Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Third Supplementary Prospectus in connection with the offer of units in the unit trust known as Maybank Global Sustainable Technology Fund (hereinafter referred to as “the Fund”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a

This Third Supplementary Prospectus is dated 15 April 2025 and must be read together with the Prospectus dated 18 January 2021, the First Supplementary Prospectus dated 1 March 2023 and the Second Supplementary Prospectus dated 27 December 2023.

deduction for a portion of other expenses (referred to as “permitted expenses”) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- ▶ the manager's remuneration,
- ▶ maintenance of the register of unit holders,
- ▶ share registration expenses,
- ▶ secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where A is the total of the permitted expenses incurred for that basis period;

B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and

C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

All Malaysian-sourced dividends should be exempt from income tax.
- ▶ **Malaysian sourced interest**

- ▶ **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act, 1967 shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign-sourced income (FSI)

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax. Based on the Malaysian Inland Revenue Board's "Guidelines on Tax Treatment in Relation to Income Received from Abroad (Amendment)" updated on 20 June 2024, the term "received in Malaysia" means transferred or brought into Malaysia, either by way of cash⁴ or electronic funds transfer⁵.

FSI received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax⁶, and where relevant conditions are met.

The Income Tax (Unit Trust in relation to Income Received In Malaysia from Outside Malaysia) (Exemption) Order 2024 [P.U.(A) 250] has been issued to exempt a "qualifying unit trust"⁷ from the payment of income tax in respect of gross income from all sources of income under Section 4 of the MTA (including capital gains classified under Section 4(aa)), which is received in Malaysia from outside Malaysia.

This exemption applies to FSI received in Malaysia from 1 January 2024 to 31 December 2026, subject to the following conditions being complied with by the qualifying unit trust or the management company⁸ of the qualifying unit trust:

- ▶ The income received in Malaysia has been subject to tax of a similar character to income tax under the laws of territory from which the income arose; and
- ▶ The highest rate of tax of a similar character to income tax under the law of that territory at that time is not less than 15%.

The exemption will not apply to a unit trust carrying on the business of banking, insurance or sea or air transport.

Gains from the realisation of investments

Pursuant to the Finance (No. 2) Act 2023 ("Finance Act"), gains from the realisation of investments by a unit trust would no longer be exempt from tax. Pursuant to Section 61(1)(b) of the MITA, gains arising from the realisation of investments shall be treated as income of a unit trust under Section 4(aa) of MITA, provided that such gains are not related to real property as defined in the Real Property Gains Tax Act 1976. Section 4(aa) provides that gains or profits from the disposal of a capital asset are to be treated as a class of income. The tax imposed on such income under the MITA is commonly referred to as "capital gains tax" (CGT).

Based on the MITA, the following will be subject to Malaysian CGT:

- ▶ employ an adequate number of employees in Malaysia with necessary qualifications to carry out the specified economic activities in Malaysia; and

- incur an adequate amount of operating expenditure for carrying out the specified economic activities in Malaysia.

Note that this exemption order applies to companies, limited liability partnerships, co-operative societies and trust bodies, whilst the (Income Tax (Unit Trust in relation to Income Received in Malaysia from Outside Malaysia) (Exemption) Order 2024 [P.U.(A) 250] (as referred above) applies specifically to qualifying unit trusts.

The Finance Act provides an effective date of 1 January 2024 for the above changes to the MITA. However, pursuant to the Income Tax (Exemption) (No. 7) Order 2023 [P.U.(A) 410] and the Income Tax (Exemption) (No. 2) Order 2024 [P.U.(A) 57], taxpayers, including a trust body, are exempted from the payment of income tax in respect of any gains or profits received from the disposal of capital assets situated in Malaysia (see Item (a) and (b) above) where such disposals occur between 1 January and 29 February 2024.

In addition to the above, the Income Tax (Unit Trust) (Exemption) Order 2024 [P.U.(A) 249] exempts a qualifying unit trust⁹ resident in Malaysia from the payment of income tax in respect of any gains or profit received from the disposal of shares of a company incorporated in Malaysia which is not listed on the stock exchange and from the disposal of shares under section 15C of the MITA where such disposals occur between 1 January 2024 to 31 December 2028.

The exemption will not apply to gains or profits from the disposals of capital asset that fall under Section 4(a) of the MITA, as business income.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to service tax¹⁰ provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

¹⁰ Pursuant to Service Tax (Rate of Tax) (Amendment) Order 2024 [P.U. (A) 64], the service tax rate is increased from 6% to 8% with effect from 1 March 2024 on generally all of the taxable services except for provision of food and beverage services, telecommunication services, parking space and logistics services.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount. See however item 2 below on certain distributions which are not taxable to unit holders.

Such taxable distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holders.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the MITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

As stated above, with effect from 1 January 2024 (1 March 2024 for disposals of shares of a company incorporated in Malaysia not listed on the stock exchange), gains arising from the realisation of investments shall be treated as income of the Fund under Section 4(aa), pursuant to the proviso of Section 61(1)(b) of MITA.¹² However, pursuant to Section 61(1A) of MITA, unit holders will still not be charged to tax on the gains referred to in the proviso to Section 61(1)(b).

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
Malaysian tax resident: - Individual and non-corporate unit holders (such as associations and societies) - Co-operatives¹¹ - Trust bodies - Corporate unit holders (i) A company with paid up capital in respect of ordinary shares of not more than RM2.5 million (at the beginning of the basis period for the year of assessment) and gross income from a source or sources consisting of a business not exceeding RM50 million for the basis period for the year of assessment^{12 13}	- Progressive tax rates ranging from 0% to 30% - Progressive tax rates ranging from 0% to 24% 24% - First RM150,000 of chargeable income @ 15%¹⁴ - Next RM450,000 of chargeable income @ 17% - Chargeable income in excess of RM600,000 @ 24%

¹¹ Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society--
(a) in respect of a period of five years commencing from the date of registration of such co-operative society; and
(b) thereafter where the members' funds (as defined in Paragraph 12(2)) of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit, is exempt from tax.

¹² A company would not be eligible for the concessionary tax rate on the first RM600,000 of chargeable income if:-
(a) more than 50% of the paid-up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid-up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;

(d) Pursuant to the Finance Act 2023, effective from the year of assessment 2024, in order for a company to qualify for the concessionary tax rates not more than 20% of the paid-up capital in respect of the ordinary

This Third Supplementary Prospectus is dated 15 April 2025 and must be read together with the Prospectus dated 18 January 2021, the First Supplementary Prospectus dated 1 March 2023 and the Second Supplementary Prospectus dated 27 December 2023.

Unit holders	Malaysian income tax rates
(ii) Companies other than (i) above	• 24%
Non-Malaysian tax resident (Note 1):	
• Individual and non-corporate unit holders • Corporate unit holders and trust bodies	• 30% • 24%

Note 1:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

Gains from sale of units

Gains arising from the sale of units will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders / dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- ▶ Unit splits - new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- ▶ Reinvestment of distributions - unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

shares of the company at the beginning of a basis period for a year of assessment can be directly or indirectly owned by one or more companies incorporated outside Malaysia or by individuals who are not citizens of Malaysia.

¹³ The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.

¹⁴ Pursuant to the Finance Act 2023, effective from the year of assessment 2023, the concessionary tax rate is reduced from 17% to 15% for the first RM150,000 of chargeable income.

1. **Amendment to Investment Policy and Strategy in Chapter 3 - Fund Information on pages 5 - 6 of the Prospectus**

The information in relation to the environmental, social and governance (“ESG”) considerations is hereby deleted in its entirety and replaced with the following:

The Fund seeks to adopt a unique investment approach that integrates both active management as well as ESG considerations in a complementary manner.

As the Fund is a qualified SRI fund, the investments of the Fund will be subject to ESG integration methodology. ESG considerations play an important role in how the Manager and the Investment Adviser evaluate ideas.

The Manager and Investment Adviser place a particular emphasis on corporate governance, generally seeking to invest in companies with strong boards (that is, boards with a high degree of independence, comprised of professionals with relevant experience and insights, and with an appropriate level of diversity) and management teams with a history of thoughtful capital allocation, which promote a strong corporate culture (that is, qualitative assessment of a company’s ability to attract and retain high quality talent), and are compensated pursuant to a responsible incentive structure. The Manager and Investment Adviser use the following quantitative and qualitative measures to determine and track “strong boards” (i.e. board effectiveness):

- board independence and diversity;
- board tenure diversity;
- board size;
- audit and risk oversight assessment;
- subcommittee independence; and
- an overall board assessment for effectiveness.

Companies with a history of thoughtful capital allocation typically have management teams that make investment decisions based on long-term strategic goals over short-term objectives; for example, the Manager and the Investment Adviser do not prefer acquisitions or share buybacks being used to boost short-term earnings results, but prefer to see capital being allocated in a way that builds shareholder value over the long-term.

Social considerations are also important when evaluating companies with access to large customer data sets, particularly as it pertains to the company’s transparency surrounding the type of data collected, the manner in which the data are used, and the circumstances under which the data might be shared with others. The following considerations are part of the Manager and Investment Adviser’s materiality frameworks when evaluating technology companies from a social perspective, including the measures the Manager and the Investment Adviser use to track and analyse them:

- human capital management/ culture/ safety: management diversity, labour management and labour rights assessment, employee turnover rates, workforce diversity, and health and safety assessment
- supply chain management: assessment of the companies supply chain, assessment of adherence to labour rights, procurement concentration vs geographical sales breakdown, and local sourcing percentages

This Second Supplementary Prospectus is dated 27 December 2023 and must be read together with the Prospectus dated 18 January 2021 and the First Supplementary Prospectus dated 1 March 2023.

- cybersecurity and data privacy: real-time cyber testing scores, incident responses, operational practices, research and development investments into cyber efforts
- customer welfare: customer welfare assessment, human rights assessment, anti-competitive practices assessment
- product quality and safety: product quality and safety assessment, customer controversy scores, marketing and advertising assessments, track record or management quality, degree of customer transparency

The Manager and the Investment Adviser may also consider the environmental impact of companies developing technologies which contribute to lower carbon emissions, the creation or use of renewable sources of energy, and improved sustainability. When assessing a company's environmental impact, the Investment Adviser's ESG analysts will look for the following:

- i) a strong culture with a high level of accountability throughout the organization is an important part of the investment process. They will look for companies that want to be "good neighbours", which have a strong indicator of good governance, as well as good environmental stewardship; and
- ii) companies that are relentlessly focused on driving greater efficiencies in their operations, which reduce the amount of waste and thus energy and material resources consumed during the manufacturing process.

The following considerations are part of the Manager and the Investment Adviser's materiality frameworks when evaluating technology companies from an environmental perspective, including the measures the Manager and the Investment Adviser use to track and analyse them:

- climate transition strategy and operational resource efficiency: transition climate value at risk (Var), energy management and renewable energy assessment, biodiversity assessment, energy consumption and efficiency assessment, clean energy use, toxic emission and waste assessment, assessment of credibility and ambition of climate transition and resource efficiency plans
- physical climate risk: physical climate value at risk (VaR), assessment of credibility and quality of climate adaption plan
- product opportunity: product opportunity assessment which includes an assessment of company-specific product differentiation, research and development investment, and total addressable market/ revenue statistics
- water management: water management assessment, wastewater pollutants assessment, supply chain risk assessment, analysis of water recycling remediation and related efforts

If a company is able to score strongly in the areas above, we believe they have sufficient ability to demonstrate strong environmental impact.

In addition, the Manager and the Investment Adviser's portfolio management team may consult the Investment Adviser's ESG analysts for insight on material factors of differentiation between companies within regional and sector peer groups. Furthermore, the Investment Adviser's ESG analysts may support the Manager and the Investment Adviser's ability to identify global best practices, prepare for companies' engagement and collaborate on new research inputs.

This Second Supplementary Prospectus is dated 27 December 2023 and must be read together with the Prospectus dated 18 January 2021 and the First Supplementary Prospectus dated 1 March 2023.

The Manager, at the point of investment, will not consider those companies that are in breach of environmental law and international human rights law (including but not limited to human rights and/or child labour violation) and will exclude companies that are dealing directly with weaponry and armament. For clarity purposes, the Manager will exclude companies that have 5% or more of revenues tied to weaponry and armaments.

At times, the Manager may, in consultation with the Investment Adviser:

- (i) choose to exclude a company from the Fund's investment universe based on ESG considerations; and
- (ii) choose to include a company which may place greater emphasis on corporate governance where the governance consideration weighs more than the environmental or social considerations, or where the governance consideration is the sole consideration. For example, there could be situation where the company might have history in breach of social aspects (e.g., data privacy breached) or environmental aspects (e.g., high carbon emission); however, the company's board is committed and has depicted its effort working towards rectifying and improving the environmental (e.g., shifting towards clean energy usage / less waste produced) or social condition (e.g., improved cybersecurity measurement and efforts) which have positive financial materiality impact in the longer term.

The Manager and the Investment Adviser will generally place greater consideration on ESG factors that are financially material when making investment decisions

The Manager will adopt a forward looking and dynamic view of risk strategy by assessing the fundamentals of the companies and engage the Investment Adviser periodically for updates on the companies to ensure that the companies which the Fund invests in are in line with the ESG considerations adopted by the Fund, and the overall impact of the investments of the Fund is not inconsistent with any other ESG considerations. The Manager will ensure that at least 2/3 of the Fund's NAV remains in ESG-compliant investments at all times.

If the Fund breaches the aforesaid minimum asset allocation, the Manager will within a reasonable period of not more than 3 months from the date of the breach take all necessary steps and actions to rectify the breach. However, if the companies that the Fund invests in show persistent deterioration in their ESG factors and/or sustainability characteristics, the Manager will seek to dispose of the Fund's investments in such companies within an appropriate timeframe not exceeding 3 months from the date such investment no longer qualifies as an ESG security, subject to the underlying liquidity of the security.

2. Amendment to Temporary Defensive Position in Chapter 3 - Fund Information on page 7 of the Prospectus

The information in relation to temporary defensive position is hereby deleted in its entirety and replaced with the following:

The Manager may adopt temporary defensive positions to protect the Fund's investments to respond to adverse market, political, economic or any other conditions by holding more than 20% of the Fund's NAV in deposits and money market instruments that may be inconsistent with the Fund's principal investment strategy and asset

This Second Supplementary Prospectus is dated 27 December 2023 and must be read together with the Prospectus dated 18 January 2021 and the First Supplementary Prospectus dated 1 March 2023.

allocation. However, the Manager will ensure that at least 2/3 of the Fund's NAV remains in ESG-compliant investments.

3. **Amendment to Specific Risks of the Fund in “Chapter 3 - Fund Information on page 8 of the Prospectus**

The information on relation to ESG investment risk is hereby deleted in its entirety and replaced with the following:

ESG Investment Risk

As a qualified SRI fund, the investments of the Fund will be subject to ESG integration methodology which may result in the Fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities which are no longer in line with the sustainability characteristics adopted by the Fund when it might be disadvantageous to do so. The Fund may use one or more third party ESG research data providers and/or internal analysis provided by the Investment Adviser. In assessing the eligibility and the continuous monitoring of the investee company are in line with ESG considerations, there is a dependence upon information and data from third party ESG research data providers and internal analysis provided by the Investment Adviser, which may be incomplete, inaccurate or unavailable. As a result, there is a risk to incorrectly assess a security or an investee company. To manage and mitigate ESG investment risk, we, in consultation with the Investment Adviser, will apply the ESG screening process as set out under the heading “Investment Policy and Strategy” in Chapter 3 of the Prospectus to global technology-related companies.

4. **Amendment to Use of Derivatives in “Chapter 3 - Fund Information” on page 6 of the First Supplementary Prospectus**

The following paragraph is hereby inserted immediately before the “Calculation of Global Exposure to Derivatives and Embedded Derivatives” in “Use of Derivatives”:

The Fund's global exposure to derivatives must not exceed the Fund's NAV at all times.

5. **Amendment to Related Party Transactions in “Chapter 9 - Conflict of Interest and Related Party Transactions” on page 36 of the Prospectus**

The information on related party transactions is hereby deleted in its entirety and replaced with the following:

5. **Amendment to General Risks of Investing in the Fund in “Chapter 3 - Fund Information” on pages 7 - 8 of the Prospectus**

- (i) The information on the liquidity risk is hereby deleted in its entirety and replaced with the following:

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

Liquidity risk of the Fund is also our ability as manager to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. We will actively manage the liquidity of the Fund and/or where available, take cash financing on a temporary basis as permitted by the relevant laws to manage the Unit Holders' redemption requests.

- (ii) The "Suspension of Redemption Risk" is hereby inserted immediately after the "Returns Are Not Guaranteed" as follows:

Suspension of Redemption Risk

The Fund may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units under exceptional circumstances, where the fair value of a material portion of the Fund's assets cannot be reasonably determined. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be compelled to remain invested in the Fund for a longer period of time than the stipulated redemption timeline. Hence, Unit Holder's investments will continue to be subjected to the risk factors inherent to the Fund. Please refer to Section 5.15 of this Prospectus for more information on suspension of dealing in Units.

6. Amendment to Risk Management Strategies in "Chapter 3 - Fund Information" on pages 11 -12 of the Prospectus

The information on the risk management strategies is hereby deleted in its entirety and replaced with the following:

Risk Management Strategies

Risk management is an integral part of our investment management process. The Manager employs measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity markets and liquidity risks are high, the Manager may reduce the Fund's allocation in equities and equity-related securities and increase its asset allocation to liquid assets to safeguard the investment portfolio of the Fund. The Fund's exposure will also be spread across various countries, counterparties and companies in the technology sector as diversification strategy is also recognized by us as an essential risk management strategy for the Fund.

In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by the Manager and the Investment Adviser to ensure that the Fund's investment objective is met.

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

Liquidity Risk Management

In managing the Fund's liquidity, we will:

- (a) actively manage the liquidity of the Fund to meet redemption requests from Unit Holders; and/or
- (b) where available, borrow cash or obtain cash financing on a temporary basis for the purpose of meeting redemption requests for Units and for short term bridging requirements subject to the conditions set out in the section below under the heading "Financing and Borrowing".

However, if we have exhausted the above avenue, we will then, in consultation with the Trustee and having considered the interests of the Unit Holders, resort to suspend the redemption of Units to manage the liquidity of the Fund under exceptional circumstances, where the fair value of a material portion of the Fund's assets cannot be reasonably determined. Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. Please refer to Section 5.15 of this Prospectus for more information on suspension of dealing in Units.

- The value of the Fund's placement in deposits with any single financial institution must not exceed 20% of the Fund's NAV. The single financial institution limit does not apply to placements of deposits arising from:
 - (a) subscription monies received prior to the commencement of investment by the Fund;
 - (b) liquidation of investment prior to the termination of the Fund, where the placement of deposits with various financial institutions would not be in the best interests of the Unit Holders; or
 - (c) moneys held for the settlement of redemption or other payment obligations, where the placement of deposits with various financial institutions would not be in the best interests of the Unit Holders.
- The aggregate value of the Fund's investments in, or exposure to, a single issuer through transferable securities, money market instruments, deposits, underlying assets of derivatives and counterparty exposure arising from the use of OTC derivatives must not exceed 25% of the Fund's NAV ("single issuer aggregate limit"). In determining the single issuer aggregate limit, the value of the Fund's investments in instruments in the first bullet under "Exposure Limit" issued by the same issuer must be included in the calculation.
- Where the single issuer limit is increased to 35% of the Fund's NAV pursuant to the third bullet under "Investment Spread Limits", the single issuer aggregate limit in the fifth bullet under "Investment Spread Limits" may be raised, subject to the group limit in the eighth bullet under "Investment Spread Limits" not exceeding 35% of the Fund's NAV.

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

- The value of the Fund's investments in units or shares of a collective investment scheme that complies with the Guidelines must not exceed 20% of the Fund's NAV.
- The value of the Fund's investments in transferable securities and money market instruments issued by any group of companies must not exceed 20% of the Fund's NAV ("group limit"). In determining the group limit, the value of the Fund's investments in instruments in the first bullet under "Exposure Limit" issued by the issuers within the same group of companies must be included in the calculation.

- The Fund's investments in shares or securities equivalent to shares must not exceed 10% of the shares or securities equivalent to shares, as the case may be, issued by a single issuer.
- The Fund's investments in money market instruments must not exceed 10% of the instruments issued by any single issuer. This limit does not apply to money market instruments that do not have a pre-determined issue size.
- The Fund's investments in collective investment schemes must not exceed 25% of the units or shares in the collective investment schemes.

The limits and restrictions on the investments of the Fund do not apply to securities or instruments issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

The above stated limits and restrictions shall be complied with at all times based on the most up-to-date value of the Fund's investments and instruments. We will notify the SC, within 7 Business Days of any breach of investment limits and restrictions with the steps taken to rectify and prevent such breach from recurring. However, where the restriction or limit is breached as a result of any appreciation or depreciation in the value of the Fund's assets, redemption of Units or payment made from the Fund, change in capital of a corporation in which the Fund has invested in or downgrade in or cessation of a credit rating, we will, within a reasonable period of not more than 3 months from the date of the breach take all necessary steps and actions to rectify the breach.

9. Amendment to "Chapter 3 - Fund Information" on page 14 of the Prospectus

The following new information on "Use of Derivatives" and "Securities Lending and Repurchase Transactions" are hereby inserted immediately after investment limits and restrictions:

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

Use of Derivatives

Calculation of Global Exposure to Derivatives and Embedded Derivatives

The global exposure of the Fund is calculated based on commitment approach and is calculated as the sum of:

- (a) the absolute value of the exposure of each individual derivative not involved in netting or hedging arrangements;
- (b) the absolute value of the net exposure of each individual derivative after netting or hedging arrangements; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC derivatives.

Netting and hedging arrangements may be taken into account to reduce the Fund's exposure to derivatives.

Netting arrangements

The Fund may net positions between:

- (a) derivatives on the same underlying constituents, even if the maturity dates are different; or
- (b) derivatives and the same corresponding underlying constituents, if those underlying constituents are transferable securities, money market instruments, or units or shares in collective investment schemes.

Hedging arrangements

The marked-to-market value of transferable securities, money market instruments, or units or shares in collective investment schemes involved in hedging arrangements may be taken into account to reduce the exposure of the Fund to derivatives.

The hedging arrangement must:

- (a) not be aimed at generating a return;
- (b) result in an overall verifiable reduction of the risk of the Fund;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the same asset class being hedged; and
- (e) be able to meet its hedging objective in all market conditions.

Calculation of Exposure to Counterparty of OTC derivatives

The exposure to a counterparty of an OTC derivative must be measured based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC derivative.

The total exposure to a single counterparty is calculated by summing the exposure arising from all OTC derivative transactions entered into with the same counterparty.

Subject to the aggregate limit under the "Investments Limits and Restrictions" section, the maximum exposure of the Fund to the counterparty, calculated based on the above method, must not exceed 10% of the Fund's NAV.

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

Lending and
Repurchase

Money Market Instruments

Investments in commercial papers and treasury bills are valued each day based on the price quoted by bond pricing agency (“BPA”) registered with the SC. Where we are of the view that the price quoted by BPA differs from the market price by more than 20 basis points, we may use the market price provided that we:

- (a) record our basis for using a non-BPA price;
- (b) obtain the necessary internal approvals to use the non-BPA price; and
- (c) keep an audit trail of all decisions and basis for adopting the market yield.

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

For investments in money market instruments with remaining term to maturity of not more than 90 days at the time of acquisition, such instruments are valued each day based on amortised cost. The risk of using amortised cost accounting is the mispricing of the money market instruments. We will monitor the valuation of such money market instruments using amortised cost method against the market value on a daily basis and will use the market value if the difference in valuation exceeds 3%.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this First Supplementary Prospectus in connection with the offer of units in the unit trust known as Maybank Global Sustainable Technology Fund (hereinafter referred to as “the Fund”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

A member firm of Ernst & Young Global Limited

This First Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 18 January 2021.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the MITA shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign-sourced income

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax.

The Guidelines issued by the Malaysian Inland Revenue Board on 29 September 2022 define the term “received in Malaysia” to mean transferred or brought into Malaysia, either by way of cash⁴ or electronic funds transfer⁵.

Foreign-sourced income (FSI) received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

Income Tax (Exemption) (No. 6) Order 2022 has been issued to exempt a “qualifying person”⁶ from the payment of income tax in respect of dividend income which is received in Malaysia from outside Malaysia, effective from 1 January 2022 to 31 December 2026. The exemption will however not apply to a person carrying on the business of banking, insurance or sea or air transport. As the definition of “qualifying person” does not include unit trust funds, it would mean that resident unit trust funds would technically not qualify for the exemption, unless there are further updates thereto.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

⁴ “Cash” in this context is defined as banknotes, coins and cheques.

⁵ “Electronic funds transfer” means bank transfers (e.g., credit or debit transfers), payment cards (debit card, credit card and charge card), electronic money, privately-issued digital assets (e.g., crypto-assets, stablecoins) and central bank digital currency.

⁶ “Qualifying person” in this context means a person resident in Malaysia who is:

- (a) An individual who has dividend income received in Malaysia from outside Malaysia in relation to a partnership business in Malaysia;
- (b) A limited liability partnership which is registered under the Limited Liability Partnerships Act 2012; or
- (c) A company which is incorporated or registered under the Companies Act 2016.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

The Board of Directors
Maybank Global Sustainable Technology Fund
4 January 2023

6

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the ITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

- Reinvestment of distributions - unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

Investment Objective	The Fund seeks to achieve capital appreciation by investing primarily in a portfolio of global technology-related equities. <i>Note:</i> <i>There is no guarantee that the Fund's investment objective will be achieved and your capital may be at risk.</i> <i>Any material change to the investment objective of the Fund would require Unit Holders' approval.</i>		
Investment Policy and Strategy	<u>INVESTMENT APPROACH</u> The Fund seeks to achieve its investment objective by investing directly or indirectly (through collective investment schemes such as exchange-traded funds) in equities and equity-related securities (including but not limited to warrants, American Depositary Receipts and Global Depositary Receipts) of technology-related companies worldwide. The Manager's and Investment Adviser's approach to investing in global technology companies will be through bottom up security selection based on proprietary fundamental research and valuation analysis. The Manager and Investment Adviser will focus on direct contact with company management, suppliers, and competitors in determining if a security is attractively priced relative to its business prospects. The investments of the Fund are conviction-weighted based on supply and demand characteristics, secular trends, existing product evaluations, and new product developments. The Fund will invest in markets where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions ("IOSCO"). The foreign equity markets which the Fund will invest in include, but are not limited to China, Canada, Hong		

Kong, Japan, Netherlands, Taiwan, United Kingdom, United States of America, Germany, South Korea and Switzerland.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (“ESG”) CONSIDERATIONS

The Fund seeks to adopt a unique investment approach that integrates both active management as well as ESG considerations in a complementary manner.

As the Fund is a qualified SRI fund, the investments of the Fund will be subject to ESG integration methodology. ESG considerations play an important role in how the Manager and the Investment Adviser evaluate ideas.

The Manager and Investment Adviser place a particular emphasis on corporate governance, generally seeking to invest in companies with strong boards (that is, boards with a high degree of independence, comprised of professionals with relevant experience and insights, and with an appropriate level of diversity) and management teams with a history of thoughtful capital allocation, which promote a strong corporate culture (that is, qualitative assessment of a company’s ability to attract and retain high quality talent), and are compensated pursuant to a responsible incentive structure. Companies with a history of thoughtful capital allocation typically have management teams that make investment decisions based on long-term strategic goals over short-term objectives; for example, the Manager and the Investment Adviser do not prefer acquisitions or share buybacks being used to boost short-term earnings results, but prefer to see capital being allocated in a way that builds shareholder value over the long-term.

Social considerations are also important when evaluating companies with access to large customer data sets, particularly as it pertains to the company’s transparency surrounding the type of data collected, the manner in which the data are used, and the circumstances under which the data might be shared with others.

The Manager and the Investment Adviser may also consider the environmental impact of companies developing technologies which contribute to lower carbon emissions, the creation or use of renewable sources of energy, and improved sustainability. When assessing a company’s environmental impact, the Investment Adviser’s ESG analysts will look for the following:

- i) a strong culture with a high level of accountability throughout the organization is an important part of the investment process. They will look for companies that want to be “good neighbours”, which have a strong indicator of good governance, as well as good environmental stewardship; and
- ii) companies that are relentlessly focused on driving greater efficiencies in their operations, which reduce the amount of waste and thus energy and material resources consumed during the manufacturing process.

In addition, the Manager and the Investment Adviser’s portfolio management team may consult the Investment Adviser’s ESG analysts for insight on material factors of differentiation between companies within regional and sector peer groups. Furthermore, the Investment Adviser’s ESG analysts may support the Manager and the Investment Adviser’s

ability to identify global best practices, prepare for companies' engagement and collaborate on new research inputs.

The Manager, at the point of investment, will not consider those companies that are in breach of environmental law and international human rights law (including but not limited to human rights and/or child labour violation) and will exclude companies that are dealing directly with weaponry and armament. For clarity purposes, the Manager will exclude companies that have 5% or more of revenues tied to weaponry and armaments.

At times, the Manager may, in consultation with the Investment Adviser:

- (i) choose to exclude a company from the Fund's investment universe based on ESG considerations; and
- (ii) choose to include a company which may place greater emphasis on corporate governance where the governance consideration weighs more than the environmental or social considerations, or where the governance consideration is the sole consideration. For example, there could be situation where the company might have history in breach of social aspects (e.g., data privacy breached) or environmental aspects (e.g., high carbon emission); however, the company's board is committed and has depicted its effort working towards rectifying and improving the environmental (e.g., shifting towards clean energy usage / less waste produced) or social condition (e.g., improved cybersecurity measurement and efforts) which have positive financial materiality impact in the longer term.

The Manager and the Investment Adviser will generally place greater consideration on ESG factors that are financially material when making investment decisions.

The Manager will adopt a forward looking and dynamic view of risk strategy by assessing the fundamentals of the companies and engage the Investment Adviser periodically for updates on the companies to ensure that the companies which the Fund invests in are in line with the ESG considerations adopted by the Fund, and the overall impact of the investments of the Fund is not inconsistent with any other ESG considerations.

If the companies that the Fund invests in show persistent deterioration in their ESG factors and/or sustainability characteristics, the Manager may seek to dispose of the Fund's investments in such companies within an appropriate timeframe, on best effort basis.

OTHER CONSIDERATIONS

The Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities and our assessment of the market outlook.

The Fund will use derivatives such as currency forwards for hedging purposes to manage the currency risk of the hedged Classes.

Liquid assets

The Fund may invest in liquid assets such as deposits and money market instruments.

Asset Allocation	Asset Type	% of the NAV
	Global equities and equity related securities ¹	Minimum 80% of the Fund's NAV
	Collective investment schemes ("CIS") ²	Up to 20% of the Fund's NAV
	Liquid assets ³	Up to 20% of the Fund's NAV
Notes: ¹ Equity related securities include but are not limited to warrants, American Depositary Receipts and Global Depositary Receipts that are listed in stock exchanges. ² CIS include but are not limited to exchange traded funds with technology-related stocks as the underlying investments. ³ Liquid assets comprise of deposits and money market instruments.		
Temporary Defensive Position	The Manager may adopt temporary defensive positions to protect the Fund's investments to respond to adverse market, political, economic or any other conditions by holding up to 100% of the Fund's NAV in deposits and money market instruments that may be inconsistent with the Fund's principal investment strategy and asset allocation.	

RISK FACTORS

FUND	Maybank Global Sustainable Technology Fund
General Risks of Investing in the Fund	<u>Market Risk</u> Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV. We will monitor the financial markets closely and act on any adverse news accordingly. <u>Inflation Risk</u> This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased. <u>Liquidity Risk</u> Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices. <u>Loan Financing Risk</u> This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan/financing repayments. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan/financing. <u>Manager's Risk</u> This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by

	us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us. <u>Non-Compliance Risk</u> This risk refers to the possibility that we may not follow the provisions set out in this Prospectus or the Deed or the law, rules or guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. We aim to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines. <u>Returns Are Not Guaranteed</u> Investors should be aware that there is no guarantee of any returns, i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institution which carry a specific rate of return, the Fund does not provide a fixed rate of return.
Specific Risks of the Fund	<u>ESG Investment Risk</u> As a qualified SRI fund, the investments of the Fund will be subject to ESG integration methodology. By subjecting the Fund to the ESG integration methodology, it may result in the Fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their characteristics when it might be disadvantageous to do so. The Fund may use one or more different third party ESG research data providers and/or internal analysis by the Investment Adviser. In assessing the eligibility of the company of a security based on ESG considerations, there is a dependence upon information and data from third party ESG research data providers and internal analysis by the Investment Adviser, which may be incomplete, inaccurate or unavailable. As a result, there is a risk to incorrectly assess a security or company. There is also a risk that the Investment Adviser may not apply the relevant criteria resulting out of the ESG research correctly or that the Fund could have indirect exposure to companies who do not meet the relevant criteria (used in the ESG considerations). Furthermore, ESG considerations are subjective and it is therefore possible that an investment may not perform in a way that an investor considers to be sustainable or responsible, even though it has been selected in accordance with the ESG criteria applied in the portfolio construction process for the Fund. <u>Stock Specific Risk</u> Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV. <u>Technology Sector Risk</u> Companies with similar characteristics may be grouped together in broad categories called sectors. Sector risk is the risk that securities of companies within specific sectors of the economy can perform differently than the overall market. This may be due to changes in regulatory or competitive environment or to changes in investor perceptions regarding a sector. As the Fund invests

primarily in the technology-related companies worldwide, the Fund's performance may be more susceptible to any developments which affect the technology sector emphasized by the Fund.

The technology sector is subject to rapid and significant changes in technology that are primarily driven by the increasing pace of technological upgrades, evolving industry standards, ongoing improvements in the capacity and quality of digital technology, shorter development cycles for new products and enhancements and changes in customer requirements and preferences. The timely and successful introduction of new products will affect the success of companies in the technology sector. Investments of the Fund in technology sector can be adversely affected by the failure and delays in obtaining financing or regulatory approval, intense competition with numerous alternative technologies, product incompatibility, mismatched consumer preferences and the rapid obsolescence and research and development of new products, and as a cyclical sector be subject to slowing economic conditions.

Initial Public Offering Risk

Share prices of newly-listed public companies may fluctuate significantly over short periods of time. Such newly-listed public companies typically exhibit higher stock price volatility post their initial public offering driven by a number of factors including market sentiment as part of the price discovery process, but tend to settle at a lower level over a more moderate time frame. As such, investing in newly-listed public companies may contribute to greater price volatility within the Fund.

Active Trading Risk

High portfolio turnover rates that are associated with active trading may result in higher transaction costs, which can adversely affect the Fund's performance. Active trading tends to be more pronounced during periods of increased market volatility.

Currency Risk

As the Base Currency is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class) will affect the Unit Holder's investments in those Classes (other than USD Class). The impact of the exchange rate movement between the Base Currency and the currency denomination of the Class (other than USD Class) may result in a depreciation of the Unit Holder's holdings as expressed in the Base Currency.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD Class and MYR Class) but it does not entirely eliminate currency risk between the Class and the Base Currency. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD Class and MYR Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged Class.

Interest Rate Risk

Interest rate risk refers to the impact of interest rate changes on the valuation of money market instruments and deposits. When interest rates rise, money

market instruments prices generally decline and this may lower the market value of the Fund's investment in money market instruments. The reverse may apply when interest rates fall.

Interest rate fluctuations affect the deposits' returns of the Fund. Interest rates offered by the financial institutions will fluctuate according to the overnight rate policy determined by Bank Negara Malaysia and this has direct correlation with the Fund's investment in deposits. The Fund's future reinvestment in deposits will benefit from the higher interest rate and in the event of falling interest rates, the Fund's future investment in deposits will be reinvested at lower interest rates which in turn will reduce the Fund's potential returns.

Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, if the Fund invests a significant portion of its assets in issuers located in a single country, a limited number of countries, or a particular geographic region, it assumes the risk that economic, political and social conditions in those countries or that region may have a significant impact on the Fund's investment performance. This in turn may cause the NAV of the Fund or prices of Units to fall.

Equity Related Securities Risk

The Fund may invest in equity related securities equivalent to shares such as warrants. The price of warrants is typically linked to the underlying stocks. However, the price and performance of such warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Warrants that are not exercised at maturity will become worthless and will negatively affect the NAV of the Fund.

The Fund's investment in American Depositary Receipts and Global Depositary Receipts are also subject to the same risks as the equity shares of companies they are issued for and will fluctuate in value due to market, economic, political and other factors. American Depositary Receipts and Global Depositary Receipts are exposed to counterparty risks in the handling of the depositary receipts, may have differing accounting regimes from underlying assets, additional regulatory scrutiny, and may face unequal voting rights or economic interests relative to underlying shares. The prices of American Depositary Receipts and Global Depositary Receipts may diverge from the price of their underlying shares. Any adverse price movements of such American Depositary Receipts and Global Depositary Receipts will adversely affect the Fund's NAV.

Risk of Investing in Emerging Markets

The Fund may invest in emerging markets which exhibit lower levels of capital market development when compared to those of developed markets. Given the fast-changing investment landscape of emerging markets, areas such as accounting standards, legal and business environment in emerging markets may be less organised when compared to developed markets, increasing the risks of investing in emerging markets. Generally, investment returns in emerging markets are expected to be more volatile than those in developed markets, resulting in potentially higher investment risk that may affect the Fund's returns. In addition to conducting investment research, such emerging markets risks may be mitigated by diversifying the Fund's exposures across various markets and geographic regions.

	<u>Credit and Default Risk</u> This risk relates to the creditworthiness of a financial institution or an issuer and its expected ability to make timely payments of interest and/or principal. Any adverse situations faced by the financial institution or issuer may impact the value as well as liquidity of the deposits or money market instruments. In the event a financial institution or an issuer defaults on its obligations, i.e. unable to service timely payments of interest and/or pay the principal amount upon maturity, this may result in the loss of capital and/or income, thus reducing the value of the Fund. We will conduct ongoing monitoring of the financial institution's or issuer's credit ratings. Current deposits that the Fund has placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and interest foregone, causing the performance of the Fund to be adversely affected. Placement with financial institution will also be made based on prudent selection. <u>Investment in Collective Investment Schemes</u> Investing in collective investment schemes may be more costly to the Fund than if the Fund had invested in the underlying investments directly as the Fund will indirectly be paying the fees and expenses of the collective investment schemes in addition to the Fund's direct fees and expenses. Investing in other collective investment schemes may be subject to the risk that (i) the valuations of the Fund may not reflect the true value of the underlying collective investment schemes at a specific time which could result in significant losses or inaccurate pricing for the Fund and/or (ii) the valuation may not be available as at the relevant valuation point for the Fund. The Fund's investments in collective investment schemes may subject the Fund to additional risks (such as risk associated with the investment manager of the collective investment scheme) than if the Fund would have invested directly in the underlying investments of the collective investment schemes. The risk associated with the investment manager of the collective investment schemes includes but are not limited to the risk of non-adherence to the investment objective, strategy and policies of the collective investment schemes, the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems of the investment manager of the collective investment schemes, and the risk that the collective investment schemes may underperform due to poor investment decisions by the investment manager of the collective investment schemes. <u>OTC Counterparty Risk</u> OTC counterparty risk is the risk associated with the other party to an OTC derivative transaction not meeting its obligations. If the counterparty to the OTC derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC derivatives' counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund.
Risk Management Strategies	Risk management is an integral part of our investment management process. The Manager employs measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity markets and liquidity risks are high, the Manager may reduce the Fund's allocation in equities and equity-related securities and increase its asset allocation to liquid assets to safeguard the investment portfolio of the Fund.

	The Fund's exposure will also be spread across various countries, counterparties and companies in the technology sector as diversification strategy is also recognized by us as an essential risk management strategy for the Fund. In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by the Manager and the Investment Adviser to ensure that the Fund's investment objective is met.
--	---

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.

(4) FEES, CHARGES AND EXPENSES

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. This apportionment is expressed as a ratio and is calculated as a percentage. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD100 and the size of MYR Class, MYR (Hedged) Class and USD Class over the size of the Fund is 40%, 30% and 30% respectively, the ratio of the apportionment based on the percentage will be 40: 30: 30, 40% being borne by MYR Class, 30% being borne by MYR (Hedged) Class and 30% being borne by USD Class.

Please refer to the illustration in Section 5.3 of this Prospectus below for better clarity.

Charges

The following describes the charges that you may **directly** incur when buying or redeeming Units:

4.1 Sales Charge

Notes:

- (1) *We reserve the right to waive the transfer fee.*
- (2) *We reserve the right to decline any transfer request if such transfer will expose us to any liability and/or will contravene any law or regulatory requirements, whether or not having the force of law.*

4.4 Switching Fee

Illustration - Computation of management fee

Example:

Assuming that the NAV of the Fund is USD100 million for that day, the accrued management fee for the Fund for that day would be:

$$\frac{\text{USD}100,000,000 \times 1.80\%}{365 \text{ days}} = \text{USD}4,931.51 \text{ per day}$$

The management fee is calculated and accrued daily, and is paid monthly to us.

Illustration - Computation of trustee fee

(5) TRANSACTION INFORMATION

5.1 Bases of Valuation of Investments

Listed securities (including listed collective investment schemes)

Listed securities will be valued daily based on the last done market price.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the listed securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of listed securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the listed securities would be valued at fair value, as determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.

Money Market Instruments

Investments in commercial papers and treasury bills are valued each day based on the price quoted by bond pricing agency (“BPA”) registered with the SC. Where the Manager is of the view that the price quoted by BPA differs from the market price by more than 20 basis points, the Manager may use the market price provided that the Manager:

- (i) records it basis for using a non-BPA price;
- (ii) obtains the necessary internal approvals to use the non-BPA price; and
- (iii) keeps an audit trail of all decisions and basis for adopting the market yield.

For investments in money market instruments that are not quoted by BPA, such instruments are valued each day at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

Deposits

Deposits placed with financial institutions are valued each day by reference to the value of such investments and the interests accrued thereon for the relevant period.

Unlisted Collective Investment Schemes

Investment in unlisted collective investment schemes will be valued based on the last published repurchase price.

Derivatives

Derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

Foreign Exchange Translation

All the foreign assets of the Fund are translated on a daily basis to the Base Currency, USD, using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by the FIMM or any relevant laws.

Any other investments

Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

5.2 Valuation Point

The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of the next Business Day.

As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published 2 Business Days later (i.e., the price will be 2 days old).

5.3 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund's liabilities from the value of the Fund's assets, at a valuation point.

Please note that the example below is for illustration only:

		Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)
	Value of the Fund/ Class	101,500,000.00	40,600,000.00	30,450,000.00	30,450,000.00
	Multi-class ratio[^]	100%	40%	30%	30%
Add:	Other assets (including cash) & income	200,000.00	80,000.00	60,000.00	60,000.00
Less:	Liabilities	100,000.00	40,000.00	30,000.00	30,000.00
	NAV before deducting management fee and trustee fee for the day	101,600,000.00	40,640,000.00	30,480,000.00	30,480,000.00
Less:	Management fee for the day		$(40,640,000 \times 1.80\% / 365 \text{ days})$	$(30,480,000 \times 1.80\% / 365 \text{ days})$	$(30,480,000 \times 1.80\% / 365 \text{ days})$
		5,010.41	2,004.16	1,503.12	1,503.12
Less:	Trustee fee for the day		$(40,640,000 \times 0.06\% / 365 \text{ days})$	$(30,480,000 \times 0.06\% / 365 \text{ days})$	$(30,480,000 \times 0.06\% / 365 \text{ days})$
		167.01	66.80	50.10	50.10
Total NAV (USD)		101,594,822.58	40,637,929.04	30,478,446.78	30,478,446.78

[^]Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 270,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

		Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)
	NAV	101,594,822.58	40,637,929.04	30,478,446.78	30,478,446.78
Divide:	Units in circulation	270,000,000	108,000,000	81,000,000	81,000,000
	NAV per Unit of the Class (USD)		USD0.3763	USD0.3763	USD0.3763
	Conversion to MYR (at USD1:MYR4. 00 exchange rate)		MYR1.5052	MYR1.5052	

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

5.4 Pricing of Units

Single Pricing Regime

We adopt a **single pricing regime** in calculating your investments into and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). You would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

Selling Price of Units

The Selling Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the request to purchase Units is received by us (Forward Pricing). The sales charge applicable to the Class is payable by you in addition to the Selling Price for the Units purchased.

Calculation of Selling Price

Illustration - Sale of Units

Example:

If you wish to invest RM10,000.00 in MYR Class before 4.00 p.m. on 1 September 2020, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

$$\begin{aligned}
 \text{Sales charge incurred} &= \frac{\text{investment amount}}{1 + \text{sales charge (\%)}} \times \text{sales charge (\%)} \\
 &= \frac{\text{RM10,000}}{1 + 5.00\%} \times 5.00\% \\
 &= \text{RM476.19}
 \end{aligned}$$

$$\begin{aligned}
 \text{Net investment amount} &= \text{investment amount} - \text{sales charge} \\
 &= \text{RM10,000} - \text{RM476.19} \\
 &= \text{RM9,523.81}
 \end{aligned}$$

$$\begin{aligned}
 \text{Units credited to investor} &= \text{Net investment amount} / \text{NAV per Unit} \\
 &= \text{RM9,523.81} / \text{RM1.000} \\
 &= 9,523.81 \text{ Units}
 \end{aligned}$$

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

Redemption Price of Units

The Redemption Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

Calculation of Redemption Price

Illustration - Redemption of Units

Example:

If you wish to redeem 10,000.00 Units from MYR Class before 4.00 p.m. on any Business Day, and if no redemption charge is imposed, the total amount to be paid to you will be as follows:

In the event that the NAV per Unit for MYR Class at the end of the Business Day on 1 September 2020 = RM1.0000

Redemption charge payable by you = $0\% \times [10,000.00 \text{ Units} \times \text{RM}1.0000] = \text{RM}0.00$

The total amount to be paid to you will be:

= the number of Units to be redeemed multiplied with the NAV per Unit less redemption charge

= $[10,000.00 \text{ Units} \times \text{RM}1.0000] - \text{RM}0.00$

= **RM10,000.00**

Therefore, you will receive **RM10,000.00** as redemption proceeds.

5.5 Incorrect Pricing

We shall ensure that the Fund and the Units of the Class are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation and pricing of the Fund and/or Units, any incorrect valuation and pricing of the Fund and/or Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(i) by us to the Fund; or

(ii) by the Fund to you and/or the former Unit Holders.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.

TRANSACTION DETAILS

5.6 How and where to Purchase and Redeem Units of the Fund

You can purchase and sell Units of the Fund at any of our appointed distributors as set out in Section 13 of this Prospectus.

5.7 Investment

The minimum initial investment and minimum additional investment for each Class of the Fund is as set out below:

	MYR Class	MYR (Hedged) Class	USD Class
Minimum Initial Investment [^]	RM1,000	RM1,000	USD1,000
Minimum Additional Investment [^]	RM100	RM100	USD100

[^] or such other lower amount as determined by us from time to time.

Investors are recognised as Unit Holders only after they have been registered in the Unit Holders' register. The registration takes effect from the date we receive and accept the application to purchase Units from you together with the payment thereof.

Unit holdings for each Class

You should note that there are differences when purchasing Units for each Class in certain circumstances.

There is no difference in terms of investment value of each Unit Holder, and all Unit Holders would have equal voting rights at Unit Holders' meetings of the Fund (if voting is done by poll as the Units held by him or her will be proportionate to the value of the Units).

However, this would not apply in situations where a show of hands is required to pass a resolution at a Unit Holders' meeting of the Fund.

5.8 Redemption of Units

You may redeem part or all of your Units by simply completing the redemption request form and returning it to us.

The Unit holdings for each Class after the redemption must not be less than the Unit holdings set out below:

	MYR Class	MYR (Hedged) Class	USD Class
Minimum Unit holdings [^]	1,000 Units	1,000 Units	1,000 Units

[^] or such other lower number of Units as determined by us from time to time.

If your Unit holdings are, after a redemption request, below the minimum Unit holdings for the Class, full redemption will be initiated.

You shall be paid within 10 calendar days from the date the redemption request is received by us.

Other than the above conditions, there is no restriction in terms of the minimum number of Units for redemption and the frequency of redemption for the Fund.

5.9 Transfer of Units

Transfer of ownership of Units is allowed for this Fund.

Transfer of ownership from the account of the deceased Unit Holder to his/her personal representative will only be undertaken through the process of estate administration and death claims procedures.

5.10 Switching

You are permitted to switch from and to other funds managed by us provided that both funds are denominated in the same currency. Switching will be made at the prevailing NAV per Unit of the Class to be switched from on a Business Day when the switching request is received and accepted by us, subject to the availability and any terms and conditions imposed by the intended fund to be switched to, if any.

There is no restriction on the frequency of switching. However, you must meet the minimum Units for redemption and the minimum Unit holdings (after the switch) of the Class that you intend to switch from unless you are redeeming all your investments from the Class.

Switching is treated as a withdrawal from 1 fund and an investment into another fund. If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charges of these 2 funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

For example:-

Scenario 1

If you invest in a fund with no sales charge and now wish to switch to another fund which has a sales charge of 1.00% on the net asset value per unit, you will be charged the difference in sales charge of 1.00% on the net asset value per unit of the fund being switched into in addition to the switching fee of the fund you switched from.

Scenario 2

If you invest in a fund with a sales charge of 1.00% on the net asset value per unit and now wish to switch to another fund which has no sales charge, you will not be charged any sales charge.

Any switching request made **on or before the cut off time of 4.00 p.m.** will be made at the NAV per Unit of the Class to be switched from when the switching request is received and accepted by us on a Business Day, subject to availability and any terms and conditions imposed by the intended fund, if any.

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

We reserve the right to vary the terms and conditions for switching from time to time, which shall be communicated to you in writing.

Note: Our distributors may have an earlier cut-off time for receiving applications in respect of switching of Units. Please check with the respective distributors for their respective cut-off time.

5.11 Dealing Cut-Off Time for Investment and Redemption of Units

The dealing cut-off time is at **4.00 p.m.** on a Business Day.

Any application received on or before the cut-off time on a Business Day will be processed on the same Business Day based on the Forward Pricing of the Fund.

Any application received after the cut-off time on a Business Day will be treated as having been received on the next Business Day and will be processed on the next Business Day based on the next Forward Pricing of the Fund.

The above is in accordance with the standards issued by FIMM on the dealing cut-off time.

Note: Our distributors may have an earlier cut-off time for receiving applications in respect of any dealing in Units. Please check with the respective distributors for their respective cut-off time.

5.12 Notice of Cooling-off Period

A cooling-off right refers to the right of the individual Unit Holder to obtain a refund of his investment in the Fund if he so requests within the cooling-off period. Reinvestment Policy

We will create the Units based on the NAV per Unit** at the income payment date (which is within 10 calendar days from the Ex-distribution Date).

*****There will not be any cost to Unit Holders for reinvestments in new additional Units.***

5.14 Anti-Money Laundering Policies and Procedures

We have established this set of policies and procedures to prevent money laundering activity and to report transactions if it appears to be suspicious, in compliance with the provision of Anti Money-Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act, 2001 ("AMLA"). Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this First Prospectus ("the Prospectus") in connection with the offer of units in the unit trust known as **Maybank Global Sustainable Technology Fund** (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
- (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
