Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Fourth Supplementary Prospectus in connection with the offer of units in the unit trust known Maybank Asia Mixed Assets-I Fund (hereinafter referred to as “the Fund”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

A member firm of Ernst & Young Global Limited

This Fourth Supplementary Prospectus is dated 15 April 2025 and must be read together with the Prospectus dated 16 August 2021, the First Supplementary Prospectus dated 25 August 2022, the Second Supplementary Prospectus dated 8 May 2023 and the Third Supplementary Prospectus dated 8 January 2024.

The effect of this is that any gains or profits received (hereinafter referred to as "profits") and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as "permitted expenses") not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- ▶ the manager's remuneration,
- ▶ maintenance of the register of unit holders,
- ▶ share registration expenses,
- ▶ secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Foreign-sourced income (FSI)

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax.

Based on the Malaysian Inland Revenue Board's "Guidelines on Tax Treatment in Relation to Income Received from Abroad (Amendment)" updated on 20 June 2024, the term "received in Malaysia" means transferred or brought into Malaysia, either by way of cash⁴ or electronic funds transfer⁵.

FSI received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax⁶, and where relevant conditions are met.

The Income Tax (Unit Trust in relation to Income Received In Malaysia from Outside Malaysia) (Exemption) Order 2024 [P.U.(A) 250] has been issued to exempt a "qualifying unit trust"⁷ from the payment of income tax in respect of gross income from all sources of income under Section 4 of the MTA (including capital gains classified under Section 4(aa)), which is received in Malaysia from outside Malaysia.

This exemption applies to FSI received in Malaysia from 1 January 2024 to 31 December 2026, subject to the following conditions being complied with by the qualifying unit trust or the management company⁸ of the qualifying unit trust:

- ▶ The income received in Malaysia has been subject to tax of a similar character to income tax under the laws of territory from which the income arose; and
- ▶ The highest rate of tax of a similar character to income tax under the law of that territory at that time is not less than 15%.

⁴ "Cash" in this context is defined as banknotes, coins and cheques.

⁵ "Electronic funds transfer" means bank transfers (e.g., credit or debit transfers), payment cards (debit card, credit card and charge card), electronic money, privately-issued digital assets (e.g., crypto-assets, stablecoins) and central bank digital currency.

⁶ "Foreign tax" includes withholding tax

⁷ "Qualifying unit trust" in this context means a unit trust resident in Malaysia that is:

- (a) managed by a management company;
- (b) has income received in Malaysia from outside of Malaysia; and
- (c) does not include a unit trust which is approved by the Securities Commission as Real Estate Investment Trust or Property Trust Fund listed on Bursa Malaysia.

⁸ "Management company" means a company licensed by the Securities Commission by which or on whose behalf a unit of a qualifying unit trust -

This Fourth Supplementary Prospectus is dated 15 April 2025 and must be read together with the Prospectus dated 16 August 2021, the First Supplementary Prospectus dated 25 August 2022, the Second Supplementary Prospectus dated 8 May 2023 and the Third Supplementary Prospectus dated 8 January 2024.

- The management company of the qualifying unit trust shall employ an adequate number of employees in Malaysia and incur an adequate amount of operating expenditure in Malaysia.

The exemption will not apply to a unit trust carrying on the business of banking, insurance or sea or air transport.

Gains from the realisation of investments

Pursuant to the Finance (No. 2) Act 2023 ("Finance Act"), gains from the realisation of investments by a unit trust would no longer be exempt from tax. Pursuant to Section 61(1)(b) of the MITA, gains arising from the realisation of investments shall be treated as income of a unit trust under Section 4(aa) of MITA, provided that such gains are not related to real property as defined in the Real Property Gains Tax Act 1976. Section 4(aa) provides that gains or profits from the disposal of a capital asset are to be treated as a class of income. The tax imposed on such income under the MITA is commonly referred to as "capital gains tax" (CGT).

Based on the MITA, the following will be subject to Malaysian CGT:

Capital assets situated in Malaysia

- a) Gains or profits from the disposal of shares of a company incorporated in Malaysia not listed on the stock exchange (including any rights or interests thereof) owned by a company, limited liability partnership, trust body or co-operative society
- b) Gains or profits, accruing to a company, limited liability partnership, trust body or co-operative society, on the disposal of shares in foreign incorporated controlled companies deriving value from real property in Malaysia, as determined based on the relevant provisions of the MITA.

Capital assets situated outside Malaysia

- c) Gains or profits from the disposal of movable or immovable property situated outside Malaysia including any rights or interests thereof. Such gains will only be subject to tax when the gains are received in Malaysia.

Note:

Pursuant to the Income Tax (Exemption) (No.3) Order 2024 [P.U.(A) 75], a trust body is exempted from payment of income tax in respect of gains or profits from the disposal of capital asset arising from outside Malaysia which is received in Malaysia. This exemption applies for such disposals from 1 January 2024 to 31 December 2026 subject to the following conditions being complied with by the trust body:

- employ an adequate number of employees in Malaysia with necessary qualifications to carry out the specified economic activities in Malaysia; and

A member firm of Ernst & Young Global Limited

This Fourth Supplementary Prospectus is dated 15 April 2025 and must be read together with the Prospectus dated 16 August 2021, the First Supplementary Prospectus dated 25 August 2022, the Second Supplementary Prospectus dated 8 May 2023 and the Third Supplementary Prospectus dated 8 January 2024.

- ▶ incur an adequate amount of operating expenditure for carrying out the specified economic activities in Malaysia.

Note that this exemption order applies to companies, limited liability partnerships, co-operative societies and trust bodies, whilst the (Income Tax (Unit Trust in relation to Income Received in Malaysia from Outside Malaysia) (Exemption) Order 2024 [P.U.(A) 250] (as referred above) applies specifically to qualifying unit trusts.

The Finance Act provides an effective date of 1 January 2024 for the above changes to the MITA. However, pursuant to the Income Tax (Exemption) (No. 7) Order 2023 [P.U.(A) 410] and the Income Tax (Exemption) (No. 2) Order 2024 [P.U.(A) 57], taxpayers, including a trust body, are exempted from the payment of income tax in respect of any gains or profits received from the disposal of capital assets situated in Malaysia (see Item (a) and (b) above) where such disposals occur between 1 January and 29 February 2024.

In addition to the above, the Income Tax (Unit Trust) (Exemption) Order 2024 [P.U.(A) 249] exempts a qualifying unit trust⁹ resident in Malaysia from the payment of income tax in respect of any gains or profit received from the disposal of shares of a company incorporated in Malaysia which is not listed on the stock exchange and from the disposal of shares under section 15C of the MITA where such disposals occur between 1 January 2024 to 31 December 2028.

The exemption will not apply to gains or profits from the disposals of capital asset that fall under Section 4(a) of the MITA, as business income.

CGT rates

As noted above, various tax exemptions are available to a qualifying unit trust. For completeness, if exemptions did not apply, the relevant tax rates of the gains of the disposal of capital assets are as below:

	Tax rates
A. Disposal of capital assets situated in Malaysia which was acquired before 1 January 2024

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to service tax¹⁰ provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

¹⁰ Pursuant to Service Tax (Rate of Tax) (Amendment) Order 2024 [P.U. (A) 64], the service tax rate is increased from 6% to 8% with effect from 1 March 2024 on generally all of the taxable services except for provision of food and beverage services, telecommunication services, parking space and logistics services.

This Fourth Supplementary Prospectus is dated 15 April 2025 and must be read together with the Prospectus dated 16 August 2021, the First Supplementary Prospectus dated 25 August 2022, the Second Supplementary Prospectus dated 8 May 2023 and the Third Supplementary Prospectus dated 8 January 2024.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount. See however item 2 below on certain distributions which are not taxable to unit holders.

Such taxable distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holders.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the MITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

As stated above, with effect from 1 January 2024 (1 March 2024 for disposals of shares of a company incorporated in Malaysia not listed on the stock exchange), gains arising from the realisation of investments shall be treated as income of the Fund under Section 4(aa), pursuant to the proviso of Section 61(1)(b) of MITA.¹² However, pursuant to Section 61(1A) of MITA, unit holders will still not be charged to tax on the gains referred to in the proviso to Section 61(1)(b).

1. **Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 9 of the Prospectus**

The “Distribution Out of Capital Risk” is hereby inserted immediately after the “Islamic Derivatives Risk” under specific risks of the Fund as follows:

Distribution Out of Capital Risk

The Fund may distribute income out of its capital. The declaration and payment of distribution may have the effect of lowering the NAV of the Fund. In addition, distribution out of the Fund’s capital may reduce part of the Unit Holders’ original investment and may also result in reduced future returns to Unit Holders.

2. **Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 10 of the Prospectus**

The information on the distribution policy is hereby deleted in its entirety and replaced with the following:

Distribution will be incidental for the first financial year. Thereafter, distribution, if any, will be on a quarterly basis.

Subject to the provisions of the Deed, the Fund may distribute from realised income, realised gains and/or capital to enable the Fund to distribute income on a regular basis in accordance with the distribution policy of the Fund. Any declaration and payment of distribution will have the effect of lowering the NAV of the Fund.

Distribution out of the Fund’s capital has a risk of eroding the capital of the Fund. It may reduce the Fund’s capital available for future investment and the Fund’s potential for future income generation; it may also cause the NAV of the Fund to fall over time. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.

3. **Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 10 of the Prospectus**

The information on the mode of distribution is hereby deleted in its entirety and replaced with the following:

You may elect to either receive income payment via cash payment mode or reinvestment mode.

If you did not elect the mode of distribution, all income distribution will be automatically reinvested into additional Units in the Fund. We will create the Units based on the NAV per Unit on the income reinvestment date (which is within 7 Business Days from the Ex-distribution Date).

Unit Holders who elect to receive income payment via cash payment mode may receive the income payment by way of electronic payment into the Unit Holder’s bank account on the income payment date (which is within 7 Business Days from the Ex-distribution Date). All bank charges for the electronic payment will be borne by the Unit Holders.

This Third Supplementary Prospectus is dated 8 January 2024 and must be read together with the Prospectus dated 16 August 2021, the First Supplementary Prospectus dated 25 August 2022 and the Second Supplementary Prospectus dated 8 May 2023.

The transfer charges will be deducted directly from the transferred amount before being paid to the Unit Holder's bank account.

Notes:

- (1) If the bank transfer remained unsuccessful and unclaimed for 6 months, the unclaimed income distribution will be reinvested into the Fund within 30 Business Days after the expiry of the 6 months period based on the prevailing NAV per Unit on the day of the reinvestment if the Unit Holders still hold Units of the Fund.*
- (2) If you are investing in the Fund through our distributors, you will be subject to the applicable mode of distribution (i.e. cash payment or reinvestment or both) which has been chosen by our distributors. Please check with the respective distributors for the mode of distribution available to you.*

5. Amendment to Section 5.13 - Distribution of Income in "Chapter 5 - Transaction Information" on page 27 of the Prospectus

The information on the first paragraph of distribution of income is hereby deleted in its entirety and replaced with the following:

Distribution will be incidental for the first financial year. Thereafter, distribution, if any, will be on a quarterly basis.

Subject to the provisions of the Deed, the Fund may distribute from realised income, realised gains and/or capital to enable the Fund to distribute income on a regular basis in accordance with the distribution policy of the Fund. Any declaration and payment of distribution will have the effect of lowering the NAV of the Fund.

Distribution out of the Fund's capital has a risk of eroding the capital of the Fund. It may reduce the Fund's capital available for future investment and the Fund's potential for future income generation; it may also cause the NAV of the Fund to fall over time. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.

This Third Supplementary Prospectus is dated 8 January 2024 and must be read together with the Prospectus dated 16 August 2021, the First Supplementary Prospectus dated 25 August 2022 and the Second Supplementary Prospectus dated 8 May 2023.

6. Amendment to Section 5.13 - Distribution of Income in “Chapter 5 - Transaction Information” on page 27 of the Prospectus

The information on mode of distribution is hereby deleted in its entirety and replaced with the following:

You may elect to either receive income payment via cash payment mode or reinvestment mode.

If you did not elect the mode of distribution, all income distribution will be automatically reinvested into additional Units in the Fund. We will create the Units based on the NAV per Unit on the income reinvestment date (which is within 7 Business Days from the Ex-distribution Date).

Unit Holders who elect to receive income payment via cash payment mode may receive the income payment by way of electronic payment into the Unit Holder's bank account on the income payment date (which is within 7 Business Days from the Ex-distribution Date). All bank charges for the electronic payment will be borne by the Unit Holders. The transfer charges will be deducted directly from the transferred amount before being paid to the Unit Holder's bank account.

Notes:

- (1) If the bank transfer remained unsuccessful and unclaimed for 6 months, the unclaimed income distribution will be reinvested into the Fund within 30 Business Days after the expiry of the 6 months period based on the prevailing NAV per Unit on the day of the reinvestment if the Unit Holders still hold Units of the Fund.*
- (2) If you are investing in the Fund through our distributors, you will be subject to the applicable mode of distribution (i.e. cash payment or reinvestment or both) which has been chosen by our distributors. Please check with the respective distributors for the mode of distribution available to you.*

3. **Amendment to Section 3.1 - The Fund Information in "Chapter 3 - Fund Information" on pages 7 - 8 of the Prospectus**

The information on liquidity risk and financing risk under general risks of investing in the Fund are hereby deleted in their entirety and replaced with the following:

Liquidity Risk

The liquidity risk of the Fund is our ability as manager to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. We will actively manage the liquidity of the Fund and/or where available, take cash financing on a temporary basis as permitted by the relevant laws to manage the Unit Holders' redemption requests. Should there be inadequate liquid assets held, the Fund may not be able to honour requests for redemption or to pay Unit Holder's redemption proceeds in a timely manner and may be forced to dispose the shares of the Target Fund at unfavourable prices to meet redemption requirements.

Financing Risk

This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.

4. **Amendment to Section 3.1 - The Fund Information in "Chapter 3 - Fund Information" on pages 8 - 9 of the Prospectus**

The "Suspension of Redemption Risk" and Islamic Derivatives Risk are hereby inserted immediately after the "Currency Risk" under specific risks of the Fund as follows:

Suspension of Redemption Risk

The Fund may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units if the dealings of units in the Target Fund is suspended in the circumstances set out in Section 3.2 under the heading

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

“Suspension of Dealings in the Target Fund”. If the right of the Fund to realise its units of the Target Fund is temporarily suspended, the Fund may be affected if the Fund does not have sufficient liquidity and we have exhausted all possible avenues in managing the liquidity of the Fund to meet redemption request from the Unit Holder. In such circumstances, we will suspend the redemption of Units of the Fund. Upon suspension, the Fund will not be able to pay Unit Holders’ redemption proceeds in a timely manner and Unit Holders will be compelled to remain invested in the Fund for a longer period of time than the stipulated redemption timeline. Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. Hence, Unit Holder’s investments will continue to be subjected to the risk factors inherent to the Fund. Please refer to Section 5.15 of this Prospectus for more information on suspension of dealing in Units.

Islamic Derivatives Risk

Islamic derivatives, if any, will only be used for the purpose of hedging the Fund’s portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against losses money, the act of hedging would have reduced the loss, if successfully hedged.

5. Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 9 of the Prospectus

The information on the risk management strategies is hereby deleted in its entirety and replaced with the following:

The risk management strategy and technique employed by the Fund is to adopt the temporary defensive positions as disclosed in the above section under the heading “Temporary Defensive Position”.

In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by us to ensure that the Fund’s investment objective is met.

In addition, we may, in consultation with the Trustee and subject to Unit Holders’ approval, replace the Target Fund with another fund of a similar objective if, in our opinion, the Target Fund no longer meets the Fund’s investment objective.

Liquidity Risk Management

In managing the Fund’s liquidity, we will:

- (a) actively manage the liquidity of the Fund to meet redemption requests from Unit Holders; and/or
- (b) where available, take cash financing on a temporary basis for the purpose of meeting redemption requests for Units and for short term bridging requirements

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

subject to the conditions set out in the section below under the heading “Financing and Borrowing”.

However, if we have exhausted the above avenue, we will then, in consultation with the Trustee and having considered the interests of the Unit Holders, resort to suspend the redemption of Units to manage the liquidity of the Fund if the dealings of units in the Target Fund is suspended in the circumstances set out in Section 3.2 under the heading “Suspension of Dealings in the Target Fund”. Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. Please refer to Section 5.15 of this Prospectus for more information on suspension of dealing in Units.

6. Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 10 of the Prospectus

The information on the reinvestment policy is hereby deleted in its entirety and replaced with the following:

We will create the Units based on the NAV per Unit* at the income reinvestment date (which is within 7 Business Days from the Ex-distribution Date).

**There will be no cost to Unit Holders for reinvestments in new additional Units.*

7. Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 11 of the Prospectus

The information on the investment restrictions is hereby deleted in its entirety and replaced with the following:

- The Fund shall not invest in the following:
 - (a) a fund-of-funds;
 - (b) a feeder fund; and
 - (c) any sub-fund of an umbrella scheme which is a fund-of-funds or a feeder fund.
- The Fund may invest up to 15% of its NAV in the following Shariah-compliant permitted investments:
 - (a) Islamic money market instruments that are dealt in or under the rules of an eligible market, and whose residual maturity does not exceed 12 months;
 - (b) placement in short-term Islamic deposits; and
 - (c) Islamic derivatives for the sole purpose of hedging arrangement.

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

8. **Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 11 of the Prospectus**

The following new information on “Use of Islamic Derivatives” and “Securities Lending and Repurchase Transactions” are hereby inserted immediately after “Investment Restrictions”:

Use of Islamic Derivatives

Calculation of Global Exposure to Islamic Derivatives

The global exposure of the Fund is calculated based on commitment approach and is calculated as the sum of:

- (a) the absolute value of the exposure of each individual Islamic derivative not involved in netting or hedging arrangements;
- (b) the absolute value of the net exposure of each individual Islamic derivative after netting or hedging arrangements; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC Islamic derivatives.

Netting and hedging arrangements may be taken into account to reduce the Fund’s exposure to Islamic derivatives.

Netting arrangements

The Fund may net positions between:

- (a) Islamic derivatives on the same underlying constituents, even if the maturity dates are different; or
- (b) Islamic derivatives and the same corresponding underlying constituents, if those underlying constituents are Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes.

Hedging arrangements

The marked-to-market value of Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes involved in hedging arrangements may be taken into account to reduce the exposure of the Fund to Islamic derivatives.

The hedging arrangement must:

- (a) not be aimed at generating a return;
- (b) result in an overall verifiable reduction of the risk of the Fund;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the same asset class being hedged; and
- (e) be able to meet its hedging objective in all market conditions.

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

Calculation of Exposure to Counterparty of OTC Islamic derivatives

The exposure to a counterparty of an OTC Islamic derivative must be measured based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC Islamic derivative.

The total exposure to a single counterparty is calculated by summing the exposure arising from all OTC Islamic derivative transactions entered into with the same counterparty.

Subject to the aggregate limit under the “Investment Restrictions” section, the maximum exposure of the Fund to the counterparty, calculated based on the above method, must not exceed 10% of the Fund’s NAV.

Securities Lending and Repurchase Transactions

The Fund will not participate in securities lending or repurchase transactions.

9. Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 11 of the Prospectus

The information on the financing and securities lending is hereby deleted in its entirety and replaced with the following:

Financing and Borrowing

The Fund is prohibited from borrowing other assets (including borrowing of securities within the meaning of the Securities Borrowing and Lending Guidelines issued by the SC). However, the Fund may obtain cash financing on a temporary basis for the purpose of meeting redemption requests for Units and for short term bridging requirements subject to the following:

- (a) the Fund’s cash financing is only on a temporary basis and that financings are not persistent;
- (b) the financing period shall not exceed 1 month;
- (c) the aggregate financings of the Fund shall not exceed 10% of the Fund’s NAV at the time the financing is incurred; and
- (d) the Fund only obtains financing from Islamic financial institutions.

10. Amendment to Section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 11 of the Prospectus

The following new information on “Cross Trade Policy” is hereby inserted immediately after Financial Year End:

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

**Cross Trade
Policy**

The Fund will not participate in any cross trade transaction.

11. Amendment to Section 3.2 - Information of the Target Fund in “Chapter 3 - Fund Information” on page 16 of the Prospectus

The following new information on “Redemption Policy of the Target Fund” and “Suspension of Dealings in the Target Fund” are hereby inserted immediately after “Fees and Charges of the Target Fund” as follows:

Redemption Policy of the Target Fund

The Fund may realise its units in the Target Fund by submitting a completed realisation request (or such other form as the Investment Manager may approve from time to time) to the Investment Manager. The Investment Manager may refuse any realisation request where all relevant documentation has not been submitted or if such realisation would result in non-compliance with the minimum holding and/or minimum realisation requirements of the share class of the Target Fund or in any other circumstances agreed with the trustee of the Target Fund and notified to the relevant holders (including the Fund).

Units of the Target Fund are realised on a forward pricing basis.

A realisation request that is received and accepted by the Investment Manager by the dealing deadline of the Target Fund (“Dealing Deadline”) on a dealing day of the Target Fund (“Dealing Day”) is treated as received and accepted on that Dealing Day and, subject to the provisions of the deed of the Target Fund, units of the Target Fund will be realised at that Dealing Day’s realisation price. A realisation request that is received and accepted after the Dealing Deadline on a Dealing Day or on a day that is not a Dealing Day is treated as received and accepted on the next Dealing Day.

The Investment Manager may deduct, from the realisation proceeds payable, such amounts as may be provided for under the deed of the Target Fund. If the investor is a resident outside Singapore, the Investment Manager may also deduct, from the realisation proceeds payable, an amount equal to the excess of the expenses actually incurred over the amount of expenses which would have been incurred if the investor had been resident in Singapore.

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

The Investment Manager will only realise units of the Target Fund in the currency of denomination of the class of units being realised. Holders of the units of the Target Fund (including the Fund) will bear all bank charges incurred in respect of any payment of realisation proceeds.

The net realisation proceeds will be paid within 7 business days of the Target Fund (or such other period as may be permitted by the relevant authorities) from the Dealing Day on which the realisation request is (or is deemed to be) received and accepted, unless realisation of units of the Target Fund has been suspended or limited in accordance with the deed of the Target Fund.

The Investment Manager may, with the approval of the trustee of the Target Fund, limit the total number of units of the Target Fund which holders of the Target Fund (including the Fund) may realise and which the Investment Manager are entitled to have cancelled on any Dealing Day to 10% (or such higher percentage as the Investment Manager may determine in any particular case) of the total number of units of the Target Fund then in issue.

Such limitation to be applied pro rata to all holders of the Target Fund (including the Fund) who have validly requested realisations on such Dealing Day, so that the proportion realised of each holding so requested to be realised or cancelled is the same for all holders of the Target Fund (including the Fund).

The Investment Manager may compulsorily realise a holder of the Target Fund (including the Fund)'s holding of units of the Target Fund in certain circumstances as set out in paragraph 24.3 of the prospectus of the Target Fund.

Suspension of Dealings in the Target Fund

Subject to the provisions of the Code, the Investment Manager or the trustee of the Target Fund may, with the prior written approval of the other, suspend the issue and/or realisation of units of the Target Fund during:

1. any period when the recognised market[^] on which any authorised investment forming part of the deposited property for the time being are listed or dealt in is closed (otherwise than for public holidays for the Target Fund) or during which dealings are restricted or suspended;

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

^“recognised market” means, subject to the provisions of the Code, any stock exchange or OTC or over-the-telephone market, any futures exchange and any organised securities market which is open to the public and on which securities are regularly traded, being in each case an exchange or market in any part of the world and in relation to any particular investment includes any responsible firm, corporation or association in any country in the world so dealing in the investment as to be expected generally to provide in the opinion of the Investment Manager a satisfactory market for the investment (subject to any applicable provisions under the Code) and is approved by the trustee of the Target Fund and in such case the investment shall be deemed to be the subject of an effective permission to deal or be dealt in on the market deemed to be constituted by such firm, corporation or association.

2. the existence of any state of affairs which, in the trustee of the Target Fund’s or the Investment Manager’s opinion, might seriously prejudice the interests of the holders of the Target Fund (including the Fund) as a whole or of the deposited property;
3. any breakdown in the means of communication normally employed in determining the price of such authorised investments or the current price on the relevant recognised market, or when for any reason the prices of any of such authorised investments, or the amount of any liability of the trustee of the Target Fund and/or the Investment Manager for the account of the Target Fund, cannot be promptly and accurately ascertained;
4. any period when the fair value of a material portion of the deposited property of the Target Fund cannot be determined;
5. any period when remittance of monies which will or may be involved in the realisation of such authorised investments or in the payment for such authorised investments cannot, in the trustee of the Target Fund’s or the Investment Manager’s opinion, be carried out at normal rates of exchange;
6. any period whereby dealing of units of the Target Fund has to be suspended to effect the subdivision or consolidation of units of the Target Fund;

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

7. any period when the dealing of units of the Target Fund is suspended pursuant to any order or direction of the authority or any judicial or governing authority of any relevant jurisdiction;
8. any 48 hour period (or such longer period as may be agreed between the trustee of the Target Fund and the Investment Manager) prior to the date of any meeting of holders of the Target Fund (or any adjourned meeting thereof);
9. any period when the trustee of the Target Fund's or the Investment Manager's business operations in relation to the operation of the Target Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolutions, civil unrest, riots, strikes or acts of God;
10. exceptional circumstances, where the Investment Manager has determined that such suspension is in the best interest of the holders of the Target Fund; or
11. such circumstances as may be required under the provisions of the Code.

Subject to the provisions of the Code, the Investment Manager and/or the trustee of the Target Fund (as the case may be) may from time to time also suspend the issue and/or realisation of units of the Target Fund in certain situations as set out in the deed of the Target Fund, including suspending the realisation of units of the Target Fund for such reasonable period as may be necessary to effect an orderly redemption of investments in accordance with the deed of the Target Fund.

Subject to the provisions of the Code, such suspension will take effect forthwith upon the declaration in writing thereof by the Investment Manager to the trustee of the Target Fund (or as the case may be, by the trustee of the Target Fund to the Investment Manager) and will terminate as soon as practicable when the condition giving rise to the suspension shall have ceased to exist and no other condition under which such suspension is authorised above shall exist upon the declaration in writing thereof by the Investment Manager (or as the case may be, by the trustee of the Target Fund), and in any event, within such period as may be prescribed by the Code. suspension may be extended in accordance with the Code.

We, our delegate, the Trustee or the Trustee’s delegate should not retain any rebate from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission will be directed to the Fund’s account.

However, soft commissions provided by any broker or dealer may be retained by us if:

- (i) the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (ii) any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

- (iii) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

14. Amendment to Section 5.1 - Bases of Valuation of Investments in “Chapter 5 - Transaction Information” on page 21 of the Prospectus

The information on money market instruments is hereby deleted in its entirety and replaced with the following:

Islamic Money Market Instruments

Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by bond pricing agency (“BPA”) registered with the SC. Where we are of the view that the price quoted by BPA differs from the market price by more than 20 basis points, we may use the market price provided that we:

- (a) record our basis for using a non-BPA price;
- (b) obtain the necessary internal approvals to use the non-BPA price; and
- (c) keep an audit trail of all decisions and basis for adopting the market yield.

For investments in Islamic money market instruments with remaining term to maturity of not more than 90 days at the time of acquisition, such instruments are valued each day based on amortised cost. The risk of using amortised cost accounting is the mispricing of the Islamic money market instruments. We will monitor the valuation of such Islamic money market instruments using amortised cost method against the market value on a daily basis and will use the market value if the difference in valuation exceeds 3%.

15. Amendment to Section 5.5 - Incorrect Pricing in “Chapter 5 - Transaction Information” on page 24 of the Prospectus

The information in the second paragraph is hereby deleted in its entirety and replaced with the following:

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 (in the case of a foreign currency Class, 10.00 or more denominated in the currency denomination of the foreign currency Class) or more.

16. Amendment to Section 5.8 - Redemption of Units in “Chapter 5 - Transaction Information” on page 25 of the Prospectus

The information on the redemption of Units is hereby deleted in its entirety and replaced with the following:

You may redeem part or all of your Units on any Business Day by simply completing the redemption request form and returning it to us.

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

The minimum Unit holdings for each Class after the redemption must not be less than the Unit holdings set out below:

	MYR Class	USD Class	SGD (Hedged) Class
Minimum Unit holdings*	1,000 Units	1,000 Units	1,000 Units

**or such other lower number of Units as determined by us from time to time.*

If your Unit holdings are, after a redemption request, below the minimum Unit holdings for the Class, full redemption will be initiated. Transaction costs such as charges for electronic payments, if any, will be borne by you and will be set-off against the redemption proceeds.

There is no restriction in terms of the minimum number of Units for redemption or the frequency of redemption for the Fund.

As the Fund is a feeder fund which invests substantially in the Target Fund and offers Classes denominated in currencies that are different from the Base Currency, the redemption amount received by the Fund may be subject to currency conversion before the redemption proceed is paid to you. As such, you shall be paid within five (5) Business Days from the Fund's receipt of the net realisation proceeds from the Target Fund, which would be within nine (9) Business Days from the date the redemption request is received by us.

However, if the realisation application submitted by the Fund to the Target Fund is deferred / split on a pro-rata basis due to the total net realisation requests received by the Target Fund on a dealing day of the Target Fund equals or exceeds 10% of the total number of units of the Target Fund or class, the net realisation proceeds will be received by the Fund as and when redemption is made by the Investment Manager on a staggered basis. In such circumstance, we will mirror the redemption process of the Target Fund and disburse the redemption proceeds to the Unit Holders on a staggered basis as well, which would take up to eight (8) Business Days from the day the Target Fund redeems the units pursuant to the Fund's realisation request.

Illustration on the Fund's redemption payment process in the event of a staggered payment of net realisation proceeds by the Target Fund

Assuming the realisation requests received on a particular dealing day of the Target Fund equals 28% of the total number of units of the Target Fund, the units of the Target Fund will be redeemed in the following manner:

Business Day 1: 10% of the total number of units of the Target Fund

Business Day 2: 10% of the total number of units of the Target Fund

Business Day 3: 8% of the total number of units of the Target Fund

The net realisation proceeds will be paid to the Fund on the 3rd Business Day from the day the respective units are redeemed by the Target Fund and the Fund will pay to the Unit Holders within 8 Business Days from the day the Target Fund redeems the units pursuant to the Fund's realisation request.

The Investment Manager will notify us if the Fund's realisation request is being deferred / split on a particular dealing day of the Target Fund on the next Business Day and we will notify the Unit Holders who have submitted their redemption applications via a

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Second Supplementary Prospectus in connection with the offer of units in the unit trust known as Maybank Asia Mixed Assets-I Fund (hereinafter referred to as “the Fund”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

A member firm of Ernst & Young Global Limited

This Second Supplementary Prospectus is dated 8 May 2023 and must be read together with the Prospectus dated 16 August 2021 and the First Supplementary Prospectus dated 25 August 2022.

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act, 1967 shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign-sourced income

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax.

The Guidelines issued by the Malaysian Inland Revenue Board on 29 September 2022 (amended on 29 December 2022) define the term “received in Malaysia” to mean transferred or brought into Malaysia, either by way of cash⁴ or electronic funds transfer⁵.

Foreign-sourced income (FSI) received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

Income Tax (Exemption) (No. 6) Order 2022 has been issued to exempt a “qualifying person”⁶ from the payment of income tax in respect of dividend income which is received in Malaysia from outside Malaysia, effective from 1 January 2022 to 31 December 2026. The exemption will however not apply to a person carrying on the business of banking, insurance or sea or air transport. As the definition of “qualifying person” does not include unit trust funds, it would mean that resident unit trust funds would technically not qualify for the exemption, unless there are further updates thereto.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

⁴ “Cash” in this context is defined as banknotes, coins and cheques.

⁵ “Electronic funds transfer” means bank transfers (e.g., credit or debit transfers), payment cards (debit card, credit card and charge card), electronic money, privately-issued digital assets (e.g., crypto-assets, stablecoins) and central bank digital currency.

⁶ “Qualifying person” in this context means a person resident in Malaysia who is:

- (a) An individual who has dividend income received in Malaysia from outside Malaysia in relation to a partnership business in Malaysia;
- (b) A limited liability partnership which is registered under the Limited Liability Partnerships Act 2012; or
- (c) A company which is incorporated or registered under the Companies Act 2016.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

The Board of Directors
Maybank Asset Management Sdn Bhd
20 January 2023

6

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the ITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

1. **Insertion of new definitions of “SGD” and “SGD (Hedged) Class” in “Chapter 1 - Definitions” on page 2 of the Prospectus**

The following new definitions of “SGD” and “SGD (Hedged) Class” are hereby inserted immediately after the definition of “Selling Price”:

SGD	means Singapore Dollar.
SGD (Hedged) Class	means a Class denominated in SGD which seeks to reduce the effect of currency fluctuations between the currency of the Class and the base currency of the Fund.

2. **Amendment to section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 6 of the Prospectus**

The information on the initial offer price of the Classes is hereby deleted in its entirety and replaced with the following:

Initial Offer Price	MYR Class USD Class	SGD (Hedged) Class
	The initial offer price is no longer applicable as the price of Units for these Classes will be based on the NAV per Unit.	SGD1.00

3. **Amendment to section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 6 of the Prospectus**

The information on the initial offer period is hereby deleted in its entirety and replaced with the following:

Initial Offer Period	MYR Class USD Class	SGD (Hedged) Class
	The initial offer period is no longer applicable as the initial offer period has ended for these Classes.	1 day which is on the date of this First Supplementary Prospectus

This First Supplementary Prospectus is dated 25 August 2022 and must be read together with the Prospectus dated 16 August 2021.

4. **Amendment to section 3.1 - The Fund Information in “Chapter 3 - Fund Information” on page 9 of the Prospectus**

The information on the currency risk under the specific risks of the Fund is hereby deleted in its entirety and replaced with the following:

Currency Risk

As the base currency of the Fund is denominated in MYR and the investments of the Fund in the Target Fund is denominated in USD, the Fund is exposed to currency risk. Any fluctuations in the exchange rates between MYR and USD will affect the value of the Fund’s investments. Unit Holders should be aware that if the currencies in which the Fund’s investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Unit Holders should note that any gains or losses arising from the fluctuations in the exchange rate may further increase or decrease the returns of the investment.

As the base currency of the Fund is denominated in MYR and the currency denomination of the Classes may be denominated in other than MYR, the Classes not denominated in MYR are also exposed to currency risk. Any fluctuation in the exchange rates between MYR and the currency denomination of the Class (other than MYR Class) will affect the Unit Holder’s investments in those Classes (other than MYR Class). The impact of the exchange rate movement between the Base Currency and the currency denomination of the Class (other than MYR Class) may result in a depreciation of the Unit Holder’s holdings as expressed in the Base Currency.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the investments of the Fund and/or Classes not denominated in MYR and USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Fund and/or the Class being hedged (other than MYR Class and USD Class) but it does not entirely eliminate currency risk between the Fund and the investments of the Fund in the Target Fund and/or between the Class and the Base Currency. The unhedged foreign exchange exposure of the Fund and/or portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Fund and/or Class. You should note that if the exchange rate moves favourably, the Fund and/or the Class (other than MYR Class and USD Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the Fund and/or the hedged Class.

Please also refer to Section 15 for further details on the “currency risk” of the Target Fund.

5. **Amendment to “Chapter 4 - Fees, Charges and Expenses” on page 17 of the Prospectus**

The first paragraph of this chapter is hereby deleted in its entirety and replaced with the following:

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are

This First Supplementary Prospectus is dated 25 August 2022 and must be read together with the Prospectus dated 16 August 2021.

apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. This apportionment is expressed as a ratio and is calculated as a percentage. As an illustration, assuming there is an indirect fee chargeable to the Fund of RM100 and the size of MYR Class, USD Class and SGD (Hedged) Class over the size of the Fund is 60%, 20% and 20% respectively, the ratio of the apportionment based on the percentage will be 60:20:20, 60% being borne by MYR Class, 20% being borne by USD Class and 20% being borne by SGD (Hedged) Class.

6. Amendment to section 4.1 - Sales Charge in “Chapter 4 - Fees, Charges and Expenses” on page 17 of the Prospectus.

The information on the sales charge is hereby deleted in its entirety and replaced with the following:

7. Amendment to section 4.3 - Transfer Fee in “Chapter 4 - Fees, Charges and Expenses” on page 17 of the Prospectus.

The information on the transfer fee is hereby deleted in its entirety and replaced with the following:

Up to 1.80% per annum of the NAV of each Class.		

10. **Amendment to section 5.3 - Computation of NAV and NAV per Unit in “Chapter 5 - Transaction Information” on pages 21 to 22 of the Prospectus.**

The information on the computation of NAV and NAV per Unit is hereby deleted in its entirety and replaced with the following:

^Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 70,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (RM)	MYR Class (RM)	USD Class (RM)	SGD (Hedged) Class (RM)
NAV	101,594,822.58	60,956,893.54	20,318,964.52	20,318,964.52
Divide: Units in circulation	70,000,000	60,000,000	5,000,000	5,000,000
NAV per Unit of the Class (RM)		1.0159	4.0638	4.0638
Conversion to USD (at RM4.00:USD 1.00 exchange rate)			USD1.0160	
Conversion to SGD (at RM3.20:SGD 1.00 exchange rate)				SGD1.2699

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

This First Supplementary Prospectus is dated 25 August 2022 and must be read together with the Prospectus dated 16 August 2021.

	<p>Islamic deposits and Islamic money market instruments, that may be inconsistent with the Fund's principal investment strategy and asset allocation. As the temporary defensive positions are adopted at the Fund's level, our view on market outlook may differ from the view of the Investment Manager. As a result, there is a risk that the Fund will not achieve its investment objective by adopting such defensive strategies. However, for all intents and purposes, we will resume the investment strategy to invest at least 90% of the Fund's NAV in the Target Fund as soon as practical.</p>

RISK FACTORS

FUND	Maybank Asia Mixed Assets-I Fund
General Risks of Investing in the Fund	<p><u>Market Risk</u> The value of an investment will decrease or increase due to changes in market factors i.e. economic, political or other events that impact large portions of the market. Market risk cannot be eliminated, hence the Fund's investment portfolio may be prone to changing market conditions that may result in uncertainties and fluctuations in the value of the underlying of the Fund's investment portfolio, causing the NAV or prices of Units to fluctuate.</p> <p><u>Inflation Risk</u> This is the risk that your investments in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the nominal value of the investment in monetary terms has increased.</p> <p><u>Liquidity Risk</u> The liquidity risk of the Fund is our ability as manager to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. This is subject to the Fund's holding of adequate liquid assets, its ability to take cash financing on a temporary basis as permitted by the relevant laws and/or its ability to redeem the shares of the Target Fund at fair value. Should there be inadequate liquid assets held, the Fund may not be able to honour requests for redemption or to pay Unit Holders' redemption proceeds in a timely manner and may be forced to dispose the shares of the Target Fund at unfavourable prices to meet redemption requirements.</p> <p><u>Financing Risk</u> This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing instalments. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.</p> <p><u>Manager's Risk</u> This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us.</p>

	<p><u>Non-Compliance Risk</u> This is the risk that we may not follow the provisions set out in this Prospectus or the Deed or the law, rules or guidelines that governs the Fund or our own internal procedures whether by oversight or by omission. This risk may also occur indirectly due to legal risk, which is a risk of circumstances from the imposition and/or amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. An act of non-compliance/ mismanagement of the Fund may lead to operational disruptions that could potentially be detrimental to the Fund. We aim to mitigate this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines.</p> <p><u>Returns Are Not Guaranteed</u> Unit Holders should take note that by investing in the Fund, there is no guarantee of any income distribution or capital appreciation. Unlike fixed deposits which carry a specific rate of return, a unit trust fund does not provide a fixed rate of return.</p>
<p>Specific Risks of the Fund</p>	<p><u>Country Risk</u> The investment of the Fund may be affected by risk specific to the country in which it invests in. Such risks include changes in a country's economic, social and political environment. The value of the assets of the Fund may also be affected by uncertainties such as currency repatriation restrictions or other developments in the law or regulations of the country in which the Fund invest in, i.e. Singapore, the domicile country of the Target Fund.</p> <p><u>Concentration Risk</u> As the Fund invests at least 90% of its NAV in the Target Fund, it is subject to concentration risk as the performance of the Fund would be dependent on the performance of the Target Fund.</p> <p><u>Investment Manager Risk</u> The Fund will invest in the Target Fund managed by a foreign asset management company. This risk refers to the risk associated with the Investment Manager, which include:</p> <ul style="list-style-type: none"> i) the risk of non-adherence to the investment objective, strategy and policies of the Target Fund; ii) the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems by the Investment Manager; and iii) the risk that the Target Fund may underperform its benchmark due to poor investment decisions by the Investment Manager. <p><u>Default Risk</u> Default risk relates to the risk that an issuer of an Islamic money market instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Islamic money market instruments. This could affect the value of the Fund as up to 10% of the NAV of the Fund will be invested in liquid assets which include but are not limited to Islamic deposits and Islamic money market instruments.</p> <p>Islamic deposits that the Fund placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and profit foregone, causing the performance of the Fund to be adversely affected. Placement with financial institutions will also be made based on prudent selection.</p>

	<p>OTC Counterparty Risk OTC counterparty risk is the risk associated with the other party to an OTC Islamic derivative transaction not meeting its obligations. If the counterparty to the OTC Islamic derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the Islamic derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC Islamic derivatives' counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund.</p> <p>Currency Risk As the base currency of the Fund is denominated in MYR and the investments of the Fund in the Target Fund is denominated in USD, the Fund is exposed to currency risk. Any fluctuations in the exchange rates between MYR and USD will affect the value of the Fund's investments. Unit Holders should be aware that if the currencies in which the Fund's investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Unit Holders should note that any gains or losses arising from the fluctuations in the exchange rate may further increase or decrease the returns of the investment.</p> <p>As the base currency of the Fund is denominated in MYR and the currency denomination of the Classes may be denominated in other than MYR, the Classes not denominated in MYR are also exposed to currency risk. Any fluctuation in the exchange rates between MYR and the currency denomination of the Class (other than MYR Class) will affect the Unit Holder's investments in those Classes (other than MYR Class). The impact of the exchange rate movement between the Base Currency and the currency denomination of the Class (other than MYR Class) may result in a depreciation of the Unit Holder's holdings as expressed in the Base Currency.</p> <p>In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the investments of the Fund and/or Classes not denominated in MYR. However, every hedge comes with a cost and will be borne by the respective Class.</p> <p>Currency hedging may reduce the effect of the exchange rate movement for the Fund but it does not entirely eliminate currency risk between the Fund and the investments of the Fund in the Target Fund. The unhedged foreign exchange exposure of the Fund will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Fund. You should note that if the exchange rate moves favourably, the Fund will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the Fund.</p> <p><i>Please also refer to Section 15 for further details on the "currency risk" of the Target Fund.</i></p>
Risk Management Strategies	<p>The risk management strategy and technique employed by the Fund is to adopt the temporary defensive positions as disclosed in the above section under the heading "Temporary Defensive Position".</p> <p>In addition, we may, in consultation with the Trustee and subject to Unit Holders' approval, replace the Target Fund with another fund of a similar objective if, in our opinion, the Target Fund no longer meets the Fund's investment objective.</p>

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, Shariah advisers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.

Information on the Investment Manager	<p>The investment manager of the Target Fund is Maybank Asset Management Singapore Pte. Ltd., a fully owned subsidiary of Maybank Asset Management Group Berhad and is licensed and regulated by the Monetary Authority of Singapore.</p> <p>The Investment Manager has managed collective investment schemes or discretionary funds since April 2009.</p>
Investment Objective	<p>The investment objective of the Target Fund is to provide capital growth and income through investments in equities that comply with Shariah principles and global Islamic securities instruments known as sukuk.</p> <p><i>Note: Sukuk (such as floating rate, fixed-rate, index-linked, subordinated and convertible securities) are investment certificates that provide evidence of an investment/funding into an underlying asset or a project which is typically an income generating project or asset. Shariah is the divine Islamic law which governs the practical aspect of a Muslim's daily life. In commerce, it can determine business style and indicate a desire to comply with 'halal' (Islamic permitted) and ethical investing. Issuers of securities that comply with Shariah principles are deemed to be compliant under Islamic law. *</i></p>
Investment Focus and Approach	<p>To achieve its objective, the Target Fund will invest up to 2/3 of its net asset value in Asia equities that comply with Shariah principles, and up to 100% of the Target Fund's net asset value in global sukuk or liquid assets that comply with Shariah principles. The neutral asset allocation of the Target Fund is equal weight in Shariah-compliant equities and global sukuk (i.e. 50% in equities and 50% in global sukuk). Under the Target Fund's tactical asset allocation strategy, however, the Target Fund may overweigh or underweigh the allocation of assets in either Shariah-compliant equities or global sukuk based on various market indicators. The Target Fund may also invest up to 10% of its net asset value in Islamic collective investment schemes such as Islamic gold ETFs when the Investment Manager is of the view that the equity market outlook is unfavourable.</p> <p>The performance of Islamic gold ETFs is in the Investment Manager's view highly correlated to the performance of gold based on their historical returns, and accordingly, the Target Fund's investments in Islamic gold ETFs will give the Target Fund exposure to gold.</p> <p>The Target Fund seeks to achieve an absolute return and thus is not managed in reference to any benchmark. You should note however that an absolute return is not guaranteed, and your capital is at risk.</p> <p>The remaining net asset value of the Target Fund not invested into either of the above asset classes will be invested in liquid assets that comply with Shariah principles. Such liquid assets include but are not</p>

	<p>limited to Islamic fixed deposits placed with financial institutions and/or Islamic money market instruments.</p> <p>In relation to the Target Fund’s Shariah-compliant equity portfolio, all equities must comply with the Shariah investment guidelines of the Target Fund, and if necessary, be validated as Shariah-compliant by the Shariah adviser of the Target Fund, before the Target Fund can invest in them. Stocks are selected using Factor Investing, an investment approach that involves targeting quantifiable characteristics or “factors” that can explain differences in stock returns thus enabling the selection of securities on attributes which appear or are deemed to be associated with higher returns. Factors are generally the broad, persistent forces that drive returns of stocks, sukuk and other assets. The Investment Manager intends to use multiple factors to assess the investment potential of the possible stocks to be invested by the Target Fund. While individual factors tend to perform well at different parts of the economic cycle, a combination of multiple factors aim to diversify across factors and aim to reduce the effect of cyclicity. Stock selection is based on a combination of style factors which the Investment Manager term as “M-TIGER”, which stands for Momentum, Total Capital Management, Intrinsic Value, Growth, Expectations and Risk. The Investment Manager may, in addition to the foregoing, take into account factors which may include material environment, social and governance considerations when selecting possible stocks to be invested by the Target Fund. “ESG” refers to “environmental, social and governance” criteria, which are three central factors used in measuring the sustainability and ethical impact of an investment in securities of an issuer. By way of example, “environmental” may cover themes such as climate risks and natural resources scarcity, “social” may include labour issues and product liability risks such as data security and “governance” may encompass items such as business ethics, fiscal transparency and level of corruption. These are only examples and do not necessarily determine the policy of the Target Fund in employing ESG factors. The Investment Manager will continuously research and optimise the factors used to ensure their relevance.</p> <p>In relation to the Target Fund’s global sukuk portfolio, the Investment Manager will invest in sukuk, among other government and/or supranational securities, emerging credit instruments, corporate securities and/or convertible securities that are compliant with Shariah principles. All investments in sukuk must be approved by the Shariah adviser of the Target Fund before the Target Fund can invest in them. Issuers of the above securities will normally have their registered offices in an emerging country belonging to the Middle-East and Asian regions or will carry out a significant part of their business in such countries.</p> <p>The Target Fund will be actively managed to meet its investment objective. The Target Fund is designed to systematically allocate between cash and Shariah-compliant equities. The allocation changes dynamically over time and the Target Fund does not stay fully invested in equities at all times. A market hedging overlay is employed to determine the overall asset allocation between stocks and cash, with the aim of avoiding large market corrections. The outcome of the market hedging overlay may result in the Target Fund holding up to all its assets in liquid assets for a prolonged period of time due to reasons other than adverse market, political or economic conditions that warrant the need to take temporary defensive positions (“TDP”), for</p>

	<p>example, when the market hedging overlay indicates that equities are greatly overpriced.</p> <p>There would be times when the Investment Manager, in an attempt to respond to adverse market, political or economic conditions may take TDP, which may be inconsistent with the Target Fund's principal strategy. Under such situations, the Target Fund may hold up to all of the Target Fund's net asset value in liquid assets such as money market instruments or placement in deposits and may deviate from the Target Fund's asset allocation. The defensive positions may be adopted for such time period as the Investment Manager, in consultation with the trustee of the Target Fund, consider appropriate.</p> <p>The Target Fund will invest in markets where the regulatory authority is an ordinary or associate member of the International Organisation of Securities Commissions. The Target Fund does not and will not invest directly in commodities or in a collective investment scheme that invests directly in commodities (save and except for gold). It is currently intended that:</p> <ul style="list-style-type: none"> (a) the Target Fund's investments in Shariah-compliant transferable securities and Islamic money market instruments issued by any single entity will not exceed 15% of its net asset value, even where such investments above this limit are permitted under the Code; (b) the credit rating for the counterparty of OTC Islamic derivatives will be at least investment grade, even where this is not required under the Code; and (c) the Target Fund's investments in other Islamic collective investment schemes will generally also comply with the investment limits provided above. <p>Islamic FDIs</p> <p>The Target Fund may use Islamic FDIs for the purposes of hedging. The global exposure of the Target Fund to Islamic FDIs or embedded Islamic FDIs will not at any time exceed 100% of the net asset value of the Target Fund. Notwithstanding the foregoing, the Target Fund shall comprise securities which are or will be determined to be Shariah-compliant, in accordance with the Shariah investment guidelines of the Target Fund.</p> <p>Securities Lending and Repurchase Transactions</p> <p>Currently, the Target Fund will not carry out securities lending or repurchase transactions.</p>

(4) FEES, CHARGES AND EXPENSES

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. This apportionment is expressed as a ratio and is calculated as a percentage. As an illustration, assuming there is an indirect fee chargeable to the Fund of RM100 and the size of MYR Class and USD Class over the size of the Fund is 60% and 40% respectively, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by MYR Class and 40% being borne by USD Class.

Please refer to the illustration in Section 5.3 of this Prospectus below for better clarity.

(5) TRANSACTION INFORMATION

5.1 Bases of Valuation of Investments

Islamic Collective Investment Schemes

The value of any investment in the Target Fund, an unquoted Islamic collective investment scheme, is valued each day based on the last published repurchase price per unit for that Islamic collective investment scheme.

Islamic Money Market Instruments

Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by bond pricing agency (“BPA”) registered with the SC. Where we are of the view that the price quoted by BPA differs from the market price by more than 20 basis points, we may use the market price provided that we:

- (i) record our basis for using a non-BPA price;
- (ii) obtain the necessary internal approvals to use the non-BPA price; and
- (iii) keep an audit trail of all decisions and basis for adopting the market yield.

For investments in Islamic money market instruments that are not quoted by BPA, such instruments are valued each day at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

Islamic Deposits

Islamic deposits placed with financial institutions are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period.

Islamic Derivatives

Islamic derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

Foreign Exchange Rate Conversion

Where the value of an asset of the Fund is denominated in a foreign currency (if any), the assets are translated on a daily basis to MYR using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.

Any other investments

Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

5.2 Valuation Point

The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of the next Business Day.

As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published two (2) Business Days later (i.e., the price will be two (2) days old).

5.3 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund’s liabilities from the value of the Fund’s assets, at a valuation point.

Please note that the example below is for illustration only:

	Fund (RM)	MYR Class (RM)	USD Class (RM)
Value of the Fund/Class	101,500,000.00	60,900,000.00	40,600,000.00
Multi-class ratio[^]	100%	60%	40%
Add: Other assets (including cash) & income	200,000.00	120,000.00	80,000.00
Less: Liabilities	100,000.00	60,000.00	40,000.00
NAV before deducting management fee and trustee fee for the day	101,600,000.00	60,960,000.00	40,640,000.00
Less: Management fee for the day		(60,960,000 x 1.80% / 365 days)	(40,640,000 x 1.80% / 365 days)
	5010.41	3,006.25	2,004.16
Less: Trustee fee for the day		(60,960,000 x 0.06% / 365 days)	(40,640,000 x 0.06% / 365 days)
	167.01	100.21	66.81
Total NAV (RM)	101,594,822.58	60,956,893.54	40,637,929.04

[^]Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 70,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (RM)	MYR Class (RM)	USD Class (RM)
NAV	101,594,822.58	60,956,893.54	40,637,929.04
Divide: Units in circulation	70,000,000	60,000,000	10,000,000
NAV per Unit of the Class (RM)		1.0159	4.0638
Conversion to USD (at RM4.00:USD1.00 exchange rate)			USD1.0159

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

5.4 Pricing of Units

Single Pricing Regime

We adopt a **single pricing regime** in calculating your investments into the Fund and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). You would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

Selling Price of Units

The Selling Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the request to purchase Units is received by us (Forward Pricing). The sales charge applicable to the Class is payable by you in addition to the Selling Price for the Units purchased.

Calculation of Selling Price

Illustration - Sale of Units

Example:

If you wish to invest RM10,000.00 in MYR Class before 4.00 p.m. on a Business Day, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

Sales charge incurred	=	$\frac{\text{investment amount}}{1 + \text{sales charge (\%)}}$	x	sales charge (%)
	=	$\frac{\text{RM10,000}}{1 + 5.00\%}$	x	5.00%
	=	RM476.19		
Net investment amount	=	investment amount - sales charge		
	=	RM10,000 - RM476.19		
	=	RM9,523.81		
Units credited to investor	=	net investment amount / NAV per Unit		
	=	RM9,523.81 / RM1.000		
	=	9,523.81 Units		

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

Redemption Price of Units

The Redemption Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

Illustration - Redemption of Units

Example:

If you wish to redeem 10,000.00 Units from MYR Class before 4.00 p.m. on a Business Day, and if no redemption charge is imposed, the total amount to be paid to you will be as follows:

In the event that the NAV per Unit for MYR Class at the end of the Business Day = RM1.0000

Redemption charge payable by you = $0\% \times [10,000.00 \text{ Units} \times \text{RM1.0000}] = \underline{\text{RM0.00}}$

The total amount to be paid to you will be:

= the number of Units to be redeemed multiplied with the NAV per Unit less redemption charge

$$= [10,000.00 \text{ Units} \times \text{RM}1.0000] - \text{RM}0.00$$

$$= \underline{\text{RM}10,000.00}$$

Therefore, you will receive **RM10,000.00** as redemption proceeds.

5.5 Incorrect Pricing

We shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation and pricing of the Fund and/or Units, any incorrect valuation and pricing of the Fund and/or Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(i) by us to the Fund; or

(ii) by the Fund to you and/or the former Unit Holders.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.

Units will be created in the intended fund to be switched into upon receipt of the redemption proceeds of the fund that you are switching out from.

There is no restriction on the minimum number of Units for a switch or the frequency of switching. However, you must meet the minimum Unit holdings (after the switch) of the Class that you intend to switch from unless you are redeeming all your investments from the Class.

If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charges of these two (2) funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

Scenario 2

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

We reserve the right to vary the terms and conditions for switching from time to time, which shall be communicated to you in writing.

However, switching from an Islamic fund to a conventional fund is discouraged especially for Muslim Unit Holders.

Subject to the provisions of any relevant law, the Trustee shall take all reasonable steps to remove the Manager:

- (a) if the Manager has failed or neglected to carry out its duties to the satisfaction of the Trustee and the Trustee considers that it would be in the interest of the Unit Holders for the Trustee to do so after the Trustee has given notice to the Manager of that opinion and the reasons for that opinion, and has considered any representations made by the Manager in respect of that opinion and after consultation with the relevant authorities and with the approval of the Unit Holders by way of a special resolution;
- (b) unless expressly directed otherwise by the relevant authorities, if the Manager is in breach of any of its obligations or duties under the Deed or the relevant laws, or has ceased to be eligible to be a management company under the relevant laws; or
- (c) the Manager has gone into liquidation except for the purpose of amalgamation or reconstruction or some similar purpose, or has had a receiver appointed or has ceased to carry on business.

If any of the events set out above occurs, the Manager shall upon receipt of a written notice from the Trustee cease to be the management company of the Fund. The Trustee shall, at the same time, in writing appoint some other corporation already approved by the relevant authorities to be the management company of the Fund; such corporation shall have entered into such deed or deeds as the Trustee may consider to be necessary or desirable to secure the due performance of its duties as management company for the Fund.

9.6 Retirement, Removal and Replacement of the Trustee

The Trustee may retire upon giving three (3) months' notice to the Manager of its desire to do so (or such other shorter period as the Manager and the Trustee may agree) and may by deed appoint in its stead a new trustee approved by the relevant authorities and under any relevant law.

The Trustee may be removed and another trustee may be appointed by special resolution of the Unit Holders at a Unit Holders' meeting convened in accordance with the Deed or as stipulated in the CMSA.

The Manager shall take all reasonable steps to replace the Trustee as soon as practicable after becoming aware that:

- (a) the Trustee has ceased to exist;

- (e) a receiver has been appointed over the whole or a substantial part of the assets or undertaking of the Trustee and has not ceased to act under the appointment, or a petition is presented for the winding up of the Trustee (other than for the purpose of and followed by a reconstruction, unless during or following such reconstruction the Trustee becomes or is declared to be insolvent); or
- (f) the Trustee is under investigation for conduct that contravenes the Trust Companies Act 1949, the Trustee Act 1949, the Companies Act 2016 or any relevant law.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Prospectus in connection with the offer of units in the unit trust known as Maybank Asia Mixed Assets-I Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as "profits") and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

A member firm of Ernst & Young Global Limited

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest (profits)**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
- (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign sourced income

Dividends, profits and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none"> Individual and non-corporate unit holders (such as associations and societies) Co-operatives⁴ Trust bodies 	<ul style="list-style-type: none"> Progressive tax rates ranging from 0% to 30% Progressive tax rates ranging from 0% to 24% 24%

and

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits – new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

- listed on a formal list of Shariah-compliant securities issued by internationally recognised Shariah indices including but not limited to the MSCI Islamic Index Series.

The Target Fund may invest in any securities which are not certified by the local Shariah governing bodies of the relevant countries or are not listed on a formal list of Shariah-compliant securities issued by internationally recognised Shariah indices, provided that such securities are deemed to be Shariah-compliant pursuant to the rulings issued by the Shariah adviser of the Target Fund. The Shariah adviser of the Target Fund shall issue such rulings based on both business activity screening and financial screening of such securities, which is described in further detail below.

Level 1: Business Activity Screening

The Shariah investment guidelines of the Target Fund do not allow investment in companies which are directly active in, or derive more than 5% of their revenue (cumulatively) from, the following activities ("prohibited activities"):

- alcohol;
- tobacco;
- pork related products;
- conventional financial services;
- defense or weapons;
- gambling or casino;
- music;
- hotels;
- cinema; and
- adult entertainment.

Level 2: Financial Screening

The Shariah investment guidelines of the Target Fund do not allow investment in companies deriving significant income from interest or companies that have excessive leverage. The following three financial ratios are to be met in order for a company to qualify as Shariah-compliant:

- total debt (excluding Shariah-compliant debt and Shariah-compliant instruments) over total assets must be less than 33.33%;
- the sum of a company's cash and interest-bearing securities (excluding Shariah-compliant debt and Shariah-compliant instruments) over total assets must be less than 33.33%; and
- the sum of a company's accounts receivables and cash over total assets must be less than 33.33%.

Should any company fail to meet the above benchmarks, the Shariah adviser of the Target Fund will not accord Shariah-compliant status to such company.

b. Sukuk

The Target Fund shall only invest in sukuk as approved by the respective Shariah scholar(s) or Shariah board(s) of the relevant sukuk and/or as listed in the Dow Jones Sukuk Price Return Index. The Investment Manager shall seek the Shariah adviser of the Target Fund's prior approval to making an investment for the Target Fund in any sukuk.

c. Islamic Deposits

The Target Fund may place bank deposits in Islamic accounts issued by licensed Islamic financial institutions/financial institutions, or where no such Islamic account is accessible, non-interest bearing accounts. The Target Fund is also prohibited from investing in interest-bearing deposits and recognising any interest income.

d. Islamic Money Market Instruments

The Target Fund may invest in money market instruments that are endorsed by the respective Shariah advisers or committees of the relevant instruments, provided that such instruments are first approved by the Shariah adviser of the Target Fund based on its review of the relevant documents e.g. principal terms and conditions, and Shariah pronouncement or approvals.

e. Islamic Collective Investment Schemes

The Target Fund may invest in eligible collective investment schemes which are endorsed by other reputable Shariah advisers or committees, provided that such schemes are first approved by the Shariah adviser of the Target Fund based on its review of the relevant documents e.g. principal terms and conditions, and Shariah pronouncement or approvals.

f. Islamic FDIs

The Target Fund may invest in Islamic FDIs that are endorsed by other reputable Shariah advisers or committees, provided that such Islamic FDIs are first approved by the Shariah adviser of the Target Fund based on its review of the relevant documents e.g. principal terms and conditions, and Shariah pronouncements or approvals.

g. Any other Shariah-compliant investments

For avoidance of doubt, the Investment Manager shall seek the Shariah adviser of the Target Fund's approval before making investments for the Target Fund in Islamic liquidity management instruments, and shall submit all relevant documents relating to such instruments to the Shariah adviser of the Target Fund for this purpose.

Cleansing/ Purification Process for the Target Fund

a. Shariah Non-Compliant Investment

The Investment Manager will immediately dispose of any Shariah non-compliant investment inadvertently made by the Target Fund. If the disposal of the Shariah non-compliant investment results in a loss to the Target Fund, the loss is to be borne by the Investment Manager. The Investment Manager shall ensure that the loss is restored and returned to the Target Fund. The said investment will be disposed/withdrawn

with immediate effect or within a period of not more than one month after the Investment Manager becomes aware of the status of the investment. In the event that there are any capital gains or dividend received before or after the disposal of the investment, such gains will be channelled to *baitulmal* and/or any charitable bodies as selected by the Investment Manager and approved by the Shariah adviser of the Target Fund. The Target Fund has the right to retain only the investment cost.

b. Reclassification of Shariah status of the Target Fund's investments

If a security is reclassified as Shariah non-compliant by the SACSC and/or the Shariah board of the MSCI Islamic Index Series and/or any other relevant sources, as per the Shariah adviser of the Target Fund's advice, the said security shall be disposed of as soon as practical, once the total amount of dividends received and the market value held exceed or equal the investment costs. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of the Shariah non-compliant securities made at the time of the announcement/review can be kept by the Target Fund. However, any dividends received and excess capital gains derived from the disposal after the announcement/review day at a market price that is higher than the closing price on the announcement/review day is to be channelled to *baitulmal* and/or any charitable bodies as selected by the Investment Manager and approved by the Shariah adviser of the Target Fund.

On the other hand, the Target Fund is allowed to hold the investment in the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Target Fund to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Target Fund is advised to dispose of its holding in that securities.

c. Purification of Cash Dividend

The cleansing process is the means by which all remaining elements of non-permissible income are removed or purged from a portfolio through dividend cleansing. The process applies mainly to non-permissible income pursuant to the MSCI screening methodology and should be disposed according to the same methodology of the MSCI. The cleansed income shall be channelled to *baitulmal* and/or charitable bodies as selected by the Investment Manager and notified to or (if required) approved by the Shariah adviser of the Target Fund in accordance with the Shariah principles.

Payment of Zakat

This refers to the purification by way of payment of zakat by Muslims. The Target Fund will not pay zakat on behalf of Muslim holders. Thus, Muslim holders are advised to pay zakat on their own.

PERMITTED INVESTMENTS AND INVESTMENT RESTRICTIONS OF THE TARGET FUND

1. Permissible Investments

1.1 The Target Fund's underlying investments may only consist of the following permissible investments:

- b) “eligible Islamic deposits” refer to deposits with banks licensed under the Banking Act (Cap. 19), finance companies licensed under the Finance Companies Act (Cap. 108), merchant banks approved as financial institutions under section 28 of the Monetary Authority of Singapore Act (Cap. 186) or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

Requirements of Shariah-compliant transferable securities

- 1.3 Shariah-compliant transferable securities should meet the following requirements:

- a) the maximum potential loss which may be incurred as a result of the investment is limited to the amount paid for it;
- b) the investment is liquid;
- c) the investment is subject to reliable and verifiable valuation on a daily basis; and
- d) there is appropriate information available to the market on the investment or, where relevant, on the portfolio.

Guidance

In determining whether information on a transferable security is appropriate, the Investment Manager should consider if the information available on the market is regular and accurate, as well as sufficient to analyse the investment. For example, reliance on annual or financial reports is acceptable if the Investment Manager is of the view that it is appropriate.

Requirements on investments in other Islamic schemes

- 1.4 The Target Fund may invest in other Islamic schemes only if the underlying scheme is:

- a) an authorised or recognised Islamic scheme;

Guidance

Notwithstanding paragraph 1.4(a), the Target Fund should not invest in an underlying scheme which is a hedge fund or fund-of-hedge funds even if the underlying scheme complies with Appendix 3 of the Code on Collective Investment Schemes (“Code”).

- b) an Islamic scheme which:
 - i) is constituted and regulated in a jurisdiction where the laws and practices afford to participants in Singapore protection at least equivalent to that afforded to participants of schemes which are wholly managed in Singapore;
 - ii) adheres to investment guidelines and borrowing limits which are substantially similar to those set out in the relevant Appendices of the Code; and
 - iii) has a manager that is reputable and supervised by an acceptable financial supervisory authority; or

Guidance

Restricted schemes may be acceptable as underlying investments if they can meet the conditions in paragraph 1.4(b) or (c).

Requirements of Islamic financial derivatives

1.5 Islamic financial derivatives should meet the following requirements:

- a) the underlying consists of instruments referred to in paragraph 1.1, indices, interest rates, foreign exchange rates or currencies. The Investment Manager should undertake in the trust deed to settle such transaction in cash and disclose the fact in the prospectus of the Target Fund;
- b) the Islamic financial derivatives are liquid;
- c) the Islamic financial derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value; and
- d) the Islamic financial derivatives should not result in the delivery of investments other than those described in paragraph 1.1(a) to (f).

OTC Islamic financial derivatives

1.6 In the case of OTC Islamic financial derivatives, reliable and verifiable valuation stated in paragraph 1.5(c) refers to:

- a) a valuation made by the Investment Manager based on a current market value; or
- b) where such value is not available, a fair value based on an appropriate valuation model which is checked at an appropriate frequency by an independent party.

The valuation by the Investment Manager should not be based solely on a valuation provided by the counterparty to the transaction.

Guidance

The party who carries out the verification should be independent of the counterparty as well as the Investment Manager's fund management function.

2. Spread of Investments

Single entity limit and group limit

2.1 The Target Fund should comply with the following limits:

- a) Investments in:
 - i) Shariah-compliant transferable securities; or
 - ii) Islamic money market instrumentsissued by a single entity should not exceed 10% of the Target Fund's net asset value ("single entity limit").
- b) Aggregate investments in, or exposures to, a group of entities through:
 - i) Shariah-compliant transferable securities;
 - ii) Islamic money market instruments;
 - iii) eligible Islamic deposits; and
 - iv) counterparty risk exposures arising from the use of OTC Islamic financial derivatives,should not exceed 20% of the Target Fund's net asset value ("group limit"). For the purposes of this paragraph, a group of entities refers to an entity, its subsidiaries, fellow subsidiaries and its holding company.

Guidance 1

Investments in transferable securities and money market instruments issued by a trust should be included in the single entity limit and group limit.

Guidance 2

The group of entities referred to in the group limit also applies to aggregate investments in, or exposures to, special purpose vehicles ("SPVs") where the substance of the relationship between a sponsor and its SPV, determined in accordance with the Interpretation of Financial Reporting Standard 12, indicates that the SPV is controlled by that sponsor.

Short-term deposits

- 2.2 The group limit does not apply to placements of eligible Islamic deposits arising from liquidation of investments prior to the termination of the Target Fund, where the placing of these monies with various institutions would not be in the interests of participants.
- 2.3 The single entity limit of 10% may be raised to 15% of the Target Fund's net asset value where the issuing entity or trust is, or the issue is guaranteed by, either a government, government agency or supranational, that has a minimum long-term rating of BBB by Fitch, Baa by Moody's or BBB by Standard & Poor's (including such sub-categories or gradations therein).
- 2.4 If there is a downgrade in rating to that below the minimum rating as stated in paragraph 2.3, or if the rating agencies no longer rate the entity or the guarantor, the single entity limit should revert to 10%.
- 2.5 The single entity limit of 10% may be raised to 15% of the Target Fund's net asset value where the issuing entity or trust is, or the issue is guaranteed by, either a government, government agency or supranational, that has a minimum long-term rating of AA by Fitch, Aa by Moody's or AA by Standard & Poor's (including such sub-categories or gradations therein).
- 2.6 If there is a downgrade in rating to that below the minimum rating as stated in paragraph 2.5, or if the rating agencies no longer rate the entity or the guarantor, the single entity limit as specified in paragraph 2.1(a) or 2.3, as the case may be, should apply accordingly.

Unrated and non-investment grade corporate sukuk

- 2.7 The single entity limit of 10% in paragraph 2.1(a) for sukuk and other securitised Islamic debt instruments is lowered to 5% of the Target Fund's net asset value if the issuing entity or trust:
 - a) is not rated; or
 - b) has a long-term rating below that of BBB by Fitch, Baa by Moody's or BBB by Standard & Poor's (including such sub-categories or gradations therein).
- 2.8 Notwithstanding paragraph 2.7(a), the Investment Manager may rely on:
 - a) the rating of an unrated issuer's parent company provided that an explicit guarantee by the parent company for the issuer is in place; or
 - b) its internal rating of an unrated issuer if the Investment Manager has satisfied the trustee that its internal rating is comparable to a rating issued by Fitch, Moody's or Standard & Poor's.

Guidance

For the purpose of paragraph 2.8(b), the trustee may consider the Investment Manager's internal rating methodology.

Commodity-backed sukuk

- 2.9 The Target Fund may invest in sukuk that are undated, secured by physical commodities, listed for quotation and traded on an organised exchange, subject to the limit in paragraph 2.12.

Investment in other Islamic schemes

- 2.10 The Target Fund may invest up to 20% of its net asset value in another Islamic scheme only if the underlying scheme satisfies paragraph 1.4(a) or (b).
- 2.11 Investments in an underlying Islamic scheme which does not satisfy paragraph 1.4(a) or (b) but satisfies:
- a) paragraph 1.4(c) and is invested in permissible investments or real estate should not exceed 10% of the Target Fund's net asset value; or

Guidance

For example, investments in a real estate investment trust which do not satisfy paragraph 1.4(a) or (b) but satisfy the requirements in paragraph 1.3(a) to (d) should not exceed 10% of the Target Fund's net asset value.

- b) paragraph 1.4(c) and is invested directly in commodities (gold only) is subject to the limit in paragraph 2.12 below.

Guidance

Investments in a commodity-backed exchange-traded fund (gold exchange-traded fund only) which satisfies the requirements in paragraph 1.3(a) to (d) will be subject to the limit in paragraph 2.12.

Alternative exposure limit

- 2.12 Investments in:
- a) Shariah-compliant shares or Shariah-compliant securities equivalent to shares that are not listed for quotation or quoted, and have not been approved for listing for quotation or quotation, on an organised exchange; and
 - b) sukuk which are undated, secured by physical commodities, listed for quotation and traded on an organised exchange; and
 - c) underlying Islamic scheme which do not satisfy paragraph 1.4(a) or (b) but satisfy 1.4(c) and are invested directly in commodities (gold only),

are subject to an aggregate limit of 10% of the Target Fund's net asset value.

Concentration limit

- 2.13 The Target Fund should not invest in more than:
- a) 10% of the total outstanding Shariah-compliant shares, or Shariah-compliant securities equivalent to shares, of any single entity or trust; and
 - b) 10% of each individual issuance of sukuk of any single issuing entity or trust, where such issuance is not part of a debt issuance programme; or where sukuk are issued under a debt issuance programme, 20% of each tranche, subject to a limit of 10% of the overall programme size; and
 - c) 10% of the Islamic money market instruments of a single issuing entity or trust.

3. Global Exposure

- 3.1 The global exposure of the Target Fund to Islamic financial derivatives or embedded Islamic financial derivatives should not exceed 100% of the Target Fund's net asset value at all times.
- 3.2 The global exposure of the Target Fund will be calculated based on commitment approach.
- 3.3 The global exposure of the Target Fund is calculated as the sum of:
- a) the absolute value of the exposure of each individual Islamic financial derivative not involved in netting or hedging arrangements;

- b) the absolute value of the net exposure of each individual Islamic financial derivative after netting or hedging arrangements; and
- c) the sum of the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC Islamic financial derivatives,

and that are reinvested.

Netting arrangements

3.4 Netting arrangements may be taken into account to reduce the Target Fund's exposure to Islamic financial derivatives.

3.5 The Target Fund may net positions between:

- a) Islamic financial derivatives on the same underlying assets, even if the maturity dates are different; or
- b) Islamic financial derivatives and the same corresponding underlying asset, if those underlying assets are Shariah-compliant transferable securities, Islamic money market instruments or units in other Islamic schemes.

Hedging arrangements

3.6 Hedging arrangements may be taken into account to reduce the Target Fund's exposure to Islamic financial derivatives.

3.7 The marked-to-market value of Shariah-compliant transferable securities, Islamic money market instruments or units in Islamic schemes involved in hedging arrangements may be taken into account to reduce the Target Fund's exposure to Islamic financial derivatives.

3.8 For the purposes of paragraphs 3.6 and 3.7, the hedging arrangement should:

- a) not be aimed at generating a return;
- b) result in an overall verifiable reduction of the risk of the Target Fund;
- c) offset the general and specific risks linked to the underlying being hedged;
- d) relate to the same asset class being hedged; and
- e) be able to meet its hedging objective in all market conditions.

Guidance

Strategies which seek to offset the beta (market risk) but do not aim to offset the specific risks linked to the underlying investment and keep the alpha would not comply with the requirements in paragraph 3.8. Such strategies would include market neutral or long/short strategies.

3.9 Notwithstanding paragraph 3.8, Islamic financial derivatives used for the purposes of hedging currency exposure may be netted when calculating the global exposure.

4. Use of Islamic Financial Derivatives

Spread of underlying assets

4.1 The exposure of the Target Fund to the underlying assets of Islamic financial derivatives should be sufficiently diversified on a portfolio basis.

4.2 In the case where the underlying assets are:

- a) Shariah-compliant transferable securities, Islamic money market instruments, eligible Islamic deposits or units in other Islamic schemes, the limits in paragraph 2, except for the concentration limits, apply; and
- b) indices, paragraphs 4.2(a) apply to each constituent of the index, where applicable,

on a portfolio basis.

Embedded Islamic financial derivatives

- 4.3 Where a Shariah-compliant transferable security or Islamic money market instrument embeds an Islamic financial derivative, the requirements in paragraphs 3 and 4 apply to the embedded Islamic financial derivative.
- 4.4 Where the counterparty risk of the embedded Islamic derivative is or may be transferred to the Target Fund, the requirements in paragraph 5 also apply to the embedded Islamic financial derivative.
- 4.5 A Shariah-compliant transferrable security or Islamic money market instrument is considered to be embedding an Islamic financial derivative if it contains a component which fulfils the following criteria:
- a) the component results in some or all of the cash flows that otherwise would be required by the Shariah-compliant transferable security or Islamic money market instrument which functions as host contract to be modified according to a variable including but not limited to a specified interest rate, price of a financial instrument, foreign exchange rate, index of prices or rates, credit rating or credit index, and therefore vary in a way similar to a stand-alone financial derivative;
 - b) the component's economic characteristics and risks are not closely related to the economic characteristics and risks of the host contract; and
 - c) the component has a significant impact on the risk profile and pricing of the Shariah-compliant transferable security or Islamic money market instrument.
- 4.6 A Shariah-compliant transferable security or an Islamic money market instrument should not be regarded as embedding a financial derivative where it contains a component which is contractually transferable independently of the Shariah-compliant transferable security or the Islamic money market instrument. Such a component should be deemed to be a separate financial instrument.
- 4.7 Where an instrument is structured as an alternative to an OTC Islamic financial derivative or tailor-made to meet the specific needs of the Target Fund, the instrument should be deemed as embedding an Islamic financial derivative.

Cover

- 4.8 A transaction in Islamic financial derivatives which gives rise, or may give rise, to a future commitment on behalf of the Target Fund should be covered as follows:
- a) in the case of Islamic financial derivatives which will, or may at the option of the Target Fund, be cash settled, the Target Fund should hold, at all times, liquid assets sufficient to cover the exposure;

Guidance 1

The term "exposure" refers to any transaction in Islamic financial derivatives that may give rise to a future commitment by the Target Fund to make contractually required payments. As such, exposure would include, among others, any cash settlement of contracts, margin calls, and interest payments.

Guidance 2

Liquid assets refer to cash or permissible investments that can satisfy the requirements in chapter 1.2(i) of the Code. The quantity of such liquid assets held as cover should however be determined after the application of appropriate safeguards such as haircuts.

- b) in the case of Islamic financial derivatives which will, or may at the option of the counterparty, require physical delivery of the underlying assets, the Target Fund should hold the underlying assets in sufficient quantities to meet the delivery obligation at all times. If the Investment Manager deems the underlying assets to be sufficiently liquid, the Target Fund may hold as coverage other liquid assets in sufficient quantities, provided that

such alternative assets may be readily converted into the underlying asset at any time to meet the delivery obligation.

5. Counterparty of Islamic Financial Derivatives

OTC Islamic financial derivatives

- 5.1 The counterparty of an OTC Islamic financial derivative should be subject to prudential supervision by a financial supervisory authority in its home jurisdiction.
- 5.2 Subject to the group limit in paragraph 2.1, the maximum exposure of the Target Fund to the counterparty of an OTC Islamic financial derivative may not exceed:

- a) in the case of an eligible financial institution described in paragraph 5.3, 10% of the Target Fund's net asset value; or
- b) in any other case, 5% of the Target Fund's net asset value,

("counterparty limits").

Note: For the purpose of paragraph 5.2(b), the credit rating for the counterparty of OTC Islamic financial derivatives will be at least investment grade, even where this is not required under the Code.

- 5.3 For the purpose of paragraph 5.2, an eligible financial institution should have a minimum long-term rating of A by Fitch, A by Moody's or A by Standard & Poor's (including sub-categories or gradations therein). Alternatively, where the financial institution is not rated, the Target Fund should have the benefit of a guarantee by an entity which has a long-term rating of A (including sub-categories or gradations therein).
- 5.4 The exposure to a counterparty of an OTC Islamic financial derivative should be measured based on the maximum potential loss that may be incurred by the Target Fund if the counterparty defaults and not on the basis of the notional value of the OTC Islamic financial derivative.

Exchange-traded Islamic financial derivatives

- 5.5 Islamic financial derivatives which:

- a) are transacted on an exchange where the clearing house performs a central counterparty role; and
- b) have trades which are characterised by a daily marked-to-market valuation of the financial derivative positions and subject to at least daily margining,

would not be subject to the counterparty limits in paragraph 5.2.

Margins

- 5.6 Any exposure arising from initial margin posted and the variation margin receivable from a counterparty relating to OTC or exchange-traded Islamic financial derivatives, which is not protected against insolvency of the counterparty, is to be included in the counterparty limit.

Guidance

The exposures from margins held with brokers need not be included if the margins are maintained in trust accounts.

6. Borrowings

- 6.1 The Target Fund may borrow, on a temporary basis, for the purposes of meeting redemptions and bridging requirements.
- 6.2 The Target Fund may only borrow from banks licensed under the Banking Act (Cap. 19), finance companies licensed under the Finance Companies Act (Cap. 108), merchant banks approved as

financial institutions under section 28 of the Monetary Authority of Singapore Act (Cap. 186) or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

6.3 The borrowing period should not exceed one month.

6.4 Aggregate borrowings for the purposes of paragraph 6.1 should not exceed 10% of the Target Fund's net asset value at the time the borrowing is incurred.

Guidance

Credit balances (e.g. cash) may not be offset against borrowings when determining the percentage of borrowings outstanding.

7. Breaches

7.1 Rectification

The Investment Manager should take all necessary action to rectify any breach of the Code as soon as practicable. The Investment Manager should not enter into any transaction that would increase the extent of the breach.

7.2 Notification

a) The Investment Manager should inform the Monetary Authority of Singapore within three (3) business days after it becomes aware of any breach of the guidelines or limits set out in Part I and Part II of the Code.

b) Notwithstanding chapter 7.2(a), any breach as a result of any:

- i) appreciation or depreciation in the value of the Target Fund's underlying investments;
- ii) redemption of units or payments made from the Target Fund;
- iii) change in the capital of a company;

Guidance

Examples of changes in the capital include changes in the total outstanding shares of a company arising from the issuance of (pro-rata) rights or bonuses.

iv) reduction in the weight of a constituent in the benchmark being tracked by a scheme; or

v) downgrade in or cessation of a credit rating,

need not be reported to the Monetary Authority of Singapore as long as such breach is rectified in accordance with paragraph 7.1 but no later than three (3) months from the date of the breach unless otherwise specified in Part I of the Code. This period may be extended if the Investment Manager satisfies the trustee of the Target Fund that it is in the best interest of participants. Such extension should be subject to monthly review by the trustee of the Target Fund.

SPECIFIC RISKS OF THE TARGET FUND

Company Specific Risk

Specific risks to Shariah-compliant securities issued by a company apply as there are adverse conditions or negative sentiments which a company can be uniquely exposed to, be it from the view of management issues, deteriorating business fundamentals or losing competitiveness. As a consequence, the price of Shariah-compliant securities issued by such company might fall and subsequently affect the Target Fund's performance. The impact of a specific company may be reduced where the Target Fund invests in a wide portfolio of investments consisting of Shariah-compliant securities issued by different companies thereby spreading the element of this risk through diversification.

Default Risk

Default risk will arise when the issuer of a sukuk fails to make timely payments of profit and/or principal. This may cause the value of the Target Fund to be adversely affected.

Furthermore, current Islamic deposits and fixed deposits that the Target Fund has placed with financial institutions are also exposed to credit or default risk. If the financial institutions become insolvent, the Target Fund may suffer capital losses with regards to the capital deposited and profits foregone, causing the performance of the Target Fund to be adversely affected.

Note: The Investment Manager may from time to time rely on ratings issued by credit rating agencies. The Investment Manager has established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the investments by the Target Fund are in line with these standards. Information on the Investment Manager's credit assessment process (in such form and manner and to such extent as it may decide) can be made available to the Fund upon request. The Fund shall agree in writing to keep such credit assessment process information confidential if so required by the Investment Manager.

Interest Rate Risk

The investments of the Target Fund in sukuk are subject to interest rate risk. A sukuk's value will generally increase in value when interest rates fall and decrease in value when interest rates rise. Interest rate risk is the chance that such movements in interest rates will negatively affect a sukuk's value or, in the Target Fund's case, its net asset value. Sukuk with longer-term maturities tend to be more sensitive to interest rate changes than shorter-term sukuk. As a result, longer-term sukuk tend to offer higher yields for this added risk. While changes in interest rates may affect the Target Fund's profit income, such changes may positively or negatively affect the net asset value of the Target Fund's units on a daily basis.

Currency Risk

Where the Target Fund has investments that are not denominated in the same currency as the Target Fund, the Target Fund is exposed to currency risk. Fluctuation in foreign currency exchange rates will also affect the value of the Target Fund's investments when converted into the currency of denomination of the Target Fund and subsequently the value of the holders' investments.

In the management of the Target Fund, the Investment Manager may use Islamic foreign currency forwards to hedge the foreign currency exposure in full or partially, and may actively manage such exposure.

Derivatives Risk

Subject to the provisions set out in the prospectus of the Target Fund, the Investment Manager may use various Islamic FDIs. Throughout this section and others that refer to Islamic FDIs, privately negotiated or non-exchange traded Islamic FDIs are referred to as being OTC.

The Target Fund may use Islamic FDIs relating to, for example, currencies, securities, indices and interest rates, for the purposes set out in the prospectus of the Target Fund.

The performance and value of Islamic FDIs depend, at least in part, on the performance or value of the underlying asset. Islamic FDIs involve cost, may be volatile, and may involve a small investment relative to the risk assumed (leverage effect). Their successful use may depend on the Investment Manager's ability to predict market movements. Risks include default by the counterparty or the inability to close out a position because the trading market becomes illiquid. Some Islamic FDIs (such as interest rate swaps, options or futures which are related to interest rates) are particularly sensitive to changes in interest rates.

Transactions in futures may carry a high degree of risk. The amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact on the value of the Target Fund (than if no futures contracts were entered into) which may work for or against the Target Fund. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders.

Note: This refers to orders to buy or sell futures contract. The evolution of the market may make it difficult or impossible to sell a derivative contract (for example, where there is no offer to meet the demand, closure of the market due to economic or political conditions, etc.).

Forward transactions, in particular those traded OTC, have an increased counterparty risk. If a counterparty defaults, the Target Fund may not get the expected payment. This may result in a loss of the unrealised profit.

Transactions in options may also carry a high degree of risk. Selling (“writing” or “granting”) an option generally entails considerably greater risk than purchasing options.

Although the premium received by the Target Fund is fixed, the Target Fund may sustain a loss well in excess of that amount. The Target Fund will also be exposed to the risk of the purchaser exercising the option and the Target Fund will be obliged either to settle the option in cash or to acquire the underlying investment or asset in the options contract or deliver the underlying investment. If the option is “covered” by the Target Fund holding a corresponding position in the underlying investment or a future on another option (i.e. a future on an option similar to the one held by the Target Fund), the risk may be reduced.

The risk of loss to the Target Fund for a swap transaction on a net basis depends on which party is obliged to pay the net amount to the other party. If the counterparty is obliged to pay the net amount (the amount that the Target Fund will finally get as opposed to the notional amount) to the Target Fund, the risk of loss to the Target Fund is the loss of the amount that the Target Fund is entitled to receive; if the Target Fund is obliged to pay the net amount, its risk of loss is limited to the net amount due.

Islamic FDIs traded in OTC markets may trade in smaller volumes, and their prices may be more volatile than instruments traded on exchanges. Such instruments may be less liquid than more widely traded instruments (i.e. those that are traded on a centralised exchange). In addition, the prices of such instruments may include an undisclosed dealer mark-up which the Target Fund may pay as part of the purchase price.

Counterparty Risk

Where the Target Fund enters into OTC transactions, the Target Fund is exposed to the risk that a counterparty may default on its obligations to perform under the relevant contract. If a counterparty becomes bankrupt or insolvent, the Target Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Target Fund seeks to enforce its rights. The Target Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

Call Risk

Subject to the provisions set out in the prospectus of the Target Fund, The Target Fund may invest in callable sukuk. Issuers may call these sukuk prior to maturity for a variety of reasons (e.g falling interest rates, changes in credit spreads and improvements in the issuer’s credit quality). If an issuer calls a sukuk that the Target Fund has invested in, the Target Fund would then lose any price appreciation above the sukuk’s call price, and may not recoup the full amount of its initial investment. The Target Fund may also be forced to reinvest the unanticipated proceeds in sukuk with lower profit rates, sukuk with greater credit risks or sukuk with less favourable features.

Reclassification of Shariah Status Risk

The Investment Manager will be advised by the Shariah adviser of the Target Fund, in accordance with the terms set out in the prospectus of the Target Fund. The investments of the Target Fund must comply with the Shariah investment guidelines of the Target Fund before the Investment Manager may make these investments. As a consequence, the Target Fund may be required to undertake or dispose of investments in circumstances that are less advantageous than might otherwise be the case for other investment funds that do not seek to adhere to the Shariah investment guidelines of the Target Fund. For instance, where a security is reclassified as Shariah non-compliant through an announcement/review

by the relevant bodies as described in the Shariah investment guidelines of the Target Fund, the Shariah adviser of the Target Fund may require the Target Fund to dispose of this security. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of such security made as of the day of the announcement/review can be kept by the Target Fund. However, any dividends received and excess capital gains derived from the disposal after the announcement/review day at a market price that is higher than the closing price on the announcement/review day is to be channelled to *baitulmal* and/or any charitable body as selected by the Investment Manager and notified to or (if required) approved by the Shariah adviser of the Target Fund in accordance with the Shariah principles.

The Target Fund may also be required to forego investments that it otherwise could have undertaken if it were not a Shariah-compliant fund.

Although the Investment Manager intends to observe the Shariah investment guidelines of the Target Fund at all times, you should note that no such assurance can be given, as there may be occasions when the Target Fund's investments do not fully comply with such criteria due to factors outside the Investment Manager's control.

The Target Fund may invest in certain securities that generate dividend or income which is considered to be not "pure" by the Shariah adviser of the Target Fund (i.e. being non-Shariah compliant). Such income and dividend may be required by the Shariah adviser of the Target Fund to be "purified" by donating them to charitable bodies as may be selected by the Investment Manager and notified to or (if required) approved by the Shariah adviser of the Target Fund in accordance with the Shariah principles. Therefore, the amount to be distributed to holders (i.e., the Fund) will be derived from the net income of the Target Fund (post purification by the Target Fund of such non "pure" amount as mentioned in the foregoing).

Limited Counterparties for Islamic FDIs Risk

The Target Fund might use Islamic FDIs for hedging purposes. There may be a limited number of counterparties available for certain Shariah-compliant financial instruments, exposing the Target Fund to the possibility that only a few counterparties or only one counterparty is available to engage in a given transaction. Where such counterparties do not offer competitive rates for a hedging transaction or decide not to roll a hedging transaction when it falls due, the Target Fund's ability to implement its hedging strategy would be impaired.

Sukuk Investment Risk

The changes in price of sukuk are influenced predominantly by interest rates in the capital markets, which in turn are influenced by macro-economic factors. Sukuk could suffer when capital market interest rates rise, while they could increase in value when capital market interest rates fall. The price changes of sukuk also depend on the remaining term to maturity of the relevant sukuk. In general, sukuk with shorter terms have less price risks than sukuk with longer terms, but also generate lower returns, and require that the Target Fund reinvest more frequently than if the sukuk had a longer term.

Sovereign Sukuk

Sovereign sukuk are sukuk issued or guaranteed by government or government-linked entities. Investment in sovereign sukuk involves some risk, as the governmental entity that controls the repayment of sovereign sukuk may not be able or willing to repay the principal and/or return the same when due in accordance with the terms of such debt due to factors such as (i) the state of their foreign reserves, and (ii) the available amount of their foreign exchange as at the date of repayment. Sovereign sukuk holders may also be affected by additional constraints relating to sovereign issuers, such as (i) the unilateral rescheduling of such debt by the issuer and (ii) the limited legal recourses available against the issuer (in case of failure or delay in repayment).

Exposure to Gold

Investors should note that the Target Fund is subject to risks linked to its investments in Islamic gold ETFs. The value of the Target Fund's investments in Islamic gold ETFs is tied to the price of gold, which in turn is influenced by unique factors. For example, crises may motivate large-scale sales of gold, which could decrease the price of gold. The official sector or various ETFs could also make substantial sales and/or purchases of gold, which could contribute to the volatility of the price of gold.

THE ABOVE ARE THE KEY RISKS APPLICABLE TO THE TARGET FUND AND MAY NOT BE EXHAUSTIVE. INVESTORS ARE ADVISED TO CONSULT THEIR ADVISER(S), E.G. THEIR BANKERS, SHARIAH ADVISERS, LAWYERS, STOCKBROKERS OR INDEPENDENT PROFESSIONAL ADVISERS FOR A BETTER UNDERSTANDING OF THE RISKS.
