ADDITIONAL STATEMENT

MAMG Global Environment Fund is a qualified Sustainable and Responsible Investment ("SRI") Fund under the Guidelines on Sustainable and Responsible Investment Funds.

This Product Highlights Sheet only highlights the key features and risks of the MAMG Global Environment Fund. Investors are advised to request, read and understand the disclosure documents before deciding to invest.

1. What is MAMG Global Environment Fund?

The Fund is Maybank Asset Management Sdn Bhd’s feeder fund. The Fund aims to achieve capital growth by investing in the BNP Paribas Funds Global Environment (“Target Fund”).

2. Fund Suitability

The Fund is suitable for investors who:

- intend to invest for the medium to long term; and
- are willing to tolerate the risks associated with investing in the Target Fund, including the risks of investing globally.

3. Investment Objective

The Fund aims to achieve capital growth by investing in the Target Fund.

4. Key Product Features

Fund Type	Growth.
Fund Category	Feeder Fund.
Performance Benchmark	MSCI World. <i>(Source: MSCI)</i> <i>Note: The performance benchmark is the benchmark of the Target Fund to allow for a similar comparison with the performance of the Target Fund. However, the risk profile of the Fund is different from the risk profile of the performance benchmark.</i>
Investment Strategy	<p>The Fund seeks to achieve its investment objective by investing a minimum of 90% of its net asset value (“NAV”) into the Class UI13 RH USD Capitalisation of the Target Fund. The Target Fund is a fund managed by Impax Asset Management Limited, which the management company of the Target Fund has delegated to. The Target Fund was established on 8 April 2008 and is domiciled in Luxembourg. It is a sub-fund of BNP Paribas Funds.</p> <p>As the Fund is a qualified SRI fund, the Fund invests in the Target Fund which incorporates sustainable investment policy at each step of the investment decision of the Target Fund to ensure that the Target Fund’s investments are in line with the sustainable principles adopted and the overall impact of such investments of the Target Fund is not inconsistent with any other sustainable principles. The investment manager of the Target Fund applies BNP Paribas Asset Management’s sustainable investment policy, which takes into account environmental, social and governance (“ESG”) criteria in the investment process of the Target Fund. If the investments of the Target Fund become inconsistent with its investment strategies and policies, the Target Fund will divest the investment based on market conditions not later than three months after communication of the update. Please refer to “Investment Policy of the Target Fund” under section 3.2 of the prospectus for further details.</p> <p>The Fund may employ currency hedging strategies to fully or partially hedge the foreign currency exposure to manage the currency risk.</p> <p>Although the Fund is passively managed by the Manager, the Manager will ensure proper and efficient management of the Fund so that the Fund is able to meet redemption requests by unit holders.</p> <p>The Manager may, in consultation with the Trustee and subject to unit holders’ approval, replace the Target Fund with another fund of a similar objective, if, in the Manager’s opinion, the Target Fund no longer meets the Fund’s investment objective. In the event that there is a change of the Target Fund, the Manager will ensure that the replacement of the Target Fund complies with the Guidelines on Sustainable and Responsible Investment Funds.</p>

5. Asset Allocation

Asset Type	% of the Fund's NAV
Target Fund	Minimum 90% of the Fund's NAV
Liquid assets*	2 - 10% of the Fund's NAV

* Liquid assets comprise of deposits with financial institutions and money market instruments.

6. Key Risks

Specific Risks of the Fund

Concentration Risk

As the Fund invests at least 90% of its NAV in the Target Fund, it is subject to concentration risk as the performance of the Fund would be dependent on the performance of the Target Fund.

Default Risk

Default risk relates to the risk that an issuer of a money market instrument or a financial institution which the Fund places deposit with either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the money market instruments and the performance of the Fund. This could affect the value of the Fund as up to 10% of the NAV of the Fund will be invested in liquid assets which comprise of deposits and money market instruments.

Deposits that the Fund placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and interest foregone, causing the performance of the Fund to be adversely affected. Placement with financial institutions will also be made based on prudent selection.

Counterparty Risk

Counterparty risk is the risk associated with the other party to an over-the-counter ("OTC") derivative transaction not meeting its obligations. If the counterparty to the OTC derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC derivatives' counterparty, the Manager will evaluate the situation and reassess the creditworthiness of the counterparty. The Manager will take the necessary steps in the best interest of the Fund.

Country Risk

The investment of the Fund may be affected by risk specific to the country in which it invests in. Such risks include changes in a country's economic, social and political environment. The value of the assets of the Fund may also be affected by uncertainties such as currency repatriation restrictions or other developments in the law or regulations of the country in which the Fund invest in, i.e. Luxembourg, the domicile country of the Target Fund.

Currency Risk

As the base currency of the Fund is denominated in USD and the currency denomination of the class of Units ("Class(es)") may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class) will affect the unit holder's investments in those Classes (other than USD Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD Class) may result in a depreciation of the unit holder's holdings as expressed in the base currency of the Fund.

In order to manage currency risk, the Manager may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class other than MYR Class and USD Class. However, every hedge comes with a cost and will be borne by the respective Class.

Please refer to section 3.1 of the prospectus for more information on currency risk.

Investment Manager Risk

The Fund will invest in the Target Fund managed by a foreign asset management company. This risk refers to the risk associated with the management company of the Target Fund ("Management Company") and investment manager of the Target Fund ("Investment Manager"), which include:

- i) the risk of non-adherence to the investment objective, strategy and policies of the Target Fund;

- ii) the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems by the Management Company and Investment Manager; and
- iii) the risk that the Target Fund may underperform its benchmark due to poor investment decisions by the Management Company and Investment Manager.

Temporary Suspension of the Target Fund Risk

The Fund's right to redeem its shares of the Target Fund may be temporarily suspended in the circumstances set out in section 3.2 of the prospectus under the heading "Suspension of the Calculation of Net Asset Value of the Target Fund and the Issue, Conversion and Redemption of Shares". If the right of the Fund to redeem its shares of the Target Fund is temporarily suspended, the Fund may be affected if the Fund does not have sufficient liquidity and the Manager has exhausted all possible avenues in managing the liquidity of the Fund to meet redemption request from the Unit Holder. In such circumstances, the Manager will suspend the redemption of Units of the Fund. Any redemption request received by the Manager during the suspension period will only be accepted and processed on the next business day after the cessation of suspension of the Fund.

Derivatives Risk

Derivatives, if any, will only be used for the purpose of hedging the Fund's portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against loses money, the act of hedging would have reduced the loss, if successfully hedged.

Specific Risks of the Target Fund

Sustainability Risks

Unmanaged or unmitigated sustainability risks can impact the returns of financial products. For instance, should an ESG event or condition occur, it could cause an actual or a potential material negative impact on the value of an investment. The occurrence of such event or condition may lead as well to the reshuffle of the Target Fund's investment strategy, including the exclusion of securities of certain issuers. Specifically, the likely impact from sustainability risks can affect issuers via a range of mechanisms including: 1) lower revenue; 2) higher costs; 3) damage to, or impairment of, asset value; 4) higher cost of capital; and 5) fines or regulatory risks. Due to the nature of sustainability risks and specific topics such as climate change, the chance of sustainability risks impacting the returns of financial products is likely to increase over longer term time horizons.

To ensure the sustainable investments that the Target Fund intends to make do not cause significant harm to any environmental or social sustainable objective, the Target Fund assesses each investment against a set of indicators of adverse impacts by conducting proprietary fundamental ESG analysis for all portfolio holdings. The ESG analysis aims to identify the quality of governance structures, the most material environmental and social harms for a company or issuer and assesses how well these harms are addressed and managed. The Investment Manager seeks robust policies, processes, management systems and incentives as well as adequate disclosure, as applicable.

Additionally, the Investment Manager assesses any past controversies identified. A proprietary aggregate ESG score is then assigned for each company or issuer taking into account the predetermined indicators based on a qualitative judgement. Where sufficient ESG quality is not achieved, a company or issuer is excluded from the Target Fund's investable universe. The Investment Manager considers it important to engage with companies and issuers and to analyse the company's and issuer's disclosures and reports. The ESG process is proprietary to the Investment Manager, although the Investment Manager uses external ESG-research as an input. Please refer to the "Investment Policy and Strategy of the Target Fund - Sustainability Investment Policy" under section 3.2 of the prospectus for further details on the sustainable investment approach adopted by the Target Fund.

The Management Company of the Target Fund has fully integrated ESG in its investment process at all times to manage and mitigate the sustainability risk, its ESG analysis applies to at least 90% of the issuers in the portfolio of the Target Fund and along with its thematic focus would lead to a reduction of at least 20% of the investment universe, being companies conducting significant part of their business in environmental markets.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.

For more details, please refer to section 3 and section 14 in the prospectus for the general and specific risks of investing in the Fund and the specific risks of the Target Fund.

Note: If your investments are made through an institutional unit trust scheme adviser (“Distributor”) which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognize the Distributor as a unit holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed.

7. Valuation of Investment

The Fund is valued once every business day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of the next business day.

As such, the daily price of the Fund for a particular business day will not be published on the next business day but will instead be published 2 business days later (i.e., the price will be 2 days old).

Investors will be able to obtain the unit price of the Fund from www.maybank-am.com.my. Alternatively, the Manager’s client servicing personnel can be contacted at 03-2297 7888.

8. Exiting from Investment

Submission of Redemption Request	The cut-off time for redemption of units shall be at 4.00 p.m. on a business day. <i>Note: The Manager’s distributors may set an earlier cut-off time for receiving applications in respect of any dealing in units. Please check with the respective distributors for their respective cut-off time.</i>
Payment of Redemption Proceeds	As the Fund is a feeder fund which invests substantially in the Target Fund and offers Classes denominated in currencies that are different from the base currency of the Fund, the redemption amount received by the Fund may be subject to currency conversion before the redemption proceed is paid to you. As such, you shall be paid within 5 business days from the Fund’s receipt of the redemption proceeds from the Target Fund, which would be within 9 business days from the date the redemption request is received by the Manager. However, if the redemption application submitted by the Fund to the Target Fund is deferred / split on a pro-rata basis due to the total net redemption applications received by the Target Fund on a valuation day of the Target Fund equals or exceeds 10% of the net assets of the Target Fund, the redemption amount will be received by the Fund as and when redemption is made by the management company of the Target Fund on a staggered basis. In such circumstance, the Manager will mirror the redemption process of the Target Fund and disburse the redemption proceeds to the unit holders on a staggered basis as well, which would take up to 8 business days from the day the Target Fund redeems the shares pursuant to the Fund’s redemption application. Please refer to section 5.8 of the prospectus for more information on redemption of units.
Remittance of Redemption Proceeds	The Manager shall remit the redemption proceeds to the account held in the name of the unit holder(s).

9. Fund Performance

Note: The performance for AUD (Hedged) Class is not available as there is no investor in AUD (Hedged) Class as at financial year ended 30 April 2023.

1. The average total returns of the Fund

Note: Basis of calculation and assumption made in calculating the returns:

$$\text{Performance return} = \frac{\text{NAV } t - \text{NAV } t-1}{\text{NAV } t-1}$$

$$\text{Annualised performance return} = (1 + \text{performance return})^{\left(\frac{\text{number of period per year}}{\text{total no. of periods}}\right)} - 1$$

NAV t refers to NAV at the end of the period.

NAV t-1 refers to NAV at the beginning of the period.

Average total return for the financial year ended 30 April
