

PRODUCT HIGHLIGHTS SHEET

MAYBANK GLOBAL MIXED ASSETS-I FUND ("the Fund")

Date of Issuance: 15 April 2025

RESPONSIBILITY STATEMENT

This Product Highlights Sheet has been reviewed and approved by the directors of Maybank Asset Management Sdn Bhd and they collectively and individually accept full responsibility for the accuracy of the information. Having made all reasonable inquiries, they confirm to the best of their knowledge and belief, that there are no false or misleading statements or omission of other facts which would make any statement in the Product Highlights Sheet false or misleading.

STATEMENT OF DISCLAIMER

The Securities Commission Malaysia has authorised the issuance of Maybank Global Mixed Assets-I Fund and a copy of this Product Highlights Sheet has been lodged with the Securities Commission Malaysia.

The authorisation of the Maybank Global Mixed Assets-I Fund and lodgement of this Product Highlights Sheet, should not be taken to indicate that the Securities Commission Malaysia recommends the Maybank Global Mixed Assets-I Fund or assumes responsibility for the correctness of any statement made or opinion or report expressed in this Product Highlights Sheet.

The Securities Commission Malaysia is not liable for any non-disclosure on the part of Maybank Asset Management Sdn Bhd responsible for the Maybank Global Mixed Assets-I Fund and takes no responsibility for the contents of this Product Highlights Sheet. The Securities Commission Malaysia makes no representation on the accuracy or completeness of this Product Highlights Sheet, and expressly disclaims any liability whatsoever arising from, or in reliance upon, the whole or any part of its contents.

This Product Highlights Sheet only highlights the key features and risks of the Maybank Global Mixed Assets-I Fund. Investors are advised to request, read and understand the disclosure documents before deciding to invest.

1. What is Maybank Global Mixed Assets-I Fund?

The Fund is Maybank Asset Management Sdn Bhd's Islamic mixed assets fund. The Fund seeks to achieve a target net return of 6% per annum in United States Dollar ("USD") terms over medium to long term*.

Note:

* Medium term means a period between three (3) to five (5) years and long term means a period of more than five (5) years.

2. Fund Suitability

The Fund is suitable for investors who:

- have long term investment horizon;
- seek potential long term capital growth;
- seek opportunity to invest in a diversified portfolio of Shariah-compliant global assets; and
- are willing to tolerate the risks associated with investing in Shariah-compliant global assets.

3. Investment Objective

The Fund seeks to achieve a target net return of 6% per annum in USD terms over medium to long term.

4. Key Product Features

Fund Type	Growth.
Fund Category	Mixed assets (Islamic).
Performance Benchmark	Absolute return of 6% per annum (in USD term), net of fees, over medium to long term. <i>Please refer to the Manager's website for information on the Fund's performance benchmark.</i> <i>Note: The risk profile of the Fund is different from the risk profile of the performance benchmark.</i>
Investment Strategy	<p>The Fund invests, directly or indirectly, in global Shariah-compliant equities (including Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts), global Shariah-compliant equity related securities (including Shariah-compliant warrants), global fixed and floating rate sukuk issued by governments, government agencies, supra-nationals and companies, Islamic money market instruments and Islamic deposits.</p> <p>The Fund may also invest in Islamic collective investment schemes, including but are not limited to, Islamic Real Estate Investment Trusts ("REITs") and Islamic exchange-traded-funds ("ETFs") which may be based on commodities such as gold. In addition, the Islamic collective investment schemes which the Fund may invest in may have investment in derivatives which are limited for hedging purposes only.</p> <p>The Fund will invest in eligible markets.</p> <p>The minimum credit rating for sukuk to be invested by the Fund will be B3 by Moody's or equivalent ratings by other international/global rating agencies for sukuk issued by sovereign government, province, supranational or government agency and Baa3 by Moody's or equivalent ratings by other international/global rating agencies for sukuk issued by companies. If the sukuk is rated by more than one (1) rating agency, the lower rating will be used to determine the eligibility of the sukuk. In the event of a credit downgrade of the sukuk to below the stipulated minimum credit rating, the Manager will endeavour to take the necessary steps to dispose of that sukuk. However, in order to best protect the interests of the unit holders, the Manager has the discretion to take into consideration all relevant</p>

	<p>factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.</p> <p>The Fund may also invest up to 20% of its net assets value (“NAV”) in unrated sukuk issued by a government or an entity wholly owned or explicitly guaranteed by a government provided the issuer satisfy the minimum credit rating of B3 by Moody’s or equivalent ratings by other international/global rating agencies, and in unrated sukuk issued by subsidiaries or special purpose vehicles of Malaysian government linked corporations provided the issuer satisfy the minimum credit rating of Baa3 by Moody’s or equivalent ratings by other international/global rating agencies. The Fund’s investment in sub-investment grade sukuk (sukuk rated below Baa3 and unrated sukuk issued or guaranteed by governments rated below Baa3) must not exceed 20% of the Fund’s NAV.</p> <p>The external investment manager of the Fund (“External Investment Manager”) and/or investment adviser of the Fund (“Investment Adviser”) seek to adopt a dynamic asset allocation approach, which involves adjusting the Fund’s portfolio allocation to various asset classes according to prevailing market conditions.</p> <p><u>Equity</u></p> <p>In addition to being Shariah-compliant, the equities portfolio is constructed with a focus on stock selection, particularly in companies which the External Investment Manager and/or Investment Adviser has a high conviction that the current share price does not reflect the future prospects for that business. The External Investment Manager and/or Investment Adviser seek to identify companies which they believe will deliver future earnings growth above the level expected by the market typically on a three (3) - five (5) years horizon (the Manager term this as ‘a positive growth gap’). The equity investments are also managed with reference to material environmental, social and governance factors. This means issues such as climate change, environmental performance, labour standards or board composition that could impact a company’s value may be considered in the assessment of companies.</p> <p><u>Sukuk</u></p> <p>The Fund invests in global sukuk approved by the Shariah adviser of the Fund (“Shariah Adviser”) and having diversified exposure to risk factors such as duration strategy, interest rates movements, region/country, sector/industrial exposures relative to the benchmark.</p> <p>The Fund will use Islamic derivatives such as Islamic currency forwards for hedging purposes to manage the currency risk of the classes not denominated in USD. The Fund’s exposure to Islamic derivatives, if any, will be calculated based on the commitment approach as disclosed in the prospectus under the heading “Use of Islamic Derivatives”.</p>

	100 units	10,000 units	100 units	100 units
^or such other lower number of units as determined by the Manager from time to time.				
Distribution Policy	<p>The Fund endeavours to distribute income on an annual basis.</p> <p>Subject to the provisions of the deed of the Fund, the Fund may distribute from realised income, realised gains and/or capital to enable the Fund to distribute income on a regular basis in accordance with the distribution policy of the Fund. Any declaration and payment of distribution will have the effect of lowering the NAV of the Fund.</p> <p>Distribution out of the Fund's capital has a risk of eroding the capital of the Fund. It may reduce the Fund's capital available for future investment and the Fund's potential for future income generation; it may also cause the NAV of the Fund to fall over time. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.</p>			

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

5. Asset Allocation

Asset Type	% of the Fund's NAV
Shariah-compliant equities and Shariah-compliant equity related securities*	30% - 80%
Sukuk	20% - 60%
Islamic collective investment schemes**	Up to 20%
Islamic liquid assets***	Up to 20%

Notes:

* Shariah-compliant equity related securities include Shariah-compliant American Depositary Receipts, Shariah-compliant Global Depositary Receipts and Shariah-compliant warrants.

*** Islamic collective investment schemes include but are not limited to Islamic REITs and Islamic ETFs which may be based on commodities such as gold.*

**** Islamic liquid assets comprise of Islamic money market instruments and Islamic deposits.*

6. Key Risks

Specific Risks of the Fund

Stock Specific Risk

Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.

Credit and Default Risk

Credit risk relates to the creditworthiness of the issuers of the sukuk or Islamic money market instruments and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk or Islamic money market instruments. In the case of rated sukuk or Islamic money market instruments, this may lead to a credit downgrade. Default risk refers to the possibility that the issuer of the sukuk or Islamic money market instrument is unable to make timely or full payments of principal and/or profit when due. In the event of a default in payment of principal and/or profit, this may cause a reduction in the value of the Fund. The Manager will endeavour to take the necessary steps to deal with the investments in the best interest of the unit holders including to dispose of the defaulted investments within a time frame deemed reasonable by the Manager.

Currency Risk

As the base currency of the Fund is denominated in USD and the currency denomination of the classes may be denominated in other than USD, the classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the class (other than USD Class and USD (Institutional) (Distribution) Class) will affect the unit holder's investments in those classes (other than USD Class and USD (Institutional) (Distribution) Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the class (other than USD Class and USD (Institutional) (Distribution) Class) may result in a depreciation of the unit holder's holdings as expressed in the base currency of the Fund.

In order to manage currency risk, the Manager may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective class.

Currency hedging may reduce the effect of the exchange rate movement for the class being hedged (other than MYR Class, MYR (Institutional) (Distribution) Class, USD Class and USD (Institutional) (Distribution) Class) but it does not entirely eliminate currency risk between the class and the base currency of the Fund. The unhedged portion of the class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the class. Unit holders should note that if the exchange rate moves favourably, the class (other than MYR Class, MYR (Institutional) (Distribution) Class, USD Class and USD (Institutional) (Distribution) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.

Profit Rate Risk

Profit rate risk refers to the impact of profit rate changes on the valuation of sukuk and Islamic money market instruments. When profit rates rise, sukuk and Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when profit rates fall.

In order to mitigate profit rate risk, the Manager will need to manage the sukuk and Islamic money market instruments portfolio by taking into account the profit rate and time to maturity of the sukuk and Islamic money market instruments.

Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of units to fall.

Reclassification of Shariah Status Risk

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the Shariah Advisory Council of the Securities Commission Malaysia, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost. Please refer to “Shariah Investment Guidelines” in the prospectus for details on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.

Shariah-compliant Equity Related Securities Risk

The Fund may invest in Shariah-compliant equity related securities equivalent to shares such as Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Shariah-compliant warrants that are not exercised at maturity will become worthless and negatively affect the NAV of the Fund.

The Fund’s investment in Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts are also subject to the same risks as the equity shares of companies they are issued for and will fluctuate in value due to market, economic, political and other factors. Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts are exposed to counterparty risks in the handling of the depositary receipts, may have differing accounting regimes from underlying assets, additional regulatory scrutiny, and may face unequal voting rights or economic interests relative to underlying shares. The prices of Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts may diverge from the price of their underlying shares. Any adverse price movements of such Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts will adversely affect the Fund’s NAV.

Islamic Derivatives Risk

Islamic derivatives, if any, will only be used for the purpose of hedging the Fund’s portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against losses money, the act of hedging would have reduced the loss, if successfully hedged.

Counterparty Risk

Counterparty risk refers to a risk that relates to the credit standing of counterparties when over-the-counter transactions are carried out and is generally not applicable to transactions performed through exchanges. In the event where counterparties of a contract fail to live up to its contractual obligations, the Fund will suffer from financial losses. The Fund seeks to reduce this risk by performing fundamental credit research and analysis to determine the creditworthiness of the counterparties, prior to commencement of the investment.

Should there be a downgrade in the credit rating of the over-the-counter derivatives' counterparty, the Manager will evaluate the situation and reassess the creditworthiness of the counterparty. The Manager will take the necessary steps in the best interest of the Fund.

Distribution Out of Capital Risk

The Fund may distribute income out of its capital. The declaration and payment of distribution may have the effect of lowering the NAV of the Fund. In addition, distribution out of the Fund's capital may reduce part of the unit holders' original investment and may also result in reduced future returns to unit holders.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, Shariah advisers, stockbrokers or independent professional advisers for a better understanding of the risks.

For more details, please refer to section 3 in the prospectus for the general and specific risks of investing in the Fund.

Note: If your investments are made through an institutional unit trust scheme adviser ("Distributor") which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognise the Distributor as a unit holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed.

7. Valuation of Investment

The Fund is valued once every business day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of the next business day.

As such, the daily price of the Fund for a particular business day will not be published on the next business day but will instead be published two (2) business days later (i.e., the price will be two (2) days old).

Investors will be able to obtain the unit price of the Fund from www.maybank-am.com.my. Alternatively, the Manager's client servicing personnel can be contacted at 03-2297 7888.

8. Exiting from Investment

Submission of Redemption Request	The cut-off time for redemption of units shall be at 4.00 p.m. on a business day. <i>Note: The Manager's distributors may set an earlier cut-off time for receiving applications in respect of any dealing in units. Please check with the respective distributors for their respective cut-off time.</i>
Payment of Redemption Proceeds	Redemption proceeds will be paid out within seven (7) business days from the date the redemption request is received by the Manager.
Remittance of Redemption Proceeds	The Manager shall remit the redemption proceeds to the account held in the name of the unit holder(s).

9. Fund Performance

1. The average total returns of the Fund

Note: Basis of calculation and assumption made in calculating the returns:

$$\text{Performance return} = \frac{\text{NAV } t - \text{NAV } t-1}{\text{NAV } t-1}$$

$$\text{Annualised performance return} = (1 + \text{performance return})^{\left(\frac{\text{number of period per year}}{\text{total no. of periods}}\right)} - 1$$

NAV *t* refers to NAV at the end of the period.

NAV *t-1* refers to NAV at the beginning of the period.

Average total return for the financial year ended 31 October

MYR Class	1-year	3-years	5-years	Since Inception
Fund	10.54	1.99	6.94	7.38

Benchmark	1.90%	6.00%	6.00%	6.00%	6.00

Note: *4-months period from 3 July 2020 (commencement date)

USD (Institutional) (Distribution) Class	2020*	2021	2022	2023	2024
Fund	-1.04%	21.68%	(18.93%)	52.71%	21.83
Benchmark	0.49%	6.00%	6.00%	6.00%	6.00

Note: *1-month period from 30 September 2020 (commencement date)

The total return of the Fund is based on the following calculation:

Capital return =	NAV per unit at the end of the period NAV per unit at the beginning of the period	-1
Income return =	Income distribution per unit NAV per unit on ex-date	
Total return =	(1 + Capital return) x (1 + Income return) - 1	

1-Year Fund performance review

MYR Class registered a total return of 10.54% against its benchmark's return of 6.00%, thus outperformed the benchmark by 4.54%.

MYR (Hedged) Class registered a total return of 16.90% against its benchmark's return of 6.00%, thus outperformed the benchmark by 10.90%.

USD Class registered a total return of 20.18% against its benchmark's return of 6.00%, thus outperformed the benchmark by 14.18%.

AUD (Hedged) Class registered a total return of 17.95% against its benchmark's return of 6.00%, thus outperformed the benchmark by 11.95%.

SGD (Hedged) Class registered a total return of 17.34% against its benchmark's return of 6.00%, thus outperformed the benchmark by 11.34%.

USD (Institutional)(Distribution) Class registered a total return of 21.83% against its benchmark's return of 6.00%, thus outperformed the benchmark by 15.83%.

III. Portfolio turnover ratio ("PTR") as at 31 October

Portfolio turnover is a measure of the volume of trading undertaken by a fund in relation to the fund's size.

2022	2023	2024*
0.96	0.96	0.56

*The PTR decreased to 0.58 times due to lower in trading activities during the current financial year under review.

IV. Distribution as at 31 October

MYR Class	2022	2023	2024
Gross distribution per unit	Nil	RM0.024	RM0.0078
