF and the index; and iv) corporate actions such as right issues. • Islamic ETFs Trading at a Premium or Discount While the net asset value of the Islamic ETF is a key factor influencing the price of the Islamic ETF, it is also determined by the investors' supply and demand on the secondary market. Thus, an Islamic ETF may be traded on the secondary market at a price that is at a discount or a premium to the net asset value of the Islamic ETF portfolio. This discrepancy may be accentuated in uncertain or volatile financial/economic conditions. Any adverse price movement of such Islamic CIS will adversely affect the Fund's NAV. <u>Reclassification of Shariah Status Risk</u> This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, we will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost. Please refer to "Shariah Investment Guidelines" below for details on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.
Risk Management Strategies	Risk management is an integral part of our investment management process. We and the External Investment Manager employ measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity or sukuk markets, as the case may be, and liquidity risks are high, the External Investment Manager may reduce the Fund's allocation in Shariah-compliant equities and Shariah-compliant equity-related securities or sukuk, as the case may be, and increase its asset allocation to Islamic liquid assets to safeguard the investment portfolio of the Fund. The Fund's exposure will also be spread across various countries, counterparties and companies as diversification strategy is also recognized by us and the External Investment Manager as an essential risk management strategy for the Fund.

FUND	Maybank Global Wealth Growth-I Fund
	In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by the us, the External Investment Manager and the Investment Adviser to ensure that the Fund's investment objective is met.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, Shariah advisers, stockbrokers or independent professional advisers for a better understanding of the risks.

FUND	Maybank Global Wealth Growth-I Fund
Shariah Investment Guidelines	The following are the Shariah Investment Guidelines for the Fund, which the External Investment Manager, is to strictly adhere to on a continuous basis. At all times, the Fund shall invest in investment instruments that are allowed under the Shariah principles and shall not invest in investment instruments that are prohibited by the Shariah principles based on the parameters of the applicable Shariah Advisory Council and the Shariah Adviser. **A. Investments** **1. Investment in Malaysia** ***Equity:*** The Fund will invest in listed equities based on a list of Shariah-compliant equities issued by the SACSC. For companies that have yet to be determined the Shariah status by the SACSC, the Shariah Adviser adopts the following analysis as a temporary measure in determining its Shariah status until the SACSC releases the Shariah status of the respective companies. (1) Qualitative analysis In this analysis, the Shariah Adviser will look into aspects of general public perception of the companies' images, core businesses which are considered important and *maslahah* (beneficial) to the Muslim *ummah* (nation) and the country. The non-permissible elements are very small and involve matters like *umum balwa* (common plight and difficult to avoid), '*uruf* (custom) and rights of the non-Muslim community which are accepted under the Shariah. (2) Quantitative analysis Companies which passed the above qualitative analysis will be further subjected to quantitative analysis. The Shariah Adviser deduces the following to ensure that the contribution of Shariah non-compliant businesses/activities to the overall revenue/sales/turnover/income and profit before tax of the companies are less than the following Shariah tolerable benchmarks: (a) Business activity benchmarks ❖ The 5 per cent benchmark would be applicable to the following business activities: • Conventional banking and lending; • Conventional insurance; • Gambling; • Liquor and liquor-related activities; • Pork and pork-related activities; • Non-halal food and beverages; • Shariah non-compliant entertainment; • Tobacco and tobacco-related activities; • Interest income from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitrator); • Dividends from Shariah non-compliant investments; and • Other activities considered non-compliant according to Shariah principles as determined by the SACSC.

FUND	Maybank Global Wealth Growth-I Fund
	❖ The 20 per cent benchmark would be applicable to the following activities: • Share trading; • Stockbroking business; • Rental received from Shariah non-compliant activities; and • Other activities considered non-compliant according to Shariah. The above-mentioned contribution of Shariah non-compliant businesses/activities to the overall revenue/sales/turnover/income and profit before tax of the companies will be calculated and compared against the relevant business activity benchmarks as stated above, i.e. must be less than 5 per cent and less than 20 per cent, respectively. (b) Financial ratio benchmarks The financial ratios applied are as follows: • Cash over total assets: Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation. • Debt over total assets: Debt will only include interest-bearing debt whereas Islamic financing or sukuk will be excluded from the calculation. Both ratios, which are intended to measure *riba'* and *riba'*-based elements within a company's statement of financial position, must be less than 33 per cent. Should any of the above deductions fail to meet the benchmarks, the Shariah Adviser will not accord Shariah-compliant status for the companies. **2. Investment in Foreign Markets** The Fund shall invest in securities listed under the list of Shariah-compliant securities issued by: • the local Shariah governing bodies of the respective countries such as Majelis Ulama Indonesia in Indonesia; and/or • any Shariah indices recognized internationally including but not limited to the Dow Jones Islamic Market Indices. Any foreign securities which are not certified by the local Shariah governing bodies of the respective countries or listed under the list of Shariah-compliant securities issued by the Shariah indices recognized internationally shall be determined in accordance with the ruling issued by the Shariah Adviser as follows: **(1) Sector-Based Screens** The Shariah Investment Guidelines do not allow investment in companies which are directly active in, or derive more than 5% of their revenue or

FUND	Maybank Global Wealth Growth-I Fund
	profit before taxation (cumulatively) from, the following activities ("prohibited activities"): • Alcohol; • Tobacco; • Pork-related products; • Conventional financial services (banking, insurance, etc.); • Weapons and defense; and • Entertainment (hotels, casinos/gambling, cinema, pornography, music, etc). **(2) Accounting-Based Screens** The accounting-based screens applied are as follows and must be less than 33%: (a) Total debt over trailing 24-months average market capitalization; (b) The sum of a company's cash and interest bearing securities divided by trailing 24-months average market capitalization; (c) Accounts receivables divided by trailing 24-months average market capitalization. Should any of the above deductions fail to meet the benchmarks, the Shariah Adviser will not accord Shariah-compliant status for the companies. **3. Shariah-compliant Equity-related Securities** The Fund will invest in equity-related securities as approved by the SACSC, the Shariah Adviser and/or Shariah boards of the relevant Shariah indices recognized internationally. **4. Sukuk** The Fund will invest in sukuk approved by the SACSC and/or the Shariah Adviser. **5. Islamic CIS** The Fund may invest in domestic and foreign Islamic CIS. The domestic Islamic CIS must be approved by the SC. For the foreign Islamic CIS, it must be approved by the Shariah Adviser upon review of the necessary and relevant documentation. **6. Islamic money market instruments** For investment in money market, the Fund may acquire any Islamic money market instruments based on the data available at: • Bond Info Hub (www.bondinfo.bnm.gov.my) • Fully Automated System for issuing/tendering) (https://fast.bnm.gov.my) The Fund may also invest into any other Islamic money market instruments deemed Shariah-compliant by the SACBNM or the Shariah Adviser. **7. Investment in Islamic Deposits** The Fund is prohibited from investing in interest-bearing deposits and recognizing any interest income.

FUND	Maybank Global Wealth Growth-I Fund
	8. Islamic Financial Derivatives Financial derivatives that are endorsed by other Shariah adviser(s) or Shariah committee(s) must be approved by the Shariah Adviser upon review of the relevant documents e.g. principal terms and conditions and Shariah pronouncements or approvals. **9. Any Other Shariah-compliant Investments** For avoidance of doubt, the documents relating to the Shariah liquidity management instrument should be submitted for prior approval by the Shariah Adviser. Where the Shariah Adviser request a change to the Shariah Investment Guidelines, it shall give the Manager a reasonable period of time to effect such change in the Prospectus in accordance with the requirements of any applicable law and regulation. **B. Cleansing Process for the Fund** ***Dividend Purification*** The cleansing process is the means by which all remaining elements of non-permissible income are removed or purged from a portfolio through dividend cleansing. The process applies mainly to non-permissible income as per Dow Jones screening methodology and should be disposed according to the same methodology of Dow Jones. The cleansed income shall be channelled to *Baitulmal and*/or any other charitable bodies as advised by the Shariah Adviser. ***Shariah non-compliant investment*** The Manager will immediately dispose of any Shariah non-compliant investment inadvertently made in the Fund. If the disposal of the Shariah non-compliant investment results in losses to the Fund, the losses are to be borne by the Manager by ensuring the loss portion is restored and returned to the Fund. The said investment will be disposed/withdrawn with immediate effect or within a period of not more than one month after becoming aware of the status of the investment. In the event that there are any capital gains or dividend received before or after the disposal of the investment, such gains will be channeled to *Baitulmal and*/or any other charitable bodies as advised by the Shariah Adviser. The Fund have the right to retain only the investment cost. ***Reclassification of Shariah status of the Fund's investment*** If securities are reclassified as Shariah non-compliant by the SACSC and/or the Shariah board of the Dow Jones Islamic Market Indices and/or any other relevant sources, as per the Shariah Adviser's advice, the said securities shall be disposed of soonest practical, once the total amount of dividends received and the market value held exceed or equal the investment costs. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of the Shariah non-compliant securities made at the time of the announcement/review can be kept by the Fund. However, any dividends received and excess capital gains derived from the disposal of Shariah non-compliant securities after the announcement/review day is to be channeled to *Baitumal* and/or any charitable bodies as advised by the Shariah Adviser.

FUND	Maybank Global Wealth Growth-I Fund
	On the other hand, the Fund is allowed to hold the investment in the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Fund to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Fund is advised to dispose of their holding. **C. Payment of Zakat** This refers to the purification by way of payment of zakat by Muslims. The Fund do not pay zakat on behalf of Muslim Unit Holders. Thus, Muslim Unit Holders are advised to pay zakat on their own. **The investment portfolio of the Fund will comprise instruments that have been classified as Shariah-compliant by the SACSC and, where applicable the SACBNM. For instruments that are not classified as Shariah-compliant by the SACSC and, where applicable the SACBNM, the status of the instruments has been determined in accordance with the ruling issued by the Shariah Adviser.**

(5) TRANSACTION INFORMATION

5.1 Bases of Valuation of Investments

Listed Shariah-compliant securities (including listed sukuk and listed Islamic CIS)
Listed Shariah-compliant securities will be valued daily based on the last done market price.

However, if:-
(a) a valuation based on the market price does not represent the fair value of the listed Shariah-compliant securities, for example during abnormal market conditions; or
(b) no market price is available, including in the event of a suspension in the quotation of listed Shariah-compliant securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

then the listed Shariah-compliant securities would be valued at fair value, as determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.

Unlisted sukuk
Investments in unlisted RM-denominated sukuk are valued each day based on the price quoted by bond pricing agency ("BPA") registered with the SC. Where we are of the view that the price quoted by BPA for a specific sukuk differs from the market price by more than 20 basis points, we may use the market price provided that we:

(i) record our basis for using a non-BPA price;
(ii) obtain the necessary internal approvals to use the non-BPA price; and
(iii) keep an audit trail of all decisions and basis for adopting the market yield.

Investments in other unlisted sukuk will be valued using the Bloomberg Generic Price ("BGN"). In the case where we are unable to obtain quotation from the BGN, such unlisted sukuk will be valued at fair value by reference to the average indicative yield quoted by 3 independent and reputable institutions. If the BGN is not available and we are unable to obtain quotation from 3 independent and reputable institutions, such unlisted sukuk will be valued at fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Islamic money market instruments
Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by BPA registered with the SC. Where we are of the view that the price quoted by BPA differs from the market price by more than 20 basis points, we may use the market price provided that we:

(a) record our basis for using a non-BPA price;
(b) obtain the necessary internal approvals to use the non-BPA price; and
(c) keep an audit trail of all decisions and basis for adopting the market yield.

For investments in Islamic money market instruments that are not quoted by BPA, such instruments are valued each day at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

Islamic deposits
Islamic deposits placed with financial institutions are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period.

Unlisted Islamic CIS
Investment in unlisted Islamic CIS will be valued based on the last published repurchase price.

Islamic derivatives
Islamic derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

Foreign Exchange Rate Conversion

Where the value of an asset of the Fund is denominated in a foreign currency (if any), the assets are translated on a daily basis to USD using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.

Any other Shariah-compliant investments
Fair value as determined in good faith by us or the External Investment Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

5.2 Valuation Point

The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of the next Business Day.

As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published two (2) Business Days later (i.e., the price will be two (2) days old).

5.3 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund's liabilities from the value of the Fund's assets at a valuation point.

Please note that the example below is for illustration only:

		USD
	Value of the Fund	100,000,000.00
Add :	Other assets (including cash) & income	1,400,000.00
Less :	Liabilities	200,000.00
	NAV before deducting management fee and trustee fee for the day	101,200,000.00
Less :	Management fee for the day (at 1.80% per annum calculated based on the NAV) USD101,200,000 X 1.80% / 365 days	4,990.68
Less :	Trustee fee for the day (at 0.04% per annum calculated based on the NAV) USD101,200,000.00 X 0.04% / 365 days	110.90
	Total NAV (USD)	**101,194,898.42**

The NAV per Unit of the Fund is calculated by dividing the total NAV of the Fund by the number of Units in circulation at the end of each Business Day.

Assuming there are 400,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit shall therefore be calculated as follows:

	NAV of the Fund (USD)	101,194,898.42
Divide:	Units in circulation	400,000,000
	NAV per Unit of the Fund (USD)	0.2530
	Conversion to MYR (at USD1:MYR4.00 exchange rate)	RM1.0120*

** The NAV per Unit will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.*

5.4 Pricing of Units

Single Pricing Regime
We adopt a **single pricing regime** in calculating your investments into the Fund and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). You would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

Selling Price of Units
The Selling Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the request to purchase Units is received by us (Forward Pricing). The sales charge applicable to the Class is payable by you in addition to the Selling Price for the Units purchased.

Calculation of Selling Price
Illustration – Sale of Units

Example:

If you wish to invest RM10,000.00 in MYR (Hedged) (Acc.) Class before 4.00 p.m. on any Business Day, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

Sales charge incurred $= \frac{\text{investment amount}}{1 + \text{sales charge (\%)}} \times \text{sales charge (\%)}$

$= \frac{\text{RM10,000}}{1 + 5.00\%} \times 5.00\%$

= RM476.19

Net investment amount = investment amount – sales charge
= RM10,000 – RM476.19
= RM9,523.81

Units credited to investor = net investment amount / NAV per Unit
= RM9,523.81 / RM0.5000
= 19,047.62 Units

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

Redemption Price of Units
The Redemption Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

Calculation of Redemption Price
Illustration – Redemption of Units

Example:

If you wish to redeem 10,000.00 Units from MYR (Hedged) (Acc.) Class before 4.00 p.m. on any Business Day, and if no redemption charge is imposed, the total amount to be paid to you will be as follows:

In the event that the NAV per Unit for MYR (Hedged) (Acc.) Class at the end of the Business Day = RM0.5000

Redemption charge payable by you = 0% x [10,000.00 Units x RM0.5000] = RM0.00

The total amount to be paid to you will be:
= the number of Units to be redeemed multiplied with the NAV per Unit less redemption charge.
= [10,000.00 Units x RM0.5000] – RM0.00
= **RM5,000.00**

Therefore, you will receive **RM5,000.00** as redemption proceeds.

5.5 Incorrect Pricing

We shall ensure that the Fund and the Units of the Class are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation and pricing of the Fund and/or Units, any incorrect valuation and pricing of the Fund and/or Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(i) by us to the Fund; or

(ii) by the Fund to you and/or the former Unit Holders.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.

5.10 Switching

You are permitted to switch from and to other funds managed by us provided that both funds are denominated in the same currency. Switching will be made at the prevailing NAV per Unit of the fund to be switched from on a Business Day when the switching request is received and accepted by us, subject to the availability and any terms and conditions imposed by the intended fund to be switched into, if any.

There is no restriction on the frequency of switching. However, you must meet the minimum Unit holdings (after the switch) of the fund that you intend to switch from unless you are redeeming all your investments from the fund.

If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charges of these 2 funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

For example:-

Scenario 1
If you invest in a fund with no sales charge and now wish to switch to another fund which has a sales charge of 1.00% on the net asset value per unit, you will be charged the difference in sales charge of 1.00% on the net asset value per unit of the fund being switched into in addition to the switching fee of the fund you switched from.

Scenario 2
If you invest in a fund with a sales charge of 1.00% on the net asset value per unit and now wish to switch to another fund which has no sales charge, you will not be charged any sales charge.

Any switching request made **on or before the cut off time of 4.00 p.m.** will be made at the NAV per Unit of the fund to be switched from when the switching request is received and accepted by us on a Business Day, subject to availability and any terms and conditions imposed by the intended fund, if any.

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

We reserve the right to vary the terms and conditions for switching from time to time, which shall be communicated to you in writing.

However, switching from an Islamic fund to a conventional fund is discouraged especially for Muslim Unit Holders.

Note: Our distributors may set an earlier cut-off time for receiving applications in respect of switching of Units. Please check with the respective distributors for their respective cut-off time.

Any application received on or before the cut-off time on a Business Day will be processed on the same Business Day based on the Forward Pricing of the Fund.

Any application received after the cut-off time on a Business Day will be treated as having been received on the next Business Day and will be processed on the next Business Day based on the next Forward Pricing of the Fund.

The above is in accordance with the standards issued by FIMM on the dealing cut-off time.

Note: Our distributors may set an earlier cut-off time for receiving applications in respect of any dealing in Units. Please check with the respective distributors for their respective cut-off time.

5.12 Notice of Cooling-off Period

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Prospectus in connection with the offer of units in the unit trust known as **Maybank Global Wealth Growth-I Fund** (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where A is the total of the permitted expenses incurred for that basis period;

B is gross income consisting of dividend[1], interest and rent chargeable to tax for that basis period; and

C is the aggregate of the gross income consisting of dividend[1] and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

  All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest**

  (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;

[1] Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

(ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;

(iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;

(iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013[2];

(v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002[2];

(vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)[3]; and

(vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

- **Discount**

  Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

[2] Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act, 1967 shall not apply to a wholesale fund which is a money market fund. Further, we understand that the Ministry of Finance has decided to withdraw the income tax exemption for corporate investors in Retail Money Market Funds, effective from 1 January 2022. The relevant legislative amendments have not yet been effected and are expected to be included in the Finance Bill 2021.

[3] Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and

2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. **Taxable distributions**

   Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

   Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

   Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. **Non-taxable and exempt distributions**

   Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates

• Individual and non-corporate unit holders (such as associations and societies)	• Progressive tax rates ranging from 0% to 30%

(b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit,
